

### PAY BILLS AS THEY COME IN MEIGHEN PLAN

Premier of Canada in Great Address at Montreal Outlines Financial Views.

NATION MUST HAVE \$400,000,000 YEARLY

No Pronouncements on Dominion Policy Were Made at Citizens' Banquet.

(Continued from page 1.) As to the policy of the government in regard to finance and taxation, Mr. Meighen said that he would say little for the budget speech, and he pointed out that the country was facing a two billion war debt which entailed some \$24,000,000 of interest, while its commitments in railways—especially the Canadian Northern—were so large that it was necessary to consider for some years to come—and other obligations made up a total of revenue required in the neighborhood of \$400,000,000 yearly. "The gospel I preach on this subject is the gospel of pay as you go. A programme of expenditure and borrowing in unusual measure, popular, but we are just at the time when such a policy would be foolishness."

All Contribute Some. "To get the money to pay as we go now taxes have been imposed and the principles we have followed are these: We have taken the broadest possible basis of taxation, aiming first to have all or nearly all, contribute a little. Ability to pay would, he said, be mainly by the principle of tax taxation. Within the limit that success should not be penalized nor capital burdened. Dissolving the tariff policy of the government, Premier Meighen laid down the exact lines of the government's position, summing it up in the sentence that "I want the goods we make in this country to be made here still—and more besides—even though they are the necessities of life," and he urged that success was impossible and that Canada could not grow "as a one sided field-product country."

Criticism Mr. Fielding. Turning to the speech of Hon. W. S. Fielding last night on behalf of the Liberal candidate in the West, Peterborough-by-election, he said that the report of that speech in which Mr. Fielding did not suggest the lowering of a single duty in respect of goods manufactured in Peterborough, was in direct contradiction to the Liberal tariff platform as functioned at the Liberal convention in Ottawa eighteen months ago. He quoted from that platform showing that the Liberal party had pledged itself to a general revision of the tariff on many goods which plants in Peterborough were manufacturing, and denounced Mr. Fielding's speech as "a proclamation of infidelity."

Fletcher's Castoria is strictly a remedy for infants and children. Foods are specially prepared for babies. A baby's medicine is even more essential for babies. Remedies especially prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of infants and children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

### Harbor Commission Act To Be Amended

City to Seek New Arrangement With C.P.R. for Upkeep of West Side Trestle.

The City Council yesterday discussed the matter of a new arrangement for the trestle leading to the West Side docks between the city and the C. P. R. and appointed a committee to look further into the matter and report back to the Council. It was also decided to have the city solicitor prepare a bill for enactment at the next session of the Legislature to amend the Act providing for the leasing of a trestle on harbor committee share and to give the Chamberlain more time to check voters' lists before a civic election. The report asked for by Commissioner Frink, re amount of "tax" levied in the city was filed by Mayor Schofield and the Commissioner asked for a further report showing the amount paid formerly by the Bank of Montreal and Bank of British North America when these institutions were separate. Mayor Schofield was given authority to engage the services of H. E. M. Kenist to obtain the unit cost of developing power from coal by the New Brunswick Power Co.

West Side Trestle.

Commissioner Bullock brought up the matter of renewing the agreement with the C. P. R. for the use of the trestle leading to South Rodney Wharf berth which had expired on November 1st last. Under the present agreement the city had to maintain this trestle and it cost a considerable sum each year. He felt that as the C. P. R. were the only users of this trestle, they should maintain it and had taken the matter up with Mr. Woodman, who had expressed the opinion that there was no reason why the old agreement should not be renewed for another five years.

Two Solutions Possible. The Commissioner said he had two solutions of the problem in mind, the first might take over the trestle and charge the railway on each car which went down the wharf or give the railway the fee simple for a nominal sum and then maintain the trestle.

The city solicitor, who was present at the meeting, thought the former method would bear the heaviest on the railway company.

It was decided to refer the matter to a committee composed of the Mayor and Commissioners Bullock and Frink to bring in a report.

Suggested Legislation. Hon. Mr. Baxter suggested the city should have whatever legislation proposed to ask for this year advertised and after some discussion of the act providing for a plebiscite on harbor committee share was decided to have the city solicitor prepare a draft of a bill to bring this legislation more in line with the Dominion legislation, and to prepare a bill giving the Chamberlain more time in which to check the voters list for delinquent taxpayers.

Commissioner Bullock was given authority to call for tenders for the purchase of the Lordly and Monahan houses.

Bank Taxes. The Mayor submitted his report on the amount of taxes paid by the banks in the city, asked for by Commissioner Frink. The return showed that in 1919 the banks paid on real estate \$15,210.57; business tax, \$15,611.23, a total of \$30,821.80. In 1920, real estate, \$18,325.94; business tax, \$20,518.82; total, \$38,844.76.

Commissioner Frink asked that a further report, showing the amount paid by the banks of British North America and Montreal, when the two were separate organizations be filed.

On motion of Commissioner Thornton, the Mayor was authorized to obtain the services of H. E. M. Kenist to make a report on the cost of producing electric power at the plant of the New Brunswick Power Co.

### All Night Task To Extinguish Chimney Fire

Gagetown, Feb. 3.—The Gagetown fire brigade was called out twice on Monday evening for a chimney fire at the residence of the Misses Simpson, one of the most important buildings in the town, being also occupied by the Post Office, the Bank of Nova Scotia and the flat occupied by F. H. DuVerney and family. The fire proved the longest and most stubborn the town has ever experienced. Flames began to come out of the chimney at half-past five Monday evening and it was not until three o'clock the following morning that the danger was over.

Called The Brigade. At seven o'clock the fire brigade was called out, and by two o'clock it was decided that the fire had finished burning. At one o'clock smoke was noticed coming up through the floor in one of the rooms, and the firemen found that the heavy beams supporting the chimney had been burned into a depth of six inches, and the fire was gaining rapid headway in the masonry and woodwork. It was necessary to tear up the floors and walls around the chimney, and it was two hours before the danger was over.
