**THEN**

**NOW**

Then—a hot, sultry day was something to be endured, since it could not be cured.

Now—there is a cure.

The motor car has turned the "cross" days into days of comfort for the whole family.

And here is a car—the new *light weight* Willys Six—which will gladden the hearts of the six-cylinder enthusiasts—and of the discriminating who have not yet found just the car they have wanted.

This announces a scientific development in Sixes. Heretofore the great problem most manufacturers had to contend with was the all important factor of *proper and perfect balance*.

Either the car was too heavy and consequently underpowered, or else too light, and as a result overpowered.

In both cases this meant poor performance, costly upkeep and a short life.

So it is with considerable gratification that we announce what we believe to be one of the most scientifically balanced, popular priced Sixes on the market.

In a word, this means better performance, lower upkeep and longer life.

The motor is 45 horsepower. It is a wonder for work; quick as a flash on the getaway; speedy; surprisingly economical, and develops excess power for all purposes.

Scientific designing has done *more*.

For now, by scientific designing, in the light of our great experience in building sixes, we have produced a *lighter* car without sacrificing sturdiness.

Reduced weight means additional gasoline economy, greater tire mileage and an easier car to handle.

The body design also is new. Long, sweeping, graceful lines distinguish it as one of the year's advanced models. It's a perfect beauty.

Your wife will fall in love with it on sight. Don't let her see it until you have made up your mind to buy. For after one look she'll give you no peace until you do buy.

The Willys Six is *the* Six for you.

It has greater power; lighter weight; is unusually roomy, very economical and extremely handsome.

You'll be surprised at its wonderful performance, but its price will be even a greater surprise.
