Our War Anniversary Number

OUR War Anniversary Number, next issue, will, we venture to predict, be read by more people than have ever thoroughly read any other Canadian paper. Because we make no attempt at a review of the war, but confine ourselves wholly to the things that the war suggests. We believe in the power of imagination. And after four years of war, the imagination seems to be one of the really precious things that war cannot kill, but stimulates. There won't be a dull square inch in the whole issue. We have no experts to give the generals pointers in how to conduct armies. We have no statisticians laboriously preparing facts and figures after the manner of a blue book. But we have—what people will be sure to read. And if not we shall be glad to hear about it.

Your Home Needs Hot Water Heating

Old fashioned heating methods are expensive, unsanitary, and unsatisfactory. Stoves and hot air furnaces are being abandoned. Real Estate men find it hard to sell houses that have not hot water heating because people will no longer put up with the inconvenience and inefficiency of old methods. If your house does not have Hot Water Heating, it will pay you in Health, Comfort and in Money to take out the old and put in the newer and better kind.
