Part XI. Diagnosis of the Diseases of the Muscles, Bones and Joints (Pathological Myology, Osteology and Syndesmology)

Section I. Methods of Examination

	PAGE
A. Examination of the Muscles	2
1. Anamnesis	2
2. Inspection of the Muscles	3
3. Muscle Measurements	3
4. Palpation of the Muscles	4
5. Röntgenology of Muscle	5
6. Histological Examination of Muscle Particles	5
7. Functional Testing of the Muscles	5
B. Examination of the Bones	6
1. Anamnesis	6
2. Inspection of the Bones	6
3. Measurements of the Bones	7
4. Palpation of the Bones	9
5. Röntgenology of Bones	11
6. Examination of the Skeletal Functions	11
7. Influence of Bone Lesions on Neighboring Parts	12
C. Examination of the Joints	12
1. Anamnestic Data	12
2. Inspection and Palpation of Diseased Joints	13
3. Examination of Diseased Joints with Röntgen-rays	15
4. Exploratory Puncture and Exploratory Arthrotomy	16
5. Diagnosis ex juvantibus; Diagnosis ex nocentibus	16
6. The General State of the Body in Joint Disease	17
