

You Need This Dollar Earning Knowledge

2,000 FARMER STUDENTS

Last season, nearly 2,000 students were enrolled in our Correspondence Course in Traction Farming and Engineering. Over 900 attended the Hart-Parr practice schools. The cut shows a group of them in session at Regina, Sask., Canada, Feb. 20th to 29th, 1912.

Practical Course of Home Study

This Correspondence Course is the only practical course ever offered to practical farmers. It comprises 15 lessons in bound booklet form. Lessons that teach you—right in your own home—all about the detail construction, operation and care of gas tractors, and how to do power farming better and cheaper. Text written in simple language, by acknowledged experts. Technical terms explained in a way that everyone can understand.

Get This Money-Making Knowledge

Each lesson brimful of helpful, money making, money saving information and pointers. Entire course worth many dollars to prospective buyers, tractor owners and wage earners.

Take this course. It teaches you how to select the best tractor. How to regulate the fuel, operate levers, control speed, make proper adjustments and repairs, without the help of experts. Shows how to lay out fields, make all kinds of hitches. Teaches tractor owner how to become an expert traction engineer and earn for a good paying position.

Students' Free Practice

Then the practice school begins. Here you get to use their knowledge. Here you get to see the engine right before you. With the engine right before you, you get the details and all the other things that make a tractor run. Expert instructors are on hand to correct your errors, and make you a better tractor operator.

These practice schools are held at practically located points.

Location of Schools

This season, practice schools will be held at the following practically located points.
