3 FEEDS FOR ONE CENT

STRAIGHT TALK TO FARMERS AND STOCKMEN

INTERNATIONAL STOCK FOOD, "THREE FEEDS FOR ONE CENT," is a purely vegetable, medicinal preparation, composed of nature's remedies such as roots, herbs, bark, seeds, etc. It is entirely harmless, even if taken into the human system, and is fed to stock in small quantities in addition to the regular grain ration in order to promote digestion and aid assimilation. The average farm animal does not digest more than 25 per cent of the grain fed, 45 per cent, passing through without being digested. By taking up the digestive apparatus, "International Stock Food" prevents this waste, and saves money over the ordinary way of feeding. You believe in using up-to-date machinery, because it saves you money. Why not use up-to-date methods in feeding your stock? This branch of your farm rightly handled will prove a money maker. **Save Many Times Its Cost—Our guarantee is that "International Stock Food" will save you more than its cost; if it does not we refund your money. There is as fair a proposition as we can make.**

**A \$3,000.00 STOCK BOOK
and
A COLORED LITHOGRAPH OF DAN PATCH 1.56**

We will pay you \$10.00 if Book and Lithograph are not as described.

The cover of the Stock Book is a beautiful live stock picture printed in six brilliant colors. Book is 11 1/2 inches long by 6 1/2 inches wide. It cost us over \$2,000 to produce the engravings. It contains an up-to-date veterinary department, which will save any farmer or stockman hundreds of dollars, as it treats of the ordinary diseases to which stock are subject, and tells how to cure them. The large colored lithograph of Dan Patch is 14 feet 4 inches long by 1 foot 9 inches wide, printed in six colors. It shows the International Stock Food Company's model barn in the background, and is worthy of a place in any home.

Save Hay and Oats

Augustine Cove, Lot 25, P.E.I., June 27th, 1904.

INTERNATIONAL STOCK FOOD, TORONTO, ONT.

Gentlemen—

I have fed "International Stock Food" and I think it is the best stock food on the market. I fed it to two horses this spring and they did the work of three horses, for I work them very hard, and all the feed they got from the 10th of May till the crop was in was 100 lbs. of hay, and two gallons and a half of oats a day, and my horses came through as well as my neighbors, and they feed heavier than I. I have come to the conclusion that I have saved half a ton of hay and twenty bushels of oats, and if I live to see next fall I shall procure a further supply of Stock Food from you.

Yours truly,

[Sgd.] JOHN J. ROBINSON.
