Stop that cream leak NOW with a **DE LAVAL** Cream Separator

WHY continue to separate cream
by either "gravity skimming"
or an inferior or worn out
cream separator that loses cream
for you every day just as surely as
as a leaky cream can?

You may have less milk just now,
but with "old" milkers and cold
weather your cream loss is greater
than in spring or summer. Cream
is worth more now, too.

If you will test your skim-milk you
will see for yourself that you can't
afford to wait until next spring.

Let the De Laval
start saving cream
for you right now
and it will earn a
large part of its
cost by spring.

See the nearest
De Laval agent at
once, or if you do
not know him, write
us direct for any de-
sired information.
