

BIRD NEPONSET PRODUCTS

How Do You Save on Roofing?

By taking the roofing that covers the most area for the least money, or is your choice based on the cost per year's service?
 If you want the most economical roofing your money can buy use the good old reliable ready-to-lay NEPONSET Paroid Roofing. That's not an extravagant claim—it is backed by actual facts.

Made in Canada

NEPONSET PAROID ROOFING

cannot rust. Therefore it does not require frequent painting as metal roofs do.
 After sixteen years of service on barns, sheds and even factory and railroad buildings Paroid is still in service. Its cost per year is less than one-fifth of a cent per square foot.
 In addition to longest wear Paroid gives effective fire protection. When you buy it for your barn you settle the roof question permanently and at the least expense. Paroid all over the sides of your barn will make it snug and warm. It is less expensive than other sidings.

Paroid is only one of the NEPONSET Roofings. There are others meeting every requirement and pocketbook. Granitized Shingles for pitch roofs, Proslate the colored roofing, and other roofings for all kinds of buildings, from temporary sheds to the largest railroad buildings.
 A substitute for laths and plaster—NEPONSET Wall Board in different finishes may be applied directly to studding or over old plaster. Sold by dealers everywhere.
 We agree to replace any Neponset Product should it prove defective. We have made this kind of a guarantee for over twenty-five years and will continue to do so as long as we are in business.

Booklet, "Repairing and Building," Free

If you do not know the NEPONSET Dealer in your town write for his name. If there is no dealer there we have a special proposition to make you. We pay the freight.

Beautify and Protect Your Property

Peerless Ornamental Fencing accomplishes two great purposes. It beautifies your premises by giving them that symmetrical, pleasing, orderly appearance, and it protects them by furnishing rigid, effective resistance against marauding animals, etc.

Peerless Ornamental Fencing

is made of strong, stiff, galvanized wire that will not sag. In addition to galvanizing, every strand is given a coating of zinc enamel paint, thus forming the best possible insurance against rust. Peerless ornamental fence is made in several styles. It's easy to erect and holds its shape for years.

Send for free catalog. If interested, ask about our farm and poultry fencing. Agents nearly everywhere. Agents wanted in open territory.

 Yard: Opposite Smallpox Hospital

When The Corn Is Ready To Harvest For Your Silo

you want an ensilage cutter that saves as much labor and time as possible—a cutter that does not require a powerful engine to operate nor clogs when feeding either green corn or dry fodder fast. The machine you need is the

GILSON PAPEC Ensilage Cutter

The one blower cutter you can operate successfully with as small as a 4 h.p. gasoline engine. Not chain driven—there is no lost motion—heavy gears transmit all the power. The "Papec" cuts silage into fine and uniform lengths without stalling. The throwing, blowing, lifting force carries the silage rapidly up into the silo in a steady, full stream, distributing so it packs perfectly. This helps keep the ensilage fresh and sweet.

Write For Free Book
 It illustrates and describes the full line of Papec Ensilage Cutters and explains why these machines save time, money and labor at silo filling time.
