sows and boars; also some from our show herd, head-
ed by our stock boar, Ringleader. Terms and prices
right. John Weir & Son, Paris, Ont., R. R. 1

Stability in Hog Prices.

EDITOR "THE FARMER'S ADVOCATE":

When asked to increase his output of
hogs, it is only natural that the farmer
should inquire what is being done to
protect him from loss. The result of
any action to increase hog production
which may be taken at the present time
will not be apparent on the market until
about twelve months have elapsed,
and the farmer fears that something
may happen within those twelve months
which will influence the price of hogs
and possibly wipe out his profit. It is
only fair, therefore, that a clear state-
ment should be made as to what has
been done and what is under way to
protect the interests of the farmer.

Our Food Controller has made an
announcement that the profits of packing
houses will, in future, be limited and,
that such action will be taken that the
farmer who produces the hogs shall
receive as his share, a fair proportion
of the proceeds derived from the sale
of the hogs. This action on the part
of the Food Controller brings about a
condition of affairs such as never before
existed in this country, and should help
to give the farmer confidence that his
interests will be protected and that he
will not be left at the mercy of any large
corporation.

In addition to the action of our own
Food Controller, we are assured by Joseph
P. Cotton, Chief of the United States
Food Administration, Meat Division,
that the Food Administration will see,
that the producer at all times can count
on a fair price for his hogs. He also
states that a rigid control of packers will
be established and that serious break-
in prices of hogs will be stopped. He
closes his statement in the following
words:

"Let there be no misunderstanding
of this statement. It is not a guarantee
backed by money. It is not a promise
by the Packers. It is a statement of the
intention and policy of the Food Ad-
ministration which means to do justice
to the Farmer."

In the Breeder's Gazetteer of Chicago
under date of November 15th, the
announcement is made that the buying
power of the United States Government,
both on its own account, and that of its
allies, will be utilized for the purpose of
stabilizing the hog market. Whenever
a heavy run of hogs occurs, the Food
Administration will support the market
by placing heavy orders so that the packer
will not be under the necessity of hedging
in the provision pit against the daily
cost of his hog drove.

Further, it is stated that American
packers' cellars have never been so bare
of hog product at the inception of a
winter packing season as this year.
During October, thirty-one million pounds
of meat were taken out of Chicago ware-
houses alone, and a similar raid was
made at other points.

If we consider carefully the facts which
have been stated regarding the attitude of
Canadian and American Food Controllers,
we must come to the conclusion that
there is very little danger that a serious
break in hog prices can occur. Influences
which are brought to bear in connection
with United States markets are bound
to reflect in turn upon our Canadian
market, and the lack of supplies on
hand in the United States, together with
the decision of the American Food
Administration to support the market
when a heavy run of hogs takes place,
should give the farmers confidence that
hog feeding gives promise of being a
profitable branch of stock raising, and
that the farmer who responds to the
world demand for increased production
of meat at the present time cannot very
well suffer financial loss.—Dominion De-
partment of Agriculture, Live Stock
Branch.

Toronto Fat Stock Show.

One of the coming events which all
live stock men and farmers should not
miss, is the Toronto Fat Stock Show, to
be held at the Union Stock Yards on
Friday and Saturday, December 7th and
8th. The Auction Sale always brings
record prices, and it is well worth your time
to see the competition among packers
and butchers for the prize winners.
Entries for this year's show are larger
than ever and everything points to a
hummer show."

Are You a Miller?

NO? Well, that makes no difference. You
can run a Vessot "Champion" grinder
just as well as any miller could. With it you can
save the miller's profit on all kinds of grinding—
flax, barley, corn, crushed ear corn, oats, wheat, rye, peas,
buckwheat, screenings, mixed grain, or any kind of feed stuff,
fine or coarse as desired.

This grinder cleans grain as well as it grinds. The spout
that carries the grain to the grinder is made with two sieves,
a coarse one above and a fine one below. The coarse sieve
catches nails, sticks and stones, but lets the grain fall through.
The fine sieve holds the grain but takes out all sand and dirt.
The grain passes to the grinding plates as clean as grain can be.

And it comes from the plates well ground. Vessot plates
have such a reputation for good work that we have had to
protect our customers and ourselves by placing the trade-
mark "SV" on all the plates. Look for it.

To do its best work a Vessot grinder should be run by the
steady power of a Mogul kerosene engine. Then you have an
outfit that cannot be beat for good work or economy. Write us a
card so that we can send you catalogues of these good machines.

International Harvester Company of Canada, Limited

BRANCH HOUSES

WEST—Brandon, Man., Calgary, Alta., Edmonton, Alta., Estevan, Sask., Lethbridge,
Alta., N. Battleford, Sask., Regina, Sask., Saskatoon, Sask.,
