

INVESTIGATION SHOWS WISDOM.

I make the absolute claim that Rob Roy Mining Shares are one of the least risky things you can invest in! Strong language, as mining is usually classed as a speculation, and rightly so—if a lot of good common sense isn't used! Still, I fearlessly say that these shares are safer than nine tenths of the monetary risks you daily run—in horses or cattle, for instance! I have seen the properties, know the men at the head of affairs (well-known London men they are too), have my own money up, and am prepared to give you the benefit of my experience if you want it! You have \$100, say, that you want to invest if you can find a safe and profitable place for it. Well, there's nothing going that I know of better than Rob Roy stock at 15 per share! If this interests you, and you mean business, drop me a line, and I'll gladly tell you what I know. In any event, you don't have to buy. Altogether likely these shares will be taken off the market inside of a few weeks.

A. E. WELCH, SAFE MINING STOCKS,
207 Dundas St., London, Canada.

Cheese & Butter

Makers of these articles, in many instances, do not pay the necessary attention to the quality of the Salt they use. Some people think that "Salt is Salt," and it does not matter where it comes from or who makes it. This is a great mistake, for it is essential that to produce the best Butter or Cheese nothing but the purest salt should be used. The number of prizes obtained by users of Coleman's or Rice's Dairy Salt at the various exhibitions is conclusive proof that these brands of salt stand unrivalled.

Cream Separators.

HOW IS THIS FOR

NEW CENTURY "ALPHA" DISCS?

An Unsolicited Testimonial.

COWANSVILLE, APRIL 27TH, 1900.
THE CANADIAN DAIRY SUPPLY CO., MONTREAL, P. Q.:
Gentlemen,—The Alpha Cream Separator bought from you received, and is now running in my factory. I wish to say I am delighted and surprised. I am delighted with the way the machine is running and fine work it is doing. I am surprised that any man building a butter factory could be induced to buy a Russian or Tubular separator, with the Alpha separator on the market. Two hundred dollars per year and a Russian Tubular free of charge would not induce me to take out my Alpha machine. I regret to say I have a Sharpless Tubular in my factory. I am pleased to say I have an Alpha separator also in my factory. With the Alpha we can separate cream in fine shape. With the Tubular we can partly separate and partly churn the cream. My butter-maker claims it does neither to his entire satisfaction. E. J. RUTHER.
