

The most useful and cheapest article of the kind ever introduced. Simple in construction and cannot get out of order. Three attachments accompany each pump. 1st—Straight nozzle which will throw water 50 feet. 2nd—Crooked nozzle, principally used for washing horses' legs, buggies, etc. 3rd (which is represented in this cut) —throws a broad and copious spray shower, and is invaluable for sprinkling fruit trees, bushes, &c., with insect-destroying solutions, the work being done thoroughly and without injury to the trees. Now that a new pest has attacked the fruit trees in Canada, special attention is called to this feature of the Excelsior Force Pump. Price, with attachments complete, only \$2. Agents wanted. Address EXCELSIOR PUMP CO., Toronto, Ont. \$25 reward for information of any infringement.
