

A Convincing Argument

In favor of the use of our Embossed Steel Ceilings and wall finish is the *acoustic power* they contain. This is apparent when you consider that the whole interior of your church resembles a metallic lined drum. No other finish has this advantage—an advantage which enables the speaker to be heard in any part of the room.

Another is the *durability* of a Metal Ceiling, once in position it is practically indestructible, as the settling of the building or the raising of the walls, or a leaky roof cannot affect it.

Another is its *beauty*. We manufacture an immense variety of designs suitable for all uses, and in every style of architecture, all of which can be decorated in the most elaborate manner desired.

Another is the *cost*, which is no greater than any other kind of good finish, ours varying in price from 4c. per square foot up.

We have a very complete Catalogue, which will be sent to those interested, on request.

We Will Buy

A 50c. Bottle of Liquozone and Give it to You to Try

We want you to know about Liquozone, and the product itself can tell you more than we. So we ask you to let us buy you a bottle—a full-size bottle—to try. Let it prove that it does what medicine cannot do. See what a tonic it is. Learn that it does kill germs. Then you will use it always, as we do, and as millions of others do.

This offer itself should convince you that Liquozone does as we claim. We would certainly not buy a bottle and give it to you if there was any doubt of results. You want those results; you want to be well and to keep well. And you can't do that—nobody can—without Liquozone.

We Paid \$100,000

For the American rights to Liquozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquozone destroys the cause of any germ disease.

Liquozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in

the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissues too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma
Abscess—Anemia
Bronchitis
Blood Poison
Bright's Disease
Bowel Troubles
Coughs—Colds
Consumption
Colic—Croup
Constipation
Catarrh—Cancer
Dysentery—Diarrhea
Dandruff—Dropsy
Hay Fever—Influenza
Kidney Disease
La Grippe
Leucorrhea
Liver Troubles
Malaria—Neuralgia
Many Heart Troubles
Piles—Pneumonia
Pleurisy—Quinsy
Rheumatism
Scrofula—Syphilis
Skin Diseases
Stomach Troubles

Dyspepsia
Eczema—Erysipelas
Fevers—Gall Stones
Goitre—Gout
Gonorrhea—Gleet

All diseases that begin with fever—all inflammation—all catarrh—all contagious diseases—all the results of impure or poisoned blood.

In nervous debility Liquozone acts as a vitalizer, accomplishing what no drugs can do.

Throat Troubles
Tuberculosis
Tumors—Ulcers
Varicose
Women's Diseases

50c. Bottle Free.

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquozone is, and what it can do. In justice to yourself, please accept it to-day, for it places you under no obligation whatever.

Liquozone costs 50c. and \$1.

OUT OUT THIS COUPON.

For this offer may not appear again. Fill out the blanks and mail it to The Liquozone Company, 458-464 Wabash Ave., Chicago.

My disease is.....
I have never tried Liquozone, but if you will supply me a 50c. bottle free I will take it.

Give full address—write plainly.

Any physician or hospital not yet using Liquozone will be gladly supplied for a test.

GOSSIP.

CAUSTIC BALSAM GIVES WONDERFUL RESULTS.

Berlin, Ont., March 22nd, 1904.
The Lawrence-Williams Co., Cleveland, O.:

I have used several bottles of Gombault's Caustic Balsam, and found wonderful results. Kindly send me full information in regard to agency, as nearly all who once give it a trial want a bottle of it.
M. S. STROME.

The River View Herd of Scotch and Scotch-topped Shorthorns, owned by Mr. A. J. Rowand, of Dumblane, Ont., was established several years ago by his father, who was for several years M. P. for Bruce County, and was not satisfied with anything but the best in the stock line. Mr. Rowand has a half interest in Scott's Choice =43670=, by Prince William (imp.) (77531) =32083=, dam Imp. Meriam =38218= of the Bruce Mayflower tribe. This bull has left Mr. Rowand some prime quality young stock, among which is the soggy, thick, eighteen-months-old bull, Stamford Prince =52417=, dam Golden Bracelet 12th =28248=, by Stanley of Bruce =17665=, great-grandam by Young Abbotsburn =6236=, and tracing to Imp. Stamford 5th, bred by W. S. Marr, Uppermill, Aberdeenshire. This young bull is in his prime, and is in good working form, and likely to develop into a big, good one. The females in this herd are mostly by Lord Lynden, a Watt-bred Crimson Flower, by Lord Lansdowne (imp.), and Chas. Wilks =28305=, by a son of Abbotsford, the great show bull. The chief families represented in the herd are Scottish Maid, Bracelets and Cruickshank Duchess of Glosters and Rosemarys, from which the thick, even stock bull has produced good results. This bull is for sale or exchange, and should be immediately picked up. For further particulars about him, see notes on Mr. Scott's herd in this issue. These two herds are located about half a mile apart, and have been bred with discriminating judgment, no expense being spared to get both good breeding and good quality in the sires used. In introducing them to our readers, we do so feeling confident they will deal uprightly with those coming their way. If you want a good young bull, call and see those mentioned. There is no good reason for sending away a few hundred miles for a bull, when you can get one near your own door, equally as good at a lower price.

A few miles from Port Elgin in the County of Bruce are to be found several good herds of Shorthorns, among which that of Mr. John Scott, of Cedar Vale Stock Farm, Dumblane P. O., Ont., takes no second place. At the head of the herd is the red bull, Scott's Choice =43670=, sired by Prince William (imp.) =32083= (77531), dam Meriam (imp.) =38218=. This bull is of the favorite Bruce Mayflower tribe, and is a massive, thick bull, well filled up, without patchiness, weighing probably 2,500 lbs., with quality to match. He has been a first-prize winner wherever shown at local shows, and we would expect him to stand well up even at the large exhibitions. He is splendidly bred (along the same lines as Imp. Prince Sunbeam, the champion of 1904), and has six Cruickshank sires near the top of his pedigree. He has been used successfully for three years in the herd, and as it is not convenient to use him much longer, his present owners will sell or exchange him for another, if they can find one equal in quality and breeding. Among the grand young things that he has left for Mr. Scott, and which are for sale, is Lovely Lad, a red bull, about eighteen months old, from Lovely Lass, by Lord Lynden, a Watt-bred Crimson Flower, by Lord Lansdowne (imp.), a bull with considerable Marr breeding in his pedigree. This youngster, we should say, has breeding and individuality sufficient to warrant his being placed in any herd. Mr. Scott is offering him extremely low, and there are very many that should have just such a one in their herd. We also noticed a seven-months-old bull calf from same sire and dam as above that is going to make quite the equal of his sire, if we mistake not. All the bulls mentioned above are reds, and should be in keen demand to head light roan herds.
