W many times have you seen your fields flooded with moisture after a heavy rain, to the ruination of your crops?

The loss of crops by flooding is a thing unknown on irrigated lands, because where irrigation is practiced drainage is perfect, and all the excess water which falls is promptly carried off where it will do no harm. The irrigation ditches act as drainage ditches in case of overflow.

On the great irrigated tract of the Canadian Pacific Railway in Sunny Southern Alberta is to be found some of the richest land on the American continent, where almost any kind of grain and root crops can be raised.

Alfalfa thrives, and with the natural conditions and constant water supply, which makes Southern Alberta a perfect live stock raising country, the farmer is assured of reaping large and certain profits from the sale of his cattle, hogs and sheep.

The native grasses that grow on the plains of Alberta furnish fine feed during the summer months, and the alfalfa can be depended upon to bring the live stock through the winter in fine condition.

winter in fine condition.

Sugar beet raising is one of the most profitable industries in Southern Alberta, under irrigation. Larger crops of beets can be raised here than in most of the states, and a better market is right at the door of the farmer. Beets bring \$5 per ton. The price is guaranteed, and the demand constant, so that the farmer takes no chances of having a drug on his hands when his crop is harvested.

Everyone who studies farming conditions knows that Southern Alberta is the greatest wheat raising country on earth, and oats and other cereal crops thrive and produce enormous crops.

Poultry of all kinds does well in Southern Alberta, and a good market is always.

Poultry of all kinds does well in Southern Alberta, and a good market is always ready for the lucky man who has chickens, turkeys, ducks, geese or other fowls to offer.

Quit trying to make high-priced land in the Central or Eastern States pay, and come out to Alberta where you can get five to ten acres for every one you now own, which will produce from three to five times as much under irrigation as your acres produce.

Farming conditions are perfect in Alberta, good markets prevail, school facilities are of the best, and neighbors are Americans. Then why not come to a place where money-making is easy, and where you can be out of debt, independent of the world?

Write and let us tell you how to see Alberta at very small cost. Let us tell you how to get a farm that will make you and your children rich.

OUR BOOK, "RURAL TELEPHONE," tells all about the telephone business—how to organize Rural Lines; how to organize and incorporate a Telephone Exchange Company; gives examples of ordinances; outlines constitution and by-laws; instructs How to Build Lines; cost of same; gives forms for renters' contracts, selection of equipment and maintenance of line. In fact, it tells you all and everything you want to know about organizing, installing and operating rural telephone systems. The instructions are simple and non-technical; you and your help can do the work.

This book was compiled and printed at a cost of more than \$10,000 and could be easily retailed for 25 cents a copy. If you are a progressive farm r you will find it worth many dollars to you. We send it free.

You will be astonished to learn how little it costs to establish a telephone system in your locality—no previous experience in this work is necessary.

Rural Telephones. We are strictly independent manu-

We make and sell Rural Telephones. We are strictly independent manufacturers. We belong to no Trust or Monopoly. We help you organize a company and construct the lines in your neighborhood. ## Selected Land in Saskatchewan!

We have made arrangements with a reliable land company to handle a large block of carefullyselected land in Saskatchewan, in the neighborhood of Jack Fish Lake, near Battleford.

Immigration is going into this district rapidly.

This land is bound to advance in value very fast.

If you want land in the West for investment, or for a home, this is your opportunity.

Very small cash payment necessary.

For further particulars and inspector's fieldnotes address:

The William Weld Co., Ltd., London, Ont.

### "Safe Lock" Shingles can't leak.

They are the original interlocking metal shingled and the only ones which leave absolutely no nail holes exposed to the weather. They are proof against lightning, fire and water.

When we first brought out the "Safe Lock" Shingle, other makers were selling cleat shingles. Several imitations have appeared, but they have not solved the vital problem of concealing all the nail holes.

Remember that "Safe Lock" Shingles are nailed above the lock. Others are nailed through the lock, thus leaving nail holes exposed to the drifting snow and moisture.

Being heavily galvanized, "Safe Lock" Shingles will never rust. No dust or dirt can lodge on their smooth surface, and the result is clean rainwater in the cistern. Besides, our galvanized "Safe Lock" Shingles may be counted upon to outlast a generation, without one cent for repairs. Don't take our word for this, alone. Ask our customers in your neighborhood, how they like our goods and our liberal treatment. We'll send you a list of users in your county, if you write us. 48 The Metal Shingle & Siding Co., Ltd., Preston, Ont.
