Wire Fencing
Looks Much Alike

Study the Cost
of a Fence—
Not Its Price

There is mighty little difference between one woven wire fencing and another, so far as PRICE goes. But there is a bulky difference in the final COST. Fence-cost depends upon fence-endurance. Wire fence at a dime a rod would be dear if you had to repair and replace it yearly. Thus, though LEADER Fence is no cheaper in the first place than ordinary woven wire fences, it is a whole lot cheaper in the long run.

—for it stands up, stays tight, and keeps the repair bugaboo at arms' length year after year. It lasts, does LEADER Fence. If you do not know our local agent, write direct to us for complete information. Agents wanted in unrepresented districts. Write for proposition.

You cannot judge any woven wire fence's goodness by its looks. One make resembles another very closely. The vital difference is in the lock—the twisted clamp of wire that fastens verticals and cross-wires together. On that largely depends the fence's durability. LEADER Fence has the one lock that is actually perfect.

Every fence-maker claims the same thing for his lock, of course. You cannot judge which one is right until you study the thing out for yourself. We'll help you to do that for our LEADER Lock. Ask for a sample of it. Note the simple yet powerful triple-grip this lock holds on the cross-wires. Imagine how great must be the strain that would loosen such a grip. Then you'll realize why LEADER Fence, made of nine-gauge hard steel wire, specially galvanized, springy and able to stand tight stretching, WON'T sag and DOES last.
