The Vest Pocket
KODAK

is a miniature in size—actually small enough to go into a vest or hip pocket—but a thoroughly capable, durable, practical and efficient photographic outfit.

A Kodak on the farm, not only means fun for the young folks, but has an every-day, practical-usefulness as well. Tells the story of crops, new buildings under way—stock and poultry for sale, etc., better than any description.

And the Vest Pocket, answers every outdoor need to perfection.

The size makes it as convenient to carry as a pocket knife or watch—the fine quality of the meniscus achromatic lens gives you pictures (size 1 3/8 x 2 1/2 inches) of splendid definition and as full of detail as the largest.

The Vest Pocket Kodak is made simple and strong—nothing to get out of order—is always ready for use, has a fixed focus—brilliant, reversible finder—Auto-time Scale—loads and unloads in daylight with Kodak film cartridge for eight exposures—lustrous black metal finish. Right as a watch in adjustment and the refinement of every detail.

DE LAVAL
CREAM SEPARATORS

No Excuse for any Cow Owner Being Without One

There is no reason why any cow owner who sells cream or makes butter should be without a cream separator, and there is no excuse why he should not have the best separator.

Any creameryman or experienced dairyman will tell you that a good cream separator will give you a great deal more and a great deal better butter than you can make with any gravity setting system, and equally, of course, more and better cream, if you are selling cream.

The DE LAVAL is acknowledged by creamerymen and the best posted dairymen the world over to be the "World's Standard," and the one and only separator that always accomplishes the best results possible, and always gives satisfaction.

You cannot make the excuse that you can't afford to buy a De Laval, because it will not only save its cost over any gravity setting in six months and any other separator in a year, but is sold either for cash or on such liberal terms that it will actually pay for itself.

A little investigation will prove to you that the truth of the matter is that you really can't afford to make cream or butter without the use of a DE LAVAL cream separator.

The nearest De Laval local agent will be glad to demonstrate this to your own satisfaction, or you may write to us direct.

"When I have an odd Moment, I do a little Painting."

This is what a progressive farm owner said, and his farm is pointed out by the neighbours as being a prosperous, well managed farm.

This man has discovered one of the secrets of success, so well expressed by the old adage, "A stitch in time, saves nine." He knows that farm machinery costs a good deal; he knows that a little paint used occasionally will keep it in good shape.

Well painted farm implements do not rust, the woodwork does not crack or rot, and they keep in good condition for the longest possible time. Look around your farm to-day, and see if anything needs painting. Buy the paint at once, and use it at odd times. There is a Sherwin-Williams Agent in every town.

Egotism

If too overbearing becomes conceit. There is one point, however, on which a man has got to be to a certain extent egotistical and that is his value in this world. If he does not place the mark high enough his wife and family are the ones to suffer should he be taken away. Carrying plenty of Life Insurance is the cheapest and safest way of placing your value at a high figure.
