Sir,—In compliance with your directions we have measured the work done to the Parliament Buildings by Joseph Turton, under his contract with Matthew Priestman, bearing date, the 19th of July, 1830, and having carefully examined his Account rendered of the same, beg leave to submit the following remarks on its several items, separated and numbered.

| No. 1. 422 Toise of stone work, at £1 15 0 per toise, | remarks on its several items, separated and numbered. | | | ., |
|--|--|------|----|----|
| No. 2. 829 thousand, five hundred bricks, at £2 12 6 per M | No. 1. 422 Toise of stone work, at £1 15 0 per toise, | 738 | 10 | 0 |
| No. 3. 55 thousand, three hundred, by adding one brick to each foot, they being usual and customary allowance, viz: 16 bricks to each foot of reduced brick work,144,18,3. We believe this charge to be incorrect. No. 4. 122 thousand, five hundred, of workmanship in openings, at 15s. This item agrees with our certificate of January 12th, 1831. No. 5. 40 thousand laid this last season, in chimneys, arch in hall and beam filling,&c. £105. There is only 33 thousand bricks in this item, the difference, we presume has occurred by mistake, at £2 12 6. No. 6. Extra brick work for projections of 12 large and 5 small windows. We believe this item to be correct. No. 8. Use of scaffolding for carpenters and painters, £10. This accommodation has been fully compensated in the use of scaffolding for plastering. No. 9. 1,120 y'ds and 4 feet of pugging and deafening under floors, at 9d per yard, £42 0 4\frac{1}{2}. In measuring this work, we find it contains 895 yards, at 9d. No. 10. 1,380 feet superficial of mouldings in Baylie's composition to outside windows, at 1s. 6d per foot. We believe this item to be correct. No. 11. 13 y'ds. 5 feet of plain work in do do outside of windows. There is a small deficiency in this item, which is made up in the 2 coat work. No. 14. 5,143 feet superficial of straight plaster cernices, at 1s 6d £385 15 4\frac{1}{2} These cornices measure 4,382 feet superficial, at 1s. 6. No. 15. 1,506 feet superficial of straight plaster freize and soffits at 6d. No. 16. 398 feet superficial of fircular plaster freize and soffits at 1s. 2d. No. 17. 384 feet superficial of fircular plaster freize and soffits, at 1s. 2d. No. 17. 384 feet superficial of fircular plaster freize and soffits, at 1s. 2d. No. 17. 384 feet superficial of fircular plaster freize and soffits, at 1s. 2d. No. 18. 4 feet superficial of straight plaster freize and soffits, at 1s. 2d. No. 19. 19 3 12 12 15 0 0 15 0 15 0 15 0 15 0 15 0 1 | No. 2. 829 thousand, five hundred bricks, at £2 12 6 per M | 2177 | 8 | 9 |
| No. 4. 122 thousand, five hundred, of workmanship in openings, at 15s. This item agrees with our certificate of January 12th, 1831. No. 5. 40 thousand laid this last season, in chimneys, arch in hall and beam filling,&c. £105 There is only 33 thousand bricks in this item, the difference, we presume has occurred by mistake, at £2 12 6. No. 6. Extra brick work for projections of 12 large and 5 small windows We believe this item to be correct. No. 8. Use of scaffolding for carpenters and painters, £10. This accommodation has been fully compensated in the use of scaffolding for plastering. No. 9. 1,120 y'ds and 4 feet of pugging and deafening under floors, at 9d per yard, £42 0 4½. In measuring this work, we find it contains 895 yards, at 9d \$\frac{2}{33,195,17,8\frac{1}{2}}\$ | No. 3. 55 thousand, three hundred, by adding one brick to each foot, they being usual and customary allowance, viz: 16 bricks to each foot of reduced brick work, 144, 18, 3 | | | |
| There is only 33 thousand bricks in this item, the difference, we presume has occurred by mistake, at £2 12 6. No. 6. Extra brick work for projections of 12 large and 5 small windows | No. 4. 122 thousand, five hundred, of workmanship in openings, at 15s This item agrees with our certificate of January 12th, 1831. | 91 | 17 | 6 |
| No. 7. Amount of day work as per bill, We believe this item to be correct. No. 8. Use of scaffolding for carpenters and painters, £10. This accommodation has been fully compensated in the use of scaffolding for plastering. No. 9. 1,120 y'ds and 4 feet of pugging and deafening under floors, at 9d per yard, £42 0 4½. In measuring this work, we find it contains 895 yards, at 9d. \$\frac{\pmathbb{E}}{\pmathbb{2}}\$ 33 11 3\$ \$\frac{\pmathbb{E}}{\pmathbb{2}}\$ 31 15 15 25 25 25 25 25 25 25 25 25 25 25 25 25 | £105 | | | |
| This accommodation has been fully compensated in the use of scanoding for plastering. No. 9. 1,120 y'ds and 4 feet of pugging and deafening under floors, at 9d per yard, £42 0 4½ | No. 7. Amount of day work as per bill, | | | |
| Is. 6d per foot. We believe this item to be correct. No. 11. 13 y'ds. 5 feet of plain work in do do outside of windows. No. 12. 30 run of arris, to windows. No. 13. 2,144 y'ds superficial of 3 coat plastering, at 1s. 10. There is a small deficiency in this item, which is made up in the 2 coat work. No. 14. 5,143 feet superficial of straight plaster cernices, at 1s 6d £385 15 4½ These cornices measure 4,382 feet superficial, at 1s. 6. No. 15. 1,506 feet superficial of circular do. at 2s 3d. No. 16. 398 feet superficial of straight plaster freize and soffits at 6d. No. 17. 384 feet superficial of circular plaster freize and soffits, at 1s 2d No. 17. 384 feet superficial of circular plaster freize and soffits, at 1s 2d No. 15. 1,506 feet superficial of circular plaster freize and soffits, at 1s 2d No. 15. 1,506 feet superficial of circular plaster freize and soffits, at 1s 2d No. 15. 1,506 feet superficial of circular plaster freize and soffits, at 1s 2d No. 15. 1,506 feet superficial of circular plaster freize and soffits, at 1s 2d No. 15. 1,506 feet superficial of circular plaster freize and soffits, at 1s 2d No. 15. 1,506 feet superficial of circular plaster freize and soffits, at 1s 2d | No. 8. Use of scaffolding for carpenters and painters, £10. This accommodation has been fully compensated in the use of scaffolding for plastering. No. 9. 1,120 y'ds and 4 feet of pugging and deafening under floors, at 9d per yard, £42 0 4½. In measuring this work, we find it contains 895 yards, at 9d | 33 | 11 | 3 |
| No. 11. 13 y'ds. 5 feet of plain work in do do outside of windows | 1s. 6d per foot. | 103 | 11 | ው |
