## COUNTY AND DISTRICT.

A snake was captured in the Greenock swamp last week eight feet long.  
 German locomotive engineers receive a gold medal and £100 for every ten years of service without accident.

More than one-fourth of the inhabitants of Newfoundland are engaged in catching and curing fish for a livelihood.

The Ripley Express says:—John McCharles, Warden of the County, has been mentioned in connection with the nomination for South Bruce for the South Bruce for the House of Commons. The Liberals are looking for a strong candidate and are now taking John's strength into their serious consideration.

There are about 12 per cent. of the losses in the recent Toronto conflagration yet to be passed by the Insurance committee. So far insurance of \$8,500,000 has been passed on property valued at \$11,125,000; this means a loss to the insured of the difference—\$2,625,000.

The up-to-date song of the shirt lasts just six and one-half minutes, according to a factory inspector for whose education the foreman of a shirt factory started a piece of cloth on the round and made it come out ready for a customer's back before the second hand on a watch had revolved seven times. In this time seven girls had contributed their efforts to the finished product. One machine in this shop makes 16,800 buttonholes a day, or twenty-eight in a minute, and in a hour a man can cut 250 dozen shirts.

We often wonder says a Manitoba paper, why it is that men have not sense enough to know when they have got enough—enough property and money. Here are men by the hundreds all over the country at fifty and sixty years of age, worth from \$25,000 to \$50,000, owners of the best farms in the world, working and slaving year in and year out to make more money and buy more land, when the very best they can make of the job is ten years or so of fret and worry then a funeral and the probating of a will and a scattering of their earnings.

The cost of keeping a horse for a year on the farm is, says Shaw's Farmer, much more than many persons usually suppose. An estimate of such cost was made at the New Hampshire Experiment Station. It was found there that a horse weighing 1,200 pounds and kept at moderately hard work would cost \$74.32 per year for board. Foods, of course, are higher in New England than in some other quarters. In Minnesota, Shaw's Farmer says, taking one horse with another, as kept on the farm and allowing for the period of idleness with many farm horses in the winter season, the cost of keep would not be more, probably than \$50.

There is a civil war in Colorado. For months a strike has been progressing in the Cripple Creek mining district, and Governor Peabody has preserved something like order by superseding the civil authority by a semi-military rule. It is charged against him that while he has called out regiments of the militia and kept them on duty, giving their officers almost absolute authority over persons and property, the troops have not been serving the state, but are being maintained on duty and paid by the mine owners. The union miners and all who sympathize with them, have resented this partnership between the State and the mine-owners, and a very bitter feeling has been aroused. Some kind of an infernal machine was exploded in a mine being operated non-union men, and fifteen deaths resulted. For nearly a week there has been anarchy in the district—a state of civil war that may at any moment culminate in a serious battle with rifles. Both sides are well armed and disposed to recognize no authority but superior force. Two hundred men are under arrest, including several who held official positions as protectors of the peace.

## A PRESENT FOR THE OLD FOLKS.

FOR THE STOMACH'S SAKE.

An eminent physician says, "human life should last five times the years it takes to mature"—thus if twenty-one is maturity we should live over a hundred years, but there are not many reach the century mark. A great deal more longevity would exist if the stomach did not get crippled and played out. That organ gets plenty of abuse, and is deserving of attention. It is the starting point of most ailments, and it needs the first attention when symptoms of sickness appear. If an elderly stomach can be kept working right, you may be sure of a ripe and contented old age, comparatively free from physical burdens. The great new discovery the ANTI BIL, the Great System Treatment has a grand effect in helping old and deranged stomachs. Any aged person who will address a Postal to Wilson Fyle Co., Niagara Falls, Ont., will get a free trial bottle by return mail.

Mrs. Cooper, of Normanby township, sustained an injury on Wednesday of last week which rendered her unconscious for a period of two hours. Upon going to the cellar shortly before noon she fell on the steps and struck her head violently on the cement floor of the cellar inflicting a horrible scalp wound eight inches in length extending almost from ear to ear. It required thirteen stitches to close it. Her daughter upon looking for her at the dinner hour, discovered her unconscious about fifteen minutes afterwards.

Enquiries are periodically received as to whether it is true that an American silver dollar of a certain date is worth a trip to the St. Louis fair. This report, which appears to be widespread is a "sell" which has been started by some practical joker. American silver dollars of any date are, of course good for a trip to St. Louis fair, if one has enough of them.

"How to keep boys on the farm," is a lively topic of interest these days. A good idea would be, to induce a few of the neighbor's girls to run in often.
