"Father Time a Severe But Honest Judge."

For seven years the "FERRO ENGINE" has held the leading place among the Engines used in the Newfoundland Fishery. These "ENGINES" were built to use Gasoline; but we have hundreds of testimonials where Kerosene has been used with equal results. Other Engines have been introduced and have been claimed by their Manufacturers to be the "ONLY." But Father Time has been their Judge and they fell by the Wayside. Hundreds of "FERRO ENGINES" have been used in Newfoundland during the last seven years, and many of them without a cent of repairs, and the "FERRO" is acknowledged today as the best two Cycle "ENGINE" on the Market.

"THE NEW FERRO Kerosene Oil Engine."

We have on hand a car-load of the "NEW FERRO KEROSENE OIL ENGINES" which were built expressly for Newfoundland trade, and which have Float Feed, Water Jacketed, Kerosene Carburetors, and all the Gasoline it requires is priming, no extra Tanks being required. These "KEROSENE ENGINES" will be sold at no advance over the price quoted by our Former Agents for the "GASOLINE ENGINES" which we will sell at a great reduction on their first cost to avoid the expense of shipping them back to the Factory. The number of recommendations below should be satisfactory proof that these "ENGINES" though built for Gasoline will run satisfactorily on Kerosene.

La Scie, October 13th, 1914.
THE L. M. TRASK CO.
Dear Sirs,—I saw by Advocate where you stated you would wish to hear from every user of a "FERRO ENGINE," and receive the number of same, and you would send a Spark Plug of your own make, so I thought I would let you know the number. (The No. is) 3263. It is a 7 H.P., and to just give you the truth about the Engine, it is the best one made. We used it last Summer on a large Motor Boat, a Deck Boat about 7 1/2 ft. wide, and about 3 1/2 ft. deep and towed a trap skiff that would bring about 16 or 17 barrels of round Fish after her, and did good work fast enough, too good for the 9 H.P. F. Engine, and this year we have the Engine in a new trap skiff about 30 ft. long, 6 ft. 10 in. wide, 33 inches deep, and cares for nothing here, and there are lots of Engines here of different quality. The 8 H.P. A. Engine is here in a boat about the same size, and they cannot do it, and for some, the A. Engine, F. Engine and all is here, have had plenty of trouble, and we have not had one hour's trouble since we had the "FERRO ENGINE." I say it is the best here.

Wishing you every success, I am yours sincerely,
(SGD.) MOSES BURTON.
Salvage, Bonavista Bay.

L. M. TRASK & CO., St. John's.
Dear Sirs,—We have been using one of your 5 1/2 H.P. Ferro Gasoline Engines for two Summers, and it has given entire satisfaction in every way. It has never given one minute's delay. We consider the Engine the best on the Market for fishing purposes, and would recommend it to anyone requiring a good Engine. The number of the Engine is
(SGD.) ISAAC SQUIRES.

INDIAN TROOPS FIGHT IN THE EUROPEAN FIELD UNDER GREAT DIFFICULTIES

Cannot Understand Western Languages and Customs and Are Targets For German Deception—How the Alertness of an Officer of the Gurkhas Saved the Trenches

London, Nov. 10.—The Indian forces in France have made good, but have achieved none of the daring and extraordinary exploits attributed to them, according to a statement issued by the Official Press Bureau to-night under the date of Nov. 10, written by "an observer with the Indian Corps." Above all the account emphasizes the difficulties under which the Indians are fighting by reason of their ignorance of the French, German and English languages. Repeatedly they have been subjected to tricks on the part of the Germans.

The German Tactics.

"The Germans are full of resources," says the account, "and it is one of their favorite plans to lure the Allied troops on to attack them by various devices, of which an indicated intention of surrendering is the most common. If this deception is successful a skillfully concealed machine gun turns a murderous fire upon those who have advanced either to attack or to accept surrender.

"The audacity of the enemy cannot better be illustrated than by a well authenticated statement of what took place last night in a trench held by the Gurkha Regiment. A figure, silhouetted by the moonlight and wearing a complete Gurkha uniform, approached the end of the trench and delivered the message: 'The Gurkhas are to move further up the trench; another Gurkha contingent is advancing in support.'

Killed the German.

"Puzzled by this announcement, the officer in command replied: 'Who are you? Where do you come from?' to which the only answer was: 'You are to move up and make room for other Gurkhas.'

"The English was good, but something excited the officer's suspicion. 'Answer, and answer quickly,' he said. 'If you are a Gurkha, by what boat did you cross?'

"This question, under the circumstances, was no easy one to answer, and the German—for such he was—turned and fled. But he had not gone five yards before he fell riddled with bullets.

"If the officer had been deceived, the trench, of course, would have swarmed with Germans almost before the Gurkhas had made room for

PREPARE FOR THE WORST.

Are you prepared for a fire? Most folk are not! One of my liberal policies will make the calamity easier to bear. It will cost you nothing to ask for a low rate and very little to be perfectly secure with Percie Johnson's insurance agency.

THEY'RE BROTHERS FOR ALL THAT

Letter Signed 'Jimmie' Cook
and Published in This Pa-
per, Came From 'Billy'

Saturday we reported that Mr. and Mrs. Tasker Cook received a letter from their son 'Jimmie' now at Salisbury Plain. A mistake occurred in the name as it is the second son 'Billy' who is in the great war camp.

We remember well the day he left in the Florizel. Up to the last moment he did not know he had been accepted. The father stood on the pier scanning each face as the boys filed past. Towards the end, his young boyish face smiling, was Billy.

The scene need not be dwelt upon. A bunch of newspaper men and others were standing close by, watching the meeting, and they knew just what was needed, for three cheers for Billy were called and he was given them four times over.

Then he moved on. It was a touching scene, but only one of many. Now the boy, for he is only 17, has put in several weeks at Salisbury Plain and his big form, for he is much bigger and stronger than the average lad his age, has hardened so that he can endure any hardship.

Like the others, he is anxious to go to the front, and those who know him and his parents, know that he will give a good account of himself.

Jimmie is an engineer on the Adventure and was up in Hudson Bay when the Volunteers recruited or he, too, would now be at Salisbury Plain. He is full of the war and as he is a splendid type of young fellow, he would make an excellent soldier.

Our boys have won much praise from high officers on the other side, and we are not surprised when we think of the splendid lot they are.

Today we publish a letter from H—, from whom our readers have heard before. It is a splendid contribution, and we commend it to all our readers.

The letters of Ralph Andrews and Bert Dicks have been favorably commented on; today's is equally as good.

1st Newfoundland Regiment.

TOBACCO FUND.

There are 540 Newfoundland Men at the front and about 450 Naval Reservists afloat, and most of them are smokers.

It is proposed to form a Fund to furnish our Lads with a consignment each month to contain—

**1/2 lb. Smoking Tobacco,
40 Cigarettes and
A Box of Matches.**

to remind them of home.

A list of Subscribers will be sent with each shipment.

The Imperial Tobacco Company of St. John's will make out the parcels and the Government will waive the import duty and excise.

Messrs. A. MacPherson, C. O'N. Conroy and F. H. Donnelly have consented to act as a Committee to take charge of this work. All Subscriptions to be sent to F. H. Donnelly, care City Club.

W. E. DAVIDSON,
Lieut. Colonel.

them. It can readily be imagined that under such conditions the Indian troops engage the enemy in circumstances of special difficulty. They are in a strange country; their training and instincts have accustomed them to quite different conditions. It is easy to distinguish German and French soldiers, but it is not easy in the dark.

Inflict Severe Punishment.

"The Gurkhas understand no language but their own, and very few others understand that. Their stragglers are exposed to difficulties in the way of rejoining their units which it is almost impossible to exaggerate, nor must it be forgotten that the intentions under which he German Emperor expressed with reference to the whole forces under the command of Field-Marshal Sir John French embraced to an equal degree the army corps composed of our Indian fellow subjects.

"Letters found upon wounded men and prisoners made it clear that the German military authorities have specially charged the troops with the task of inflicting the severest possible punishment upon the forces whose civilization they deny, and whose soldierly qualities they wish to disparage.

A Word of Caution.

"Under all these circumstances, it is a subject of great satisfaction that the Indian troops have so finely fulfilled the high expectations which were formed of them. A word of caution, however, should be uttered with regard to the amazing adventures and exploits attributed to them—recommendations desired neither by the officers and men.

"It need hardly be said that the conduct and example of the British officers, who have undergone precisely the same hardships as the men, have been worthy of the highest traditions of the service. In loss of officers and men Great Britain has paid, and is paying and will continue to pay a cruel and constant price for the liberties of Europe and her own existence as a world-wide power."

Wonderful Results From the A. I. C., The World's Cure

The remedy discovered at far Labrador has given relief to many a sufferer; hundreds testifying of this great remedy. Another gives her testimonial from the City.

Couldn't Eat a Half Meal.

St. John's, Oct. 12, 1914.
I have been troubled with indigestion for a number of years, in fact I have been so bad I couldn't eat half a meal of anything.

A friend advised me to try A.I.C. and one half pint bottle cured me. I couldn't believe I could be cured in such a short time and now I can eat anything, and food does not trouble me in the least. I think I am perfectly cured, I haven't felt indigestion this month.

I recommend this medicine to all sufferers from indigestion. You are at liberty to use my name, and anyone not believing this statement can write or consult me personally.

Caille Perfection Motor

A "Caille Perfection" is Now Doing Duty
With Admiral Jellicoe's Fleet.

The "Ecila," fitted with the "Caille Perfection" Duty Engine, is pronounced by the Naval Authorities to be the best dispatch cutter in the service.

Speed, strength and simplicity of operation are the leading features of the "Caille Perfection" Motor.

With Motor Engines of the ordinary kind, it is ever the same—trouble. If it is not battery trouble, then it is magneto trouble—if it is not starting trouble, then it is adjusting trouble, if it is not one thing, it is certain to be another; just one trouble after another.

The "Caille Perfection" Motor is Trouble-Proof.

These engines are made, from 2 to 30 Horse Power, by The Caille Perfection Motor Co., Detroit, the largest builders of 2 Cycle Engines in the world.

Information, catalogues, prices, terms, etc., can be obtained from
