New York Lawyers Make New Move-- Will Ask For Writ of Habeas Corpus, Said to Be Their Right.

SHERBROOKE, AUG. 30.—HARRY K. THAW WILL BE PRODUCED IN COURT HERE AGAIN ON TUESDAY MORNING NEXT ON A WRIT OF HABEAS CORPUS OBTAINED TO-DAY IN BEHALF OF CHIEF OF POLICE BOURDEAU OF COATICOOK, WHO ARRESTED HIM AFTER HIS FLIGHT FROM MATTEAWAN.

SHERBROOKE, Que., Aug. 30.—Migration officers who had left Sherbrooke yesterday came trooping to town early to-day on the faith of a report that counsel representing the state of New York had moved a motion to get Harry Thaw in court perhaps to-day on writ of habeas corpus, thus taking to his own counsel had abandoned yesterday after a court battle. Any citizen may apply for a writ of habeas corpus when he thinks a man is detained illegally, and as Thaw is locked in the Sherbrooke jail, a very faulty commitment it is said that those seeking his release hoped to obtain a writ from Judge Hutchinson, who returned to Sherbrooke yesterday, unannounced, for his vacation.

Mr. Jerome would neither affirm or deny that Thaw was to figure in an other habeas corpus proceeding, nor would Mr. Jacobs discuss the matter. Thaw's lawyers, secure in the belief that their client would be safe in jail after their move of withdrawing their own habeas corpus writ, retired early, ignorant of the reported new move to get him into court to-day. Thaw himself in his cell in the Sherbrooke jail, half a mile from the court house knew nothing of it. E. Blake Robertson, assistant superintendent of immigration, was returning to Montreal with four inspectors when he saw Mr. Jacobs leap from the train at Magog. The train had started again before he learned why the lawyer had gone, and he had to finish the trip to Montreal. There he turned about immediately and reached here after one o'clock this morning. Mr. Jerome, while refusing to discuss what move, if any, New York state would make to-day, explained that it was the privilege of anyone to apply for a writ of habeas corpus in another's behalf and that such action in the Thaw matter would, in his opinion, be entirely legal. Should the writ be issued and sustained, the immigration authorities could at last get their hands on the Matteawan fugitive and he could be deported to Vermont, here would begin the fight for his extradition from Vermont to New York.

FOUR WERE DROWNED IN A CANOE ACCIDENT

UTICA, N. Y., Aug. 30.—Four persons were drowned in Adirondack lakes yesterday by the capsizing of canoes. Miss Hanna Griffith of New York, was drowned near Lawrence Point, Fourth Lake. With a Mrs. Jillson of Rochester, she was canoeing when the craft was upset by rough water. Mrs. Jillson clung to the canoe and was rescued by a motor boat. Miss Griffith's body was not recovered. On Blue Mountain Lake, Mildred Hale, Lillian Gates and Oscar Hannah, all young people, who lived on the shore of the lake were thrown into the water when their canoe capsized. Miss Gates was breathing when brought to the shore but died later. The other bodies were recovered.

Eleventh Hour Move Made By New York Lawyers to Get Hold of Harry Thaw

SHERBROOKE, Aug. 30.—Superior Judge Hutchinson granted the writ of habeas corpus for Harry Thaw, on the application of Samuel Jacobs, chief counsel for the New York State interests. It was an eleventh hour move taken to defeat Thaw's lawyers, who have succeeded in keeping him in jail, safe from the immigration authorities. Those of the Thaw lawyers who were in town, Messrs. D. White and Harry Frase, bitterly opposed the application, but Judge Hutchinson said he would thresh the matter out in open court at 10 a.m. Tuesday. Thaw was ignorant of to-day's developments. His lawyers even did not learn of it until a report of the contemplated move, sent out last night, was telegraphed back from Montreal. It was reported here that his chief lawyer, J. N. Greenfield, chartered a special train at Montreal in the hope of checking the proceedings. The writ had been issued however, Judge Hutchinson reached his chambers shortly after ten o'clock. (Continued on Page 7)

PETERBORO INJURED ARE RECOVERING

Death Toll of Disaster Not Likely to Increase. PETERBORO, Aug. 30.—The first house service for the dead in the Turnbull store disaster was held last night at the late residence of Miss Dolly Sisson, when Rev. F. J. Sawers officiated. The house was crowded with friends of the dead girl and the service was most impressive. The body will be removed to Cavanville for interment. Several organizations have canceled programmes of entertainment and the 57th band did not give the weekly concert last night. All the injured will recover. Mrs. Finlay, of Norwood, is the most severely injured, but the physician stated that her back was not broken. Mr. E. J. Might, proprietor of Turnbull's store, is making arrangements to resume business in other premises, and it is stated that the Toronto Savings and Loan Co. will rebuild. Annual Shoot. The annual target matches of the Dufferin Rifles Rifle Association will be held on the Mohawk ranges on Monday, commencing at 8 o'clock. Some very handsome and valuable prizes have been hung up for competition.

HYDRO CONTRACT LET --PRICE LESS THAN WAS ORIGINAL ESTIMATE

Important Meeting of The Fire and Light Committee Was Held Last Evening--Brantford Getting Ready For the Hydro Current.

A meeting of the fire and light committee was held last night in the Hydro Electric department's office, at which a number of tenders were opened and contracts awarded. The first equipment considered was the iron standards for the ornamental lighting system on the business streets. Two tenders were received, and after listening to arguments from representatives of both companies, the committee decided to award the contract to the Ornamental Lighting Pole Co., at a price of \$30 per standard, f.o.b. cars, Brantford. The standards are made of cast iron and are of a very attractive design, besides being very durable and cheap to maintain. These standards will be made in Ontario. The number purchased is 152, and one half of the total quantity will be delivered by Oct. 1st, and the remainder by Oct. 15th, thus permitting their erection before the season of bad weather. Tenders were also opened for the ornamental magnetite lamps and the substitution equipment necessary to operate and control them. Special regulators and switchboard panels are required, each regulator having a nominal capacity of fifty lamps, so that the lamps will be connected in three groups of fifty. The contract was awarded to the Canadian General Electric Co. of Peterboro. The lamps were purchased f.o.b. cars Brantford, and will be installed by the Hydro Electric department. The substitution equipment, however, is to be installed complete and ready to operate by the manufacturers and the manufacturer's representative is to remain in Brantford without additional charge for two weeks after the equipment is placed in service in order to be certain that everything is in first class operating condition before it is accepted by the city. The cost of the ornamental lighting apparatus does not come out of the general estimate of course, the work being done on the local improvement plan. It is felt by the committee that the downtown lighting system is the very latest and most efficient on the market to-day, and it can be stated positively that the lighting of downtown Brantford will not be excelled in any city on the continent. The lamps are to be delivered in six weeks, and the substitution equipment in ten weeks, thus leaving a reasonable length of time for installation. The total contract price is \$16,330, this being considerably less than was estimated. The last question disposed of was the main substitution equipment, consisting of transformers and a complete switching equipment. Tenders were received from five firms through the office of the Hydro Electric Power Commission at Toronto. After carefully going through the tenders, the committee decided to award the transformers to the Canadian Crocker-Wheeler Co., of St. Catharines at a price of \$5000, the price including installation ready for service. The switching equipment was awarded to the Canadian General Electric Co., at a price of \$9,425, although this price will be reduced slightly by a few alterations in certain details of the apparatus. The price of the switching equipment includes installation by the manufacturers.

Westminster Hall Roof in Danger

Beams of Historic Structure Hollowed Out by Beetles and Building Is Closed. LONDON, Aug. 30.—Westminster hall, which now forms the vestibule to the houses of parliament, has just been closed to the public and is likely to remain so for several months as it was recently discovered that the beams of its roof had been so hollowed out by beetles that the superstructure was in constant danger of falling. Westminster hall was added to the palace of Westminster in 1299 by William Rufus and later repaired and raised to its present height by Richard II. The board of works department are calling for tenders for the refacing on the pavement on Brant Avenue.
