

WEEKLY REVIEW

Secretary Phillips, of the G.T.P., said in regard to the rumor that they would abandon the G.T.P. site at Prince Rupert for North Vancouver as the western terminus of the road. Mr. Phillips stated that it was newspaper talk and that they had done so much already to prove it. "It is ridiculous," said Mr. Phillips. The bank of Commerce has opened a branch there.

J. D. McArthur's outfit and supplies for work on the extension of the Grand Trunk Pacific from Westsaskatoon to Saskatoon have been shipped to Hardisty. It is the intention to complete the grade into Saskatoon this fall, and a large force of men and teams will be put to work on their arrival.

At a meeting of the Canadian Club the proposal to have W. T. Stead, the famous peace delegate, address the club was turned down owing to Stead's unpatriotic course during the Boer war. Mr. Stead was in Toronto and addressed over one hundred members and guests of the Toronto Press Club.

On the arrival of the Japanese Kuroki and party at Victoria they were received with a salute of seventeen guns. Guards of honor were furnished by the local troops. Lieut.-Gov. Dunsmuir welcomed the party on behalf of the federal government. The Japanese arranged a procession and welcome celebration.

When Mrs. Annie Louise Demossy took the stand at her trial for killing Gustave Simon, she denied both guilt and stated that when she left Simon's office there was another woman there.

A little heap of bones and ashes near the fire door, and a burnt and scorched piece of bone of not more than a foot long resting against the boiler, is all that remains of the two men who met death in the wrecking of the eastbound C.P.R. freight at File Hill recently.

A cable message was received in Montreal announcing that Mr. F. H. Ross, the McGill Rhodes scholar, had won the chancellor's latin essay prize. Ross has already won the Craven and Ireland scholarships, the blue ribbons of Oxford's classical course.

The grand jury at Nelson found a true bill against James Mamarrino for the attempted murder of his uncle. Prisoner pleaded guilty and asked for mercy. The judge ignored the plea and said that the public was not safe while the prisoner was at large and sentenced him to imprisonment at New Westminster for the rest of his natural life.

Prince Edward of Wales, eldest son of the Prince of Wales, on May 1st joined the Royal Naval College at Osborne, Isle of Wight, as a cadet. He will be treated exactly the same as the 400 other cadets. He will occupy a bunk at the college and be restricted to 25 cents a week pocket money. He was born June 23, 1904.

Richard Moisey, a prominent East Zorra farmer, was found dead in a ditch on his farm. Moisey was subject to fainting fits and it is supposed that he fell in the ditch while out walking and got drowned.

The freedom of the city of London was conferred privately on Sir Robt. Bond, the Newfoundland premier, at the Guildhall, London. Sir Robert was not present when the other premiers were made freemen of the city.

Dublin is preparing to entertain many homecomers from America this coming summer who are expected to return for a visit to the big Irish national exhibition. The exhibition, which is by far the most important affair of the kind ever held in Ireland was opened with great ceremony on Saturday last.

Sir Wilfrid Laurier, the Canadian Premier, addressing the Canadian Club at London, said that he had no fear of Canada becoming Americanized. American immigrants in Canada were a practical people and had quitted the United States for Canada because it was a better country, with better laws which were administered ten-fold better. He was a great admirer of the American Republic, he said, but Americans who crossed the border knew that their life and property were secure in their own country.

The contract has been let for the erection of a \$75,000 sand-line and brick works at North Battleford and work on the building has commenced, and the plant is to be ready to work in two months.

With the top of his head blown off by the gun with which he had been shooting, Edward Youngson was found lying in a field not far from his home at Guelph, Ont. He was 51 years old and unmarried.

Fortified against grave robbers, who for nights have lingered around the cemetery at Deseronto, is the body of the late Dr. Oronhyekha. For two feet around the shell is a wall of cement concrete. Extending all over the casket is a piece of rock six or eight inches thick. Covering the whole is a layer of cement concrete the same thickness as the wall. On this the earth is spread, there being nothing to distinguish the grave from any other in the little Indian burying ground.

C. C. Gibbon, K.C., London, chairman of the waterways commission, appeared before the cabinet at Ottawa and gave a resume of the work done by the commission during the last year. A special commission will be appointed to deal with the St. Lawrence and Canada has voted the money and is ready to name the men but the United States has not yet done anything.

Arnold Sparby, aged 11 years, was shot and instantly killed at the home of B. Horsted, in the town of Garden, N.D., by Albert Singard, aged 16 years, with a gun which he didn't know was loaded. The boys went up stairs and in rummaging around came across an old shot gun. Accidentally it was discharged and a charge of heavy buckshot struck the boy in the head blowing the whole top of his head away. Singard hid all night long and was found late in the forenoon in an almost crazed condition wandering several miles from the scene of the accident.

MacKenzie King, received the following dispatch from acting Premier Cartwright: "Council wish you to inform all parties concerned that the commissioner and controller both advise that the simple fact is that owing to the urgent demands in Saskatchewan last winter they had to employ more policemen than in Alberta, in other words that province was short thirty men of its proper quota; that recently they have been trying to restore the equilibrium, and that only one officer and ten men have been transferred from Regina to the western division."

The Edmonton city government adopted the principle of an eight-hour day, and approved the agreement existing between the trades and labor council, and the builders' exchange, which will govern the employment of city laborers. Wages to laborers was fixed at \$2.25 a day. Overtime will be paid at the same rate.

A prisoner named Sydney Jones made a dash for liberty from the jail at Prince Albert on Wednesday last. Jones was working on the jail farm with half a dozen other men, when he suddenly jumped the fence and ran for the woods scarcely a hundred feet away. Mounted policemen and jail guards have scoured the country and neighborhood but have found no trace of the fugitive. The escaped prisoner is an undersized man about 35 years of age, who was serving a sentence of three months for stealing the return half of a ticket from a drunken man.

Hon. J. A. Calder, went to Edmonton, again last week to confer with the premier re the school readers soon to be authorized. Both the ministers decided to request Morang & Co. to revise their new readers to conform to the requirements of the schools subject to approval by the educational councils of both provinces. It is expected that the new readers will be ready by the beginning of the year.

Beginning with May 1 and continuing for four years, the postage on newspapers, magazines and trade journals is to be two cents a pound instead of eight cents as heretofore. This preference is for the purpose of allowing British publications to compete on a more even footing with those of the United States which circulate largely in Canada. If the experiment proves successful it will be continued after the four year period.

A wagon and a team of horses became stuck in the mud in the vicinity of the C.P.R. shops in Winnipeg, and it was impossible to extricate them. The horses were seen at a late hour and were alive, but at an early hour next morning both had died. No one approached the horses during their long wait and it was impossible to learn to whom they had belonged.

While climbing out of a window on the first storey of Old St. Lawrence market, Toronto, early Thursday morning, after putting out a fire, Fireman Mat Swaden, slipped and fell to the sidewalk and had his arm broken in three places, his hip and cheek badly cut and his head injured. He was carrying his axe when he fell.

Harbor echoes were awakened at Montreal by the arrival of the first ocean steamer after being held up at Quebec for a number of days by ice. The first arrivals are the Hibemian and Marina, both freighters from Glasgow, and a whole fleet of sister ships were on their way up stream. Big contingents of dockmen had been looking seaward for several days and the fact that the boats were in sent up the spirits of the dockmen who have been idle all winter or subsisting by shovelling snow from the city streets.

Members of the fashionable St. George's Episcopal church, at Hempstead, Long Island, were astonished when they learned that the pastor, Rev. John M. Cook had departed and that Miss Flora Whaley had also left her home and had written letters saying that she would not return. Rev. Mr. Cook is married. Miss Whaley has a considerable fortune of her own.

A hockey match in May sounds like a pipe dream or the story of some Arctic explorer, yet the residents of Ottawa enjoyed the novel experience on May 1st. The rink has been closed for some time. It came to the president's ears that there was still excellent skating ice in the building and so the hockey match took place.

The Huronic was the first steamer to reach the head of the lakes this spring, and with the arrival of the Northern Navigation Co.'s fine new flag ship on May 2nd, traffic on the lakes is again resumed. Nearly a thousand people gathered on the dock to see the steamer tie up. When the Huronic came through the harbor the ice was met with the usual salute by nearly every boat in the harbor. She made her way through the ice in great shape for a time but when she got in mid-harbor the ice was too much for her, and it was a long time before she was able to make the dock. The Huronic is again in charge of Capt. Robert Foote, with M. Ironsides as first mate.

A novel point in the payment of sessional indemnity to senators appointed during a session of parliament has just been ruled upon by the minister of justice. His decision is that the statutory fine for each day a senator is absent from the house must be imposed for each day of the session of parliament, prior to the appointment of the new senator whether the senate was in session or not. The five senators affected by the ruling, four of them were appointed on January 15 and one on March 12, Parliament met on Nov. 22, and they have been mulcted for every day from that date to the date of their appointment.

Five hundred men working on the Grand Trunk Pacific west of Neepawa went on strike on Friday morning, most of them starting east by the C.P.R. The majority of them were apparently foreigners. The cause of the trouble is not known, but it is said to be a strike for higher wages, better shelter and better conditions generally.

Let me mail you free to prove merit, samples of my Dr. Shoop's Restorative and my book on either Dyspepsia, the Heart or Kidneys. Address me, Dr. Shoop, Racine, Wis. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak stomachs, the inside nerves—means stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free book now. Dr. Shoop's Restorative sold by the Regina Pharmacy Stores.

ANIMALS AT RIVER PARK

Little Buffalo Calf, Angora Kid and Other Attractions

Winnipeg, May 2.—Perhaps the most interesting piece of information from a news standpoint at River Park is the fact that a young bull buffalo calf has been added to the herd this year.

This precious youngster, who was born about two weeks ago, is a fine fat little fellow and was about as lively a little animal as it would be possible to imagine. During the visit he was gambolling around his mother in the most erratic fashion. He is bound to be the pet of the children during the coming summer. The new comer is of a very light brown color, large boned, and with a peculiar shaped head and has every prospect of developing into an exceptionally fine specimen of his kind.

The buffaloes have stood the winter better than any other animals in the park and are all looking in fine condition. There are several other juniors at the park besides Master Buffalo and one of the nights that will delight

the children is a kid Angora goat which, not only being excruciatingly funny in his antics, is a very handsome little fellow, being spottedly pure white with a well formed and sturdy little body. Needless to say, he is his mother's pride and any attempt to play with him is keenly resented.

Another most amusing sight is the timber wolf pups; they behave just like so many little dogs, falling all over each other, fighting and playing, and all look to be enjoying the first experience of life immensely.

At the bear pit the cinnamon bear was perched on the top of his pole complacent with surveying the efforts of his keeper to construct a steel railing around the top so as to prevent children from falling over.

This truth has been considerably since last summer as has also his mate, but both are in very poor condition just now.

Other animals visited were the black bears, crows, elk, moose, silver foxes, red foxes, badgers, grey squirrels, the homing pigeons and the ducks, and all these, although looking in a run down condition after the winter, will soon, with the coming summer, recover their usual appearance.

Let me send you free, for Catarrh, just to prove merit, a trial size box of Dr. Shoop's Catarrh Remedy. It is a snow white cream, healing, antiseptic balm. Containing such healing ingredients as Oil Eucalyptus, Thymol, Menthol, etc., it gives instant and lasting relief to catarrh of the nose and throat. Make free test and see for yourself what this preparation can and will accomplish. Address: Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by the Regina Pharmacy Stores.

ADMITTS MISTAKE

Myrtle, May 3.—At the coroner's inquest here regarding two deaths on March 25 last in a C.P.R. collision, the jury seemed far from a verdict at one o'clock this morning. The men who met their fates in the accident were Charles Jones, fireman, and Harry Howes, brakeman. Engineer Kyle admitted that he disobeyed orders by running past Myrtle where he should have met the train with which he collided. He said in the steam and fog he mistook another train on the siding for the one he was to meet.

LADY HENRY TO RETIRE

Well Known Englishwoman to Cease Arduous Labors of Reform

London, May 2.—Before a large crowd at Bridgewater house today, Lady Henry Somerset, the widely known reformer, delivered what will probably be her last address in public. The announcement was made by Lady Henry herself, who explained that the fatigue incidental to the many calls upon her have impaired her health, and that she has found it absolutely necessary to curtail her work.

Though retiring from public life, Lady Henry will keep her homes at Duxhurst, where she will continue to live. She has been before the public for many years and is almost as well known in America as in England. An unhappy marriage led to a separation from her husband and she determined henceforth to give herself to social and religious work.

The industrial college founded by her in Duxhurst, Surrey, is the pioneer institution of its kind. Women of all classes suffering from alcoholism find there pleasant homes where amongst workrooms, and gardens, poultry and dairies they can forget the old influences which dragged them down.

CATARRH

To prove merit, and beyond any doubt, that Catarrh of the nose and throat can be cured, I am furnishing patients through druggists, mail order, and direct, with actual substantial help. Nothing certainly, is so convincing as a physical test of any alleged real genuine cure. But this article must possess true merit, else the test will condemn, rather than advance it. Dr. Shoop's Catarrh Cure is a snow white, healing, antiseptic balm, put up in beautiful 10 cent capped glass jars at 50c. Each jar contains 100 doses. Sold by all druggists. Thymol, Menthol, etc., are incorporated into a valvety cream like Petroleum, imported by Dr. Shoop from Europe. If Catarrh of the nose and throat has extended to the stomach, then by all means also use internally, Dr. Shoop's Restorative, stomach distress, a lack of general strength, bloating, belching, biliousness, bad taste, etc., simply call for Dr. Shoop's Restorative. For uncomplicated catarrh only of the nose and throat nothing else, however, need be used but
