## THE DREADNOUGHT.

Britain's New Battleship a Triumph in  
Design—Carries No Secondary Arm-  
ament—A Telling Contrast.

The only battleship included in Great  
Britain's ship-building program for this  
year will be laid down at Portsmouth  
Dockyard in October next, and it is  
hoped to have the vessel completed and  
at sea by the time Parliament is called  
upon to discuss the Navy Estimates  
for 1907. In other words, this vessel,  
the largest and most powerful in offence  
and defence ever constructed, will be  
built from the laying of the keel plates  
to the hoisting of the pennant in a pe-  
riod of sixteen months; thirty to thirty-  
six months is the average time devoted  
at present to the building of battleships  
of smaller size. This rapidly will re-  
sult in a great economy, but neverthe-  
less the cost will be between one and  
three-quarters and two millions ster-  
ling. So heavily will this vessel be  
armed that she will be equal to any  
two battleships now afloat, and her  
striking power at such a range as that  
at which the engagement opened in the  
battle of the Sea of Japan will be as  
great as any three battleships of the  
ordinary type.

The displacement will be about 18,000  
tons. In the design full advantage  
has been taken of the lessons deduced  
from the events in the Far East, and  
it is possible that some further  
changes may be made after the report  
has been received of Capt. Pakenham,  
the British Naval Attaché at Tokio.  
Apart from any minor modifications  
which may be made, the Dreadnought,  
as this man-of-war will be christened,  
will be remarkable for a number of  
novelties in design. She has been de-  
signed by Mr. Philip Watts, the Direc-  
tor of Naval Construction, and the  
mounting of ten 12-inch guns of the lat-  
est type, throwing 350 pound  
shells every two minutes, with a muzzle  
velocity of upwards of 2,500 feet a sec-  
ond, is admittedly a most sensational  
departure from the stereotyped prac-  
tice of the navies of the Great Powers.  
The vessel will be driven by turbines,  
and will be able to steam at upwards  
of twenty knots an hour, a remarkable  
achievement in engineering in view of  
her size, the weight of her guns and  
armor, and the great beam which it  
will be necessary to give her in order to  
ensure the provision of a stable gun  
platform, and to reduce the draught so  
as to enable the vessel to pass through  
the Suez Canal if necessity should arise.

The Dreadnought is regarded as a  
triumph in design. She will carry no  
secondary armament. The christen-  
ing of the 6-inch guns, borne by prac-  
tically all the battleships of the world  
hitherto, is one of the main lessons  
deduced from the long-range actions  
which have been fought in the Far  
East. The essential feature of a bat-  
tleship in modern conditions, it is now  
realized, must be the ability to deliver  
stunning blows at a distance of five or  
six miles, and this the Dreadnought,  
with her ten great guns, will be able to  
do with terrific effect. No bat-  
tleship has hitherto mounted more than  
four of these weapons, and as the new  
type of British man-of-war will have a  
particularly heavy armored belt, al-  
lured with this tremendous striking  
power, there will be nothing afloat which  
will be able to stand up against her  
in a sea action.

The remarkable character of the  
armament of the Dreadnought may be  
illustrated by contrasting her with the  
latest battleships now being built by  
rival powers.

Britain, Dreadnought, 18,000 tons, 20  
knots, 10 12-inch guns.  
France, Patrie, 14,635 tons, 18 knots,  
4 12-inch and 18 6.4-inch guns.

Germany, Deutschland, 12,997 tons,  
18 knots, 4 11-inch and 14 6.7-inch guns.  
Italy, Vittorio Emanuele III, 12,  
425 tons, 22 knots, 2 12-inch and 12  
6-inch guns.

United States, Kansas, 16,000 tons, 18  
knots, 4 12-inch, 8 8-inch and 12 7-inch  
guns.

Japan, Katori, 15,950 tons, 18 1/2  
knots, 4 12-inch, 4 10-inch and 12 6-inch  
guns.

Admiral Togo's tactics in the battle  
of the Sea of Japan, illustrated the  
virtue of great speed, and the Dread-  
nought will have the advantage of two  
knots over any of the German, French,  
or United States ships; the Italian bat-  
tleships belong to a class apart, as  
sacrifices have been made to enable  
these vessels to attain a high rate of  
steaming.

It is understood that the Japanese,  
profiting by their own experiences, are  
about to give out orders for additional  
battleships which will resemble the  
Dreadnought in fighting power.

**Britain's Wealthy Men.**

The Treasury has issued a Parliamen-  
tary return of the assessment payments  
on income tax for 1903. This shows  
that only twenty persons in Great Brit-  
ain were in receipt of incomes exceed-  
ing £50,000 a year. In all 433,917 peo-  
ple paid the tax upon a gross assess-  
ment of £129,221,875, while 25,000,000  
of the population paid on £223,070,021.  
The greatest number of those assessed,  
133,462, paid on incomes between £100  
and £200. Their assessment amounted  
to £25,995,194. The list declines grad-  
ually till the incomes are between £1,  
000 and £2,000, which are taxed on a  
gross assessment of £2,614,359. Only  
423 pay on incomes between £5,000 and  
£10,000 yearly, and 200 on £10,000 to  
£20,000. The total assessment on the  
latter is £2,321,094.

The Irish figures show that 19,855  
Irishmen paid income tax on a gross  
total of £4,629,707, while 1,115 com-  
panies paid on £6,232,873. Only one  
Irishman has an income of over £50,  
000. His exact income is estimated by  
the assessors at £73,823.

Judging from the assessments the  
emoluments of Government, corporate  
and other public officials have risen by  
£20,000,000. In ten years the incomes  
derived from farming have fallen by  
£2,000,000. The incomes of property  
owners have increased £31,000,000 and  
the incomes of the business, profession-  
al and private employment classes have  
increased £30,000,000.

**The Hog to Breed.**

Do not use any hogs for breeding  
purposes except those that show evi-  
dence in form, disposition and breed  
of inclination to early maturity. Hogs  
are raised only for their flesh, and  
the fewer days it takes a pig to accu-  
mulate enough to be of any marketable  
size the more profitable it will be for  
its owner.—Farmers Advocate.

## HANDS CRACKED AND PEELED

Suffered for One Year—Water  
Caused Agony, Heat Intense Pain  
—Grew Worse Under Doctors—  
Could Not Do Any Housework.

### ANOTHER WONDERFUL CURE BY CUTICURA

"About a year ago my hands began  
to crack and peel. I tried many reme-  
dies, but they grew worse all the time.  
At last they became so sore that it  
was impossible for me to do my house-  
work. If I put my hands in water, I  
was in agony for hours; and if I tried  
to cook over the stove, the heat  
caused intense pain. I consulted a  
doctor, but his prescriptions were  
utterly useless, and I tried another,  
but without the least satisfaction. I  
got my first relief when I purchased  
Cuticura Soap and Ointment. After  
using them for a week, I found to my  
great delight that my hands were  
beginning to feel much better, the  
deep cracks began to heal up and  
stop running, and in six weeks my  
hands were entirely well, one cake of  
Cuticura Soap and one box of Cuticura  
Ointment making a complete cure.—  
Mrs. M. Drew, 18 Dana St., Roxbury,  
Mass."

### ONE NIGHT TREATMENT For Sore Hands and Feet with Cuticura.

Soak the hands or feet on retiring  
in a strong, hot, creamy lather of  
Cuticura Soap. Dry and anoint freely  
with Cuticura Ointment, the great  
skin cure. Wear on the hands during  
the night, old, loose gloves, or band-  
age the feet lightly in old, soft cot-  
ton or linen. For red, rough, and  
chapped hands, dry, fissured, itching,  
feverish palms, with brittle, shapeless  
nails and painful finger ends, and for  
itching, burning, and scaling eczemas,  
rashes, inflammations, and chafings,  
this treatment is simply wonderful.

Cuticura Soap, Ointment, and Pills are sold through-  
out the world. Dealers: London, 25, Chancery Lane; Paris,  
2, Rue de la Paix; Australia, 11, Town & Co., Sydney.  
Cuticura, Chatham, Bottom Sole Proprietors.  
Send for How to Cure Itching, Scaly Humors.

**The Malaria of Ambiguity.**

Admiring Friend (to captain of col-  
lege boat club)—I say, Thompson has  
been slugging you like anything about  
putting Jones into the Henley boat.  
He says the fellow's the biggest fool  
in the varsity. Captain—Oh! And what  
did you say? Admiring Friend—Oh, I  
stuck up for you, of course, old fel-  
low.—Punch.

**A Definition.**

"What does the word 'aroma' mean?"  
was recently asked by a teacher. Only  
one hand went up. Its owner thus  
explained: "When you cook an onion  
in the kitchen, the aroma is what you  
get in the parlor."

**A Round of Pleasure.**

Nell—Last night was the happiest in  
my life. It brought me one round of  
pleasure. Bell—What do you consider  
one round of pleasure. Nell—An en-  
gagement ring.

**An Insinuation.**

May—Ever been jilted, Edith? Edith  
—No, dear. What does it feel like?

Giles—My wife can drive nails like  
lightning.

Miles—You don't mean it?

Giles—Sure I do. Lightning, you  
know, never strikes twice in the same  
place.

The size of the piece that he leaves  
you is the outward and visible sign of  
the iceman's generosity.

**He Will Cure You First  
Then You Pay Him**

The physician, who has not sufficient con-  
fidence in his own ability to cure his patient first  
and receive his pay afterwards, is not  
worthy of the name of physician. He is  
merely a quack, and his only object is  
to make money for himself. He is in  
search of honest treatment.

Dr. Gold-  
berg's accept-  
ance of a cure  
for treatment  
is equivalent  
to a cure, be-  
cause he re-  
spects the pa-  
tient's feelings.  
He is satisfied to  
receive the money for  
the cure.

Dr. Gold-  
berg is the first specialist in the United  
States or Canada, who has had sufficient con-  
fidence in his own ability to cure his patient  
first and receive his pay afterwards. He is  
not a quack, and his only object is to make  
money for himself. He is in search of honest  
treatment.

There is no quackery, no experiment about  
his method. He is a known expert in his  
chosen specialty, and offers you the best, and only  
the best treatment. When you are cured, your health  
is at stake, inferior treatment (which leaves  
after-effects worse than the disease itself) is de-  
adly dangerous.

Dr. Gold-  
berg has 14 diplomas and certificates  
from the various colleges and state boards of  
medical examiners, which should be sufficient  
guarantee as to his standing and ability. It  
makes no difference who has failed to cure  
your case, as he guarantees a positive cure for  
all chronic, nervous, blood and skin diseases,  
which he accepts for treatment. He not only  
cures the condition itself, but likewise all the  
complications, such as rheumatism, bladder or  
kidney trouble, blood poison, phthisis and  
nervous debility, lack of vitality, stomach  
trouble, etc. All medicines for patients are  
prepared in his own laboratory to meet the re-  
quirements of each individual case. He will send a  
booklet on the subject, which contains the 14  
diplomas and certificates, entirely free. All  
medical fees for Canadian patients sent from Win-  
dward, Ont., duty and transportation prepaid. Ad-  
dress: L. M. Smith, Dr. S. Goldberg, 208 Woodward  
Ave., Suite 511 Detroit, Michigan.

**Humor and Philosophy**  
By DURCAN M. SMITH

**NO JOY FOR HIM.**

The air was soft as silken thread,  
All nature seemed to be at play,  
And in the branches overhead  
The birds sang forth a roundelay.  
But what to him was Nature's smile,  
Her warm caresses or her frown?  
For really indeed was worth while  
Since one small girl had turned him  
down.

He had a dollar to his name—  
Yes, half a million, more or less.  
The goddess that distributes fame  
Had touched him with her warm caress.  
But what was fame or yellow gold  
Or what, indeed, was high renown  
When that one little girl was cold—  
When Dora sweet had turned him  
down?

He had a host of loyal friends,  
As wealthy people always do,  
Some only for their selfish ends  
And others—well, for that thing too.  
But what were friends that at his call  
Might bow the knees and smirk and bend  
At that young lady fair and small  
Would not be more to him than friend?

Oh, why will man o'er one despair—  
Can any scientist explain—  
When there are others just as fair  
Come into town on every train?  
One who is very commonplace  
And plain to us to him seems fit  
And she gives the boy a chase  
His world is henceforth a mist.

For the Lazy Man.  
"Bilks is always kicking on the  
weather."  
"I suppose he thinks he could im-  
prove it if he had the running of  
things."  
"Sure. He likes the occasional shower  
that waters the lawn, but what he  
wants in addition is an occasional cy-  
clone to mow the grass."

Not in Demand.  
"You poor de-  
bilitated health."  
The mission-  
ary said.  
"I see you're  
quite as low  
and vile as the  
accounts I've  
read."  
"Though filthy  
and degraded,  
for you there  
still is hope."  
"I'll send you  
by an early  
boat a box or  
two of soap."  
The chief of  
the heathen  
rose up and  
made reply:  
"I know we're  
very low and  
vile and on re-  
flection shy,  
But keep your soap, my brother. It may  
be good enough,  
But we had some, and not a man of us  
would eat the stuff."

He Refrained.  
"After the doctors had all given him  
up he was cured by an Indian over  
eighty years old."  
"That sounds like a familiar story."  
"Oh, but you haven't heard the sur-  
prising part. He didn't put the remedy  
on the market at a dollar a bottle."

Might Be Some Day.  
"They wouldn't accept him on the  
jury."  
"Why not?"  
"He is prejudiced against capital  
punishment."  
"That is strange. He never was  
hanged himself, was he?"

A Slam on Them.  
Are we smarter than our fathers,  
More advanced and brighter far?  
Well, it doesn't hurt their feelings  
If we want to think we are.

Who Will Keep Up the Payments?  
"He is buying a house on the instal-  
ment plan."  
"And he hasn't any grandchildren  
either."

No Improvement.  
Though wireless  
messages are  
sent  
Successfully  
across the  
bay,  
Let's hope that  
no one will  
invent  
A kiss that  
gives the  
feelings vent  
Ten thousand  
miles away.

**PERT PARAGRAPHS.**

When a plain girl is good it is apt to  
be taken as a matter of course.

Some people are so chary of smiles  
that you might think some trust had a  
corner on them.

Try as we may, it is impossible to  
wash our hands of all microbes.

Singing is a gift. That may explain  
why some girls are so free with it.

Cupid was the original dress reform-  
er.

In choosing between a good name  
and great riches would the average  
man hesitate long?

Oil and water won't mix, but, for-  
tunately for the milkman, milk and  
water will.

What a roar the man dirt makes  
when he runs across a woman who is  
built on the same general plan!

When he falls in love every man  
thinks that he has discovered some-  
thing new.

A well bred man never asks to have  
the pie passed again.

## Imperial Oxford Range

The important feature of this system  
is the diffusive flue which draws in  
fresh air, superheats it and distributes  
it evenly throughout the oven. The  
article on the bottom shelf farthest  
from the fire is getting as much heat  
on all sides as the article on the top  
shelf next the fire.

We would like to explain this more  
fully. If your dealer doesn't handle  
the Imperial Oxford Range, write us  
for particulars. We will send cata-  
logue and tell you where you can see  
the range.

Mass.

**STRIKE ON AT WARSAW.**

Protest of Poles Against Disregard of  
Their Rights.

Warsaw, Russian Poland, Aug. 22.—  
A general strike has been proclaimed  
throughout Poland as a protest against  
the disregard of the rights of the Poles  
in the scheme for representation in the  
National Assembly. The strike began  
yesterday.

Eighty Socialists carrying arms,  
while attempting to enter the city,  
were opposed by a detachment of Cos-  
sacks. Eight were killed and the others  
arrested.

**ARREST RUSSIAN PROFESSORS.**

Eleven Men and One Woman Taken In-  
to Custody.

St. Petersburg, Aug. 22.—The police  
Sunday night arrested Paul M. Milu-  
koff, professor of Russian history in the  
University of St. Petersburg, his  
wife and ten other members of the bu-  
reau of the association of profession-  
union, at their residences at Oudela-  
nka, near St. Petersburg.

Prof. Milukoff in October, 1902, was  
sentenced to six months' imprisonment  
for participation in a political meeting  
in 1900. At the time the verdict was  
rendered, the professor was in Eng-  
land, but he voluntarily returned to  
Russia to serve his sentence. He was  
released after serving about two  
months. In the latter part of 1903,  
Prof. Milukoff went to the United  
States and delivered a series of lec-  
tures.

**Salt**

It keeps you cool and comfortable because it keeps you  
healthy. No heavy, depressed feeling—no bilious headaches,  
stomach or bowel troubles—as long as you take a morning glass of  
Abbey's Effervescent Salt.

25c. and 60c. a bottle. At all Druggists.

**Western Fair**

When Governor Simcoe laid the foundation of  
London, Ontario, one hundred years ago he knew it  
would grow to be a great city, but had no thought of the  
Western Fair.

The Western Fair gives the people of this country  
an excellent opportunity for a pleasant outing at a  
minimum of cost, and at the same time develops their  
store of practical and useful knowledge.

Its educational features have always been carefully  
fostered by the Directors. This year several important  
improvements of an instructive nature have been added.

The celebrated 68th Highland Regiment Band will give  
three concerts daily during the exhibition. The entertain-  
ment department will be better than ever, and will include  
leaping the gap in mid air on a steam automobile.
