He Had Often Read the Name

An English school teacher one day took France as the subject of the geography lesson.

In this terrible war," said she, "who is our principal ally?"

"France," came the chorus.

"Right," said the teacher. "And now can any one of you give me the name of a town in France?"

"Somewhere," promptly shouted one small boy.

WAR ARTICLES WORTH FOLLOWING

The "Witness" article on the War Situation are appreciated throughout Canada by the best informed people, for their clearness and sincerity, as well as for their fine spirit, breadth and foresight.

The Montreal "Weekly Witness" is a truly great national paper. It always has been and still is absolutely owned and edited by Dougalls, Mr. John Redpath Dougall being its editor.

While some papers are notoriously and obviously at the beck and call of predatory interests, there are others, like the Montreal "Weekly Witness," that have maintained their independence. It has never grovelled. It has never touted. It has never pandered. The "Witness" is its unique self, loved by its friends, hated by its enemies.

During the past three generations it has conscientiously, devotedly and very efficiently, served its country in many ways, notably in its campaign for Temperance, Righteousness, Religious Liberty Education and every thing looking towards lower cost and higher plane of living. If Canada is not yet enjoying to the full the benefits of these things, it is far ahead of many other countries in most of them, and this is due in no small measure to the stand, or, more correctly, the splendid campaign of the "Witness" whenever opportunity afforded. The welfare of the Canadian farmer in particular has always been considered of prime importance by the Editor of the "Witness," and the "Witness" has done yeoman service to agriculture.

Generations of our finest Canadian families have literally been "brought up on the 'Witness,'" as many of the most eminent Canadians will testify, and they continue its devoted admirers.

Besides the moral and political aspects of this great newspaper, it has attractive features embracing all the interests of the family and a splendid Farm and Poultry Department. Its short and serial stories are strong and fresh, and they alone are worth several times the price—one dollar a year. To bona fide New Subscribers mentioning the name of this paper, one trial year may be had for only 65 cents, or three months on trial only fifteen cents. The publishers are, as always, JOHN DOUGALL & SON, "Witness" Office, Montreal.

The "Weekly Witness" has now no connection with any daily newspaper and is the healthiest for it.
