

THE UNION ADVOCATE, WEDNESDAY, NOVEMBER 8, 1882.

farm and Kouschold. November Notes on Farm

Stock.

Horses, with their winter .coats, until about twenty years ago !" sweat easily. When brought in warm, they should be rubbed dry and blanketed for an hour. Work horses should not be blanketed in the stable, in the stable, should not be blanketed in the stable, but carriage horses, or those used only upon the road, may be kept warmly blanketed, for though by this they become more sensitive to cold, and must have more care, yet they coat does not grow so close and their coat does not grow so close and long, and they are much less likely to sweat when driven. Ground or natural shape, and in two weeks she was as crushed oats go farther, are better well as ever. It has not returned. digested, and mix better with other

Kind words are bright flowers of earthly food than whole ones. They are the best winter feed for horses, but may be mixed with corn or barley and mixed with corn or barley meal or wheat bran and middlings ed heart and make the weighed-down spirit did me. I recommend them to my patients, for work horses to advantage. glad. Whole grain is not fed without waste.

Beeves.—In feeding for beef, the notions of each animal should be consulted—his preferences, likes, and dislikes. The object of feeding no relief, until I used Dr. Thomas' Eclectric usually is to get the animal to eat Oil. After a few applications the pain left all that he will digest well. Hence E. Lee Street keeps all of Northrop & Lya variety should always be at hand, man's preparations for sale. and the ration should be varied for

feeding cooked, soaked, or dry meal, as the case may be, with hay and roots. Take great care not to over- when it is estimated that this year's producfeed, and in case of over feeding, tion will exceed the consumption by 100,-000,000 bushels or about 20,000,000 barrels let starvation be the core. Thus the of flour. animal will soon take to feeding again, but will be less likely to fall off much in flesh, than if "phy-

sicked."-Nature is the best phy sician.

ed sheds, with plenty of sunshine, especially Bitters or preparations with the and protected from snow. One great advantage of keeping sheep is to nected therewith, that is intended to mislead convert straw into manure. Hence and cheat the public, or for any preparation much litter is usually strewn in put in any form, pretending to be the same sheep sheds, to the distress of the sheep, unless they have hard places of GREEN HOPS (notice this) printed on the to lie upon, because their feet and white label, and are the purest and best legs get so hot. A few platforms, like old doors, which can be shifted like old doors, which can be shifted Liver and Nervous Diseases. Beware of all to a neighbor for a dollar. Some men seem others, and of all pretended formulas or re- to take delight in swindling their neighbors.
