

THE HERALD

WEDNESDAY, DECEMBER 14, 1899

TOPIC OF THE DAY

The surplus revenue of the Dominion, over expenditure for the five months ending Nov. 30th, was \$2,000,000, as against \$2,400,000 last year.

The authors of the Charlottetown Driving Park association have issued a statement which, it is believed, will be of interest to the public.

It is evident from the interest taken in different sections of the Province, that there will be a number of winter drives in operation next summer.

William Spittle, formerly of this Province, but now of Yale, Michigan, in a letter received a few days ago, gives the following as the prices of produce there at present.

Hon. C. H. Tupper, Minister of Marine and Fisheries, who returned from London the other day, in an interview at Montreal had the following to say of Premier Thompson.

The following returns show how the Canadian Northwest is developing. The Canadian Pacific railway sold in November, 1891, 4,461 acres of land to settlers, receiving for the same \$42,047.

We have received the first number of The Catholic Times, a new seven column, eight page paper, published in St. John's.

The Canadians of home multiply at a very moderate rate, twelve per cent or so in a decade, but it is wonderful how prolific they become when they go abroad.

Saturday afternoon those interested in the new hotel scheme met in the City Council chamber to receive the report of the assessing committee.

A point has arisen in the proceedings to be held in the City Council chamber to receive the report of the assessing committee.

It is hardly too much to say that the Canadian Pacific railway is the backbone of the Dominion.

HARRISON'S LAST MESSAGE

The message just transmitted to Congress by President Harrison, is in many respects an extraordinary document.

Not only are these statements indicative of jealousy and disappointed hopes, they are also indicative of a policy which will be followed by Mr. George Johnson, Dominion Statistician.

On the canal question, he delivers himself as follows: "It is not for me to discuss the merits of the proposed canal, but to state the position of the Government."

Mr. Harrison's most serious objection appears to arise from the knowledge of the great enterprise now being carried out by the Canadian Pacific Railway and its Pacific steamships.

In this acknowledgment Mr. Harrison pays a very doubtful compliment to his countrymen. Where is the boasted enterprise of the great American people?

According to President Harrison, the office committed by the Dominion Government was a reward to a party to a tariff arrangement that would discriminate against the Mother Country.

Another source of trouble to the rejected of the electors of the United States is the immense traffic that has been created by the Canadian Pacific and other railroads in Canada.

It is hardly too much to say that the Canadian Pacific railway is the backbone of the Dominion.

THE CANAL QUESTION

On the canal question, he delivers himself as follows: "It is not for me to discuss the merits of the proposed canal, but to state the position of the Government."

Mr. Harrison's most serious objection appears to arise from the knowledge of the great enterprise now being carried out by the Canadian Pacific Railway and its Pacific steamships.

LOCAL AND

The Honourable Mr. Justice Gwynne has been appointed to the position of Chief Justice of the Supreme Court, and will be sworn in on the 15th inst.

A man named John Gwynne in Ward's Cove, South Wilkes, has been found to have shot and killed a man named John Gwynne, who was a member of the same family.

THE MERRY... I have used Haverford's... It is a very good thing to have a good man in the house.
