Fire Destroys

Digby, N. S., Sept. 7.—Advices received at ten o'clock tonight from Annapolis Royal, 20 miles away, were to the effect that a fire, which broke out there early this evening was under control after having wiped out approximately one-third of the town, including a large portion of the business section.

Scenes of the utmost confusion prevailed as scores of people carried furniture and moveable property to safety through the smoke-filled streets, while others hauled water from the Annapolis River, and tried to prevent the spread of the conflagration by blowing up houses in its path with dynamite. Families rendered homeless by the disaster are tonight being housed by their more fortunate neighbors, and at the little village of Clementsport, seven miles away.

The fire started in the Queen's Hotel stables, from a cigarette stub. It spread very rapidly, due to lack of water, and the fact that the town was without pumping apparatus with which to utilize water from the Annapolis river, flowing little more than a hundred yards from the scene of the outbreak. A heavy fog settling on the town shortly after nightfall helped to check the flames, however, at the open space near St. Luke's Church on the one hand, and at the fireproof building of the Royal Bank of Canada on the other.

Now the Prices you've been waiting for are here

The old year took away for ever, we hope, the old burden of war prices. For months conditions have been working toward the great climax that brought the remarkable merchandise that is here assembled for this our great January Carnival of Economy.

The results came in two ways: 1st. The drastic lowering of prices on our own stocks, down to the new low basis, and often far below it—to double your interest in January buying in our store.

2nd. We have combed the markets—taking utmost advantage of the opportunities created by far sighted manufacturers who were ready to co-operate with us in presenting to you now the lowest prices that will be possible, for the next six months, at least.

We can just see the delight of our Customers when they see the splendid assortment of goods, in every department of our store, and then realize that prices are away down to the bottom, where it is a pleasure to buy things.

Many Manufacturers have ACCEPTED LARGE LOSSES. We shall forgo a large part of our profits on the new goods and accept large losses on our own mark-downs—to inaugurate this first New Year under the New Management and

THE MOST STIRRING PRICE-UPSET THAT THIS COMMUNITY HAS EVER KNOWN.

No matter what you need or desire, now is the best time for months to come to buy it. Some of the reasons are told on this page; but scores of others are here that can get no mention today, even in this broad space.
