DIED.

Yesterday at noon of pneumonia,
Geo. C., beloved child of G. H. and
Maggie Morgan, aged 8 months and 6
days. Asleep till Jesus comes.
Killed in action on Nov. 28th, in
France, Thomas Eustace, son of Geo.
and Caroline Eustace, aged 28 years.
He has done his part. (Deceased went
France, Thomas Eustace, son of Geo.
Mounted Rifles, and the sad news of
his death came by telegram to his
father, yesterday).

This morning, William Patrick, only
son and beloved son of Michael and Johanna
Walsh, aged 26 years; funeral on
Sunday, at 2.30 p.m., from his late resi-
dence, 188 Duckworth St.; friends
and acquaintances please accept this,
the only, intimation.

You should buy table linen by the
weight, not by its fine appearance.
Heavy table cloths always last longer
than light ones.
Never buy a mixture of cotton and
linen, and beware of damask that is
too stiff, for it has probably been
starched to make it appear of better
quality than it really is. Good linen
has an elastic texture. Some of the
French damasks look all right, but
they do not pass the soap-and-water
test. Considering all points, Irish lin-
en is far superior to any other.

Two and a half yards is the best
width for the ordinary table.
Avoid very large table-napkins—no
one likes them. Select a medium size,
and buy a dozen and a half to go with
each cloth. Do not starch your linen
when it is new, but when it begins to
get thin and limp a little thin starch
is advisable.

Shortall for \$5.00 was omitted from
the list of subscribers to the Chris-
tian Brothers Collection at St. Pat-
rick's Church.

**The Kind of Wife
Men Like.**

Some of the Qualities That Make a
Good Wife.

She is the little woman who does
her best to please everybody, espe-
cially her husband. She looks after
her relations, has a pleasant smile for
her neighbours, and isn't short-tem-
pered when called downstairs to an-
swer a cannyasser or asked to ex-
change a fern for an old pair of boots.
Her husband likes her because she
runs up no debts. When he arrives
home in the evening the dinner is al-
ways ready. This makes him happy
and pleasant to other people. His
friends would do anything to please
her because she entertains in such a
quiet, sensible fashion. She makes
everybody feel at home in her house,
whether they come from next door or
a hundred miles away.

A Mysterious Fire.

The S. S. Senlac, burned almost to
the water's edge, is lying at McLen-
nan's wharf, Westmount. The fire
which destroyed the Senlac broke
out about 3 o'clock this morning. It
was first discovered by the mes-
senger steward and first engineer, in
the stoke hold of the ship.
They roused the others. By this
time the fire was spreading to all
parts of the ship and the men's lives
were in grave danger.

The government cutter Hochelaga
seeing their plight went to the assist-
ance of the burning ship. After res-
cuing the passengers and crew, the
men of the Hochelaga worked for sev-
eral hours in an endeavor to check
the flames. Their efforts finally prov-
ing ineffectual, they towed the burning
craft to her present position.

Two of the ship's boats, badly char-
red, were the only articles saved; 28
cattle, 30 sheep, 40 pigs and a large
number of fowl, beside a cargo of
farm produce were lost. The cargo
was from Charlottetown, consigned to
Harvey & Co. in St. John's. The sail-
ors lost all their belongings, ranging
in value from one to three hundred
dollars.

The firemen were on shore and the
ship which was to have sailed last
night was delayed by their non-
appearance.—Tuesday's Sydney Post.
