## The Horseless Carriage.

on Several occasions since this column has appeared we have taken the opportunity of congratulating the Police Department on the tact with which they have handled several matters to do with motoring. This week, however, we are going to criticize of this week. It was a of this objectionable form of advertise your goods, use the newspapers. That's wall with considerable damage to his car, but fortunately, without much to himself and passengers. We continued to the property of the scenery is intended to be put to gratulate him on his pluck and nerve. At the same time, perhaps he will expense the grounds containing a fair number of the original Executive of the grounds contain two column has appeared we have taken the opportunity of congratulating the wall with considerable damage to his car, but fortunately, without much to himself and passengers. We continued to the market (see advertising the market (see advertising of this objectionable form of advertise your goods, use the newspapers are intended for, and it is decidedly not the use natural scenery is intended to be put to gratulate him on his pluck and nerve.

At the same time, perhaps he will expended to the Mosociation as a Club House. The work of the scenery is intended to be put to gratulate him on his pluck and nerve.

We understand that a certain members the grounds containing a fair number of the market (see advertising the market (see advertising the matter of running over a kid or charged the matter of running over a kid or charged the matter of running over a kid or charged the matter of running over a kid or charged the matter of running over a kid or charged the matter of running over a kid or charged the matter of running over a kid or charged the matter of running over a kid or charged the matter of running over a kid or charged the matter of running over a kid or charged the matter of running over a kid or charged the matter of running over a kid or charged the matter of running over a kid or charged the matter of running over a kid or charged them on a certain matter. Abo four cuse us if we take this opportunity of ber of the original Exe the Telegram of how a motor car crash this season of him (or possibly his fully anxious to know why a cerweeks ago a full account was given in Whelan, Grocer, Colonial Street. The whole outfit was very nearly being sent to Kingdom Come. The driver of the motor, instead of stopping to find out occurrence, and if it is "nerve" on our get his bachelor what damage he had done, called out part to make this slight reference, we "Hymen's silken bonds" for we have "What the H—are you in the way for?" must plead as our excuse that this, on our gramophone an old song which and carried on. Now, Mr. Whelan did column is conducted "in the interests says:not get the number of the car, but he of the Motoring (and general) public." is sure of one thing and that is that the car had yellow spokes. There are not so many cars in the city with yel- ed to several large boulders on the low spokes that the Police department side of the Pett Harbor Road, which couldn't locate the especial car and, to have been utilized for advertising purquote the driver's own expression, find poses and which bear the inscription: out "what the h-"he was driving like "Use-Oil." The Petty Harbor that for. ity of motors and trucks on Water heavenly Master. Then in order to Street taking the utmost care to avoid ratify their promises, they received splashing pedestrians on the side Toly Communion, from the hands of walks. This is a very common source the celebrant, making their joy comof annoyance this time of year and plete. many instances, is not due to the "Veni Sponsa Christi," the novices motor driver. Immediately after every then laid aside their White Veils and long river up Water Street at the sides their religious profession rain, water forms and remains in a of each of the street car rails as well that thorofare, while in seevral places newly professed sisters prostrated (opposite Smallwood's, T. J. Duley's themselves before the altar, renounce and Gray & Goodland's, for instance) ing the world, and dying as it were to large ponds form due to the faulty all earthly things. During the pros paving. However slowly a big car (or tration the "Te Deum" was sung. truck) is driven it is next to impossible not to make some splash in those | quam bonum" pealed forth, the newly places. Only the other day we saw a professed sisters arose, received their gentleman, driving in a semi closed lighted candles, and after the congrat cab, get doused from head to foot with ulations from their sisters in Religthe most filthy water, and the truck that was responsible for this outrage of the professed members, of the Orhaving got in the street car track, was rring up a miniature Niagara Falls all the way up the street. All that drivers can be asked to do is to drive as slowly on Water Street as poss the car tracks. The state of the pavegins to where it ends, is a positive ost important town of the Oldest indlanders are a d-sight too easy going. The first thing we, pernally, will do, if the town sees fit to tation to have Water Street (and why not Duckworth Street and New Gower Street?) decently paved as would have been done long ago if anybody had aken the matter up seriously.

At this time of year tire chains are desirable for light cars driving on the country roads, especially on the Waterford Bridge Road, which is always greasy after a rain storm, especially in the dip by Germandale. This morning, Thursday, (these notes go to press on Friday) there is a "tin Lizzie" by the side of the Waterford Bridge Road looking like something ridge Road looking like something ne cat brought in.
