Upon His Honor as Minister of the Gospel

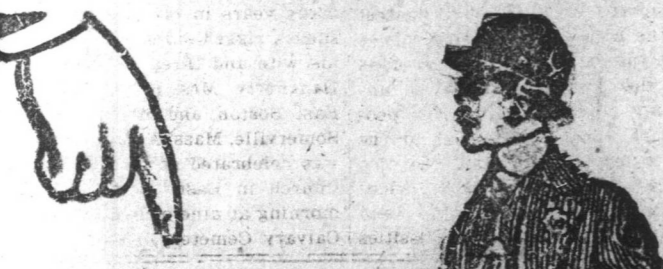

REV. W. A. THOMPSON WRITES OF DR. F. G. KINSMAN'S HEART TABLETS.

I had heart trouble severely for fifteen years and had many doctors to treat me with no discernible effect. I had become so low that I could scarcely walk fifty steps. At night I was troubled with fluttering of the heart, and by no means had a night's rest for that length of time. I had pains most excruciating and could not lie on my left side even for a moment. I tried five boxes of your Heart Tablets and can now truthfully say that I am well. I am a Minister of the Gospel and upon my word as such, I believe I could not have lived had it not been for your remedy. I am not, generally speaking, willing to give testimonials, but I fully owe this or more to you owner of the Heart Tablets.

Memorial Billiards.

MASONS HAVE NOT LOST A GAME

With seventeen more games to be played in the Memorial Billiard Tournament, the Masons have kept a record which from all appearances, will not be broken during the series. They have won all of the ten games played by them. The Stars are second, the C.E.I. third and the B.I.S. next. Seven games were played on Saturday. In the first Fox (Masonic) beat Angel (Guards) by 52 points. Ryan (Star) had no difficulty in defeating Spratt (T.A.) by 101 points. In the third game, Knowling (City) was defeated by Angel (Guards) by the large margin of 56 points. This was Angel's first win. The first game in the evening was between McLoughlan (City) and McFarlane (Saints). It proved a "thriller" throughout, and was won by the latter by 1 point. In the next game, Strang (Saints) defeated Carbery (Star) by 54 points. Fox (Masonic) had no difficulty in defeating Merner (B.I.S.) in a prettily played game. In the course of which he made a 41 break. Rabbits (Masonic) and Porter (B.I.S.) were the last players for the day. Rabbits won easily with a majority of 105. He made a splendid 52 break. The standing of the various clubs is now as follows:

Clubs.	Pld.	Wn.	P.C.
Masons	10	10	100
Star	12	8	66.6
C.E.I.	11	7	63.6
B.I.S.	13	8	61.6
K. of C.	12	7	58.3
Saints	11	6	54.5
Guards	13	4	30.7
City	13	3	23.1
T.A.	15	3	20.

Salvage Notes.

In a small outpost, the paucity of news is such during the winter season, that unless one has a long-stored fund of anecdotes or historical lore to fall back on, correspondence is likely to suffer "journalistic ennui."

We are glad to record that Mr. Wm. Dyke (Jr.) is—after a severe illness of nearly three months—able to get out around. We trust his appearance is evidence of a permanent recovery.

Mrs. J. W. Dyke had a very severe fall a little while ago, when she was precipitated down a flight of stairs. Fortunately no bones were broken but she received a big "shaking up" and a very severely sprained wrist.

We understand that Mr. Owen Burden has one of B. Burry's new schooners in view for the prosecution of the codfishery during the ensuing summer. We trust that Mr. Burden and his crew will fare well in the venture, and make the vessel's maiden voyage one worthy of emulation.

Mr. Samson Brown, Carman's Cove, passed away a few days ago at his home. Deceased was a returned veteran, and had been married less than a year. His passing is rendered the harder to his relatives inasmuch as his aged father has been for some time practically at the point of death.

On Monday of this week we witnessed some "kite flying"—possibly the daily recital of Cotton's air-work—has caused new interest in these "half-forgotten echoes of a bygone day." The old people were often in the habit of referring to the "kites" as "weather breeders." Their superstition was fully verified in this instance as we are now experiencing our first "rainy thaw" for the spring.

From what we gather in the way of conversation and rumor, some of the pit-prop men from the southern districts who were cutting wood in our bay, have saved some of the wood a shade shorter than the regulation law. There are other rumors as well. We are mildly interested in "who pays the piper?"

It will soon be time for "Our George" to get his fighting pen out again for the proper regard of St. George's Day. Last year's programme went in itself, did not fill the entire bill. Let us make St. George's and St. John's days our national holidays.

On Monday, March 20th, the sad intelligence was received that Mr. Dittive Dyke, son of Mr. John Dyke, Salvage Bay, had died suddenly at Grand Falls hospital of heart failure. Deceased was about 30 years of age, and up to a few days of his decease, felt perfectly well. For the past month or so he had been "trapping" with others, in the vicinity of Badger. The blow is all the harder to his parents, as their other son "Bert" was drowned during the war. Beside the parents, a wife and child are left bereaved, to all of whom we offer our sincere sympathy.

Winners of Gold In Diary Contest

This List Will Be Eagerly Scanned by Thousands Who Have Been Keeping Diaries in Dr. Chase's Almanac.

This annual competition has done much to encourage the useful and interesting habit of making note of business transactions and social events.

So many experts have developed that we have been obliged to divide up the prizes this year. This seemed to be the only way to ensure a fair recognition of diaries of about equal merit.

Dr. Chase's Almanac has been sent to practically every home in Canada and Newfoundland, 1,400,000 in all. If your copy has not reached you it will be sent, postpaid, on receipt of your name and address. In the almanac you will find full particulars in reference to the Diary Contest now on.

WINARD'S LINIMENT FOR WARTS

Outlook Brighter.

(Trade Review.)
That the price of new fish of 1922 catch will be better than that of last year, is regarded almost as a certainty by all who know most on this subject. This opinion is common to both the fish exporters of Newfoundland and Nova Scotia, particularly those at Lunenburg, where preparations are as active as any time within the past twenty years. The Nova Scotia catch is practically all cleared out, and they are starting there, unhampered by any old fish of last year's catch. The same condition of affairs will exist in Newfoundland by the month of May, when it is expected all our fish of 1921 catch will have been shipped. The problem in this country is the getting of supplies for the fishery.

There are some independent men who are able to get their own supplies, but these are very few. Some plan will have to be evolved whereby the bulk of the fishermen can get supplies. The Government should not be depended on again to issue supplies this season, because it puts a premium on dishonesty.

There is one thing that will help out the situation if it should occur, and that is the payment of the Roumanian Bonds, and the Government and the Governor should press for the payment of those Bonds without delay. The Bonds fall due in May next. The very men to whom these Bonds fall due are the very ones who supply for the fishery. This amount would go a long way in relieving the

situation, and would give the merchants concerned great encouragement to go on.

The price of outfit is cheaper. Salt will be about \$2.50. Pork, flour, and beef will be cheaper, and so should be hard bread, which is an essential to the fishermen. The same applies to locally made butter. The price of these articles should be reduced so as to put them in the reach of the fishermen, and on a parity with other articles of outfit.

The People Are Watching.

Editor Evening Telegram.
Dear Sir,—As one deeply interested in the country's welfare I desire to thank you for your leading articles in showing up Government incompetence, and also desire to say out loudly, Hear! Hear! to Mr. Gosling's very timely letter. It is high time that the powers that be should be reminded that the people are jealously watching them and wondering if they are going to act the man in this our extremity.

I do not date all our troubles to the advent of the present Government. We have to go back some distance for that, and the country has long ago realized that when they elected the Morris Government and overthrew the Bond party, they started on the downward road with eclat. But the question is now what are we going to do about it? We have to make the best of a bad case, and the disclosures appearing from day to day in regard to governmental dabbling in fish, salt, pulpwood, supplying and relief work is disgusting in the extreme. And now we are told that income will not meet expenditure, although we are taxed to such an extent that all initiative is taken out of our people. Where we once had contentment and comparative independence, as well as respect for the golden rule, we now find the very opposite. Example the Sagona case just made public.

Another producing season is now opening and we are told there will be little or no credit supplies issued. That in itself would be a blessing under more favorable conditions, but as we are now situated it spells disaster. What is required is the encouragement of enterprise, and that can only be accomplished by reduction of tariff on necessities of life and the repeal of the iniquitous export duty on fish products. If we are going to have a deficit, let it be through honest efforts; not by giving indiscriminate relief, so called, which is sapping the morale of the land. We cannot expect the producer to purchase his outfit that will cost him at the rate of \$5. per quintal to obtain a possible \$4. in return, at the end of the season, and that is where we have gotten to, and we repeat the question what is the Government going to do about it?

There is no easy way of escape from this position, so why not face the trouble at once. We need men that will "grasp the nettle" and the question is—are they big enough for the job. Start in from the top. Begin at Government House, and retrench all along the lines. We are burdened with hundreds of officials, under government pay, that do not earn their salt. Why (to quote the late E. M. Jackman) keep the trappings of an elephant on a cat. The people that placed them in power are compelled to do with less and now it is up to them!

Carbonar has a representative and we understand he prides himself on being a fisherman. Now is his opportunity.

Yours truly,
R. DUFF.

A DAINTY GOWN FOR HOME WEAR.

3877. There is much satisfaction in looking one's best at all times. For comfort and ease this style has much to commend it. The surplice sections form a grille that holds the fullness over sides and back. A slender or mature figure may wear this gown with equal grace. Challie in white with blue figures and white organdy is here combined. One could use crepe, crepe de chine, lawn, or voile for this model.

The Pattern is cut in 4 Sizes: Small, 34-36; Medium, 38-40; Large, 42-44; Extra Large, 46-48 inches bust measure. A medium size requires 5 1/2 yards of 36 inch material.

Pattern mailed to any address on receipt of 15c. in silver or stamps.

A PRETTY STYLE FOR A PARTY FROCK.

3876. For the girl who wants something different, this graceful model will be "just right." The platts give length and add fullness. The "peasant" sleeve is a new feature. If desired the sleeve may be finished in cap style without the puff. Voile with insertion of flint bands, or batiste with embroidery could be used for this. It is also attractive for crepe de chine with "picot" edge.

The Pattern is cut in 4 Sizes: 6, 8, 10 and 12 years. A 10 year size requires 3 yards of 38 inch material.

Pattern mailed to any address on receipt of 15c. in silver or stamps.
