GUARANTEED SUITES.

We are able to guarantee our Suites because we use only the best English materials throughout. Curled Hair, which we use exclusively, is the only material possessing the three necessary qualifications for Stuffing: Resiliency, Cleanliness and Durability. It costs more, but is most economical in the end.

We carry a full line of Velours, Velvets and Tapestries, and invite inspection.

STAFFORD'S Sarsaparilla Blood Purifier

FOR THE CURE OF
 Skin Diseases, Anemia, Lack of Blood, Paleness, Impure Blood, Lack of Ambition and Vigor, Debility, Weakness, Tired Feeling, Boils, Pimples, etc.

There is no Remedy of more universal application than a genuine true-and-tried Blood Purifier and Blood Builder. A medicinal preparation that will truly purify, revitalize and "raise" the blood, restore hope and pleasure, ambition and happiness, vigor and vitality. It is of inestimable value not only as a strengthener of the system, fortifying it against invasion of disease, but also as a cure for Chronic Diseases which depend upon an impoverished condition of the blood. Diseases of this nature are usually caused by impurities in the blood deposited through the inactivity of the Liver and Kidneys.

These excretions if not removed from the circulation, gradually form poisons which deteriorate the condition of the blood and allow other diseases to obtain a more ready entrance to the system. In the effort of nature to throw off these impurities, frequently pimples, boils, carbuncles, etc., appear, and it is wise to respond promptly to the Warning of Nature.

THIS SARSAPARILLA

is a genuine preparation scientifically prepared from the best and purest remedies for the purifying and rebuilding of the blood. It should be taken every spring, as at this season the blood is more apt to become impure and impoverished. Keep your blood in perfect condition and you will be prepared to fight life's battles with greater success.

One Bottle of this Blood Purifier is all that you will need to take to produce results.

W. J. MARTIN,
 Registrar General.

Why do We Dream?

What is the cause of dreams? Why does the brain, which is under control while we wake, work while we sleep in what seems a wild and irrational way?

The answer is simple: If the blood did not continue to circulate while we slept, we should never dream those fantastic dreams which puzzle us so much. It is because our blood still circulates through the brain that thoughts, vague and unconnected, must continue to be thrown off and what we call dreams.

Our power of thinking, while we wake, is governed by reflection, and is sound or unsound according to our mental capacity. When asleep, however, this no longer holds, though it is said that persons who, in their waking hours, habitually keep their minds and fancies under strict control, have far more rational dreams than those whose mental self-control is weak.

The brain, the most sensitive portion of the body, is composed of cells called the most exquisite degree. In all probability, when science possesses the delicate instruments necessary to explain all atomic nature, it will be found that what is commonly called "grey matter" is akin to the unknown force which produces light.

The ordinary light—which you distinguish from darkness—is, of itself, hardly less artificial than manufactured light. It is produced by a certain force acting upon these brilliant materials, it is light-waves. These light-waves, in their turn, act upon the retina of the eye and enable you to see.

What this force is science cannot exactly say. It is certain, however, that friction is the chief cause, operating to produce light, and herein you get the analogy with the human brain. In order to move or "throw off" the atoms of the brain, friction is necessary. That friction is caused by the circulation of the blood, and the more sensitive the quality of the brain, the more easily it responds to the action of the blood circulating through its thousands of small blood-vessels. This is the point where thought is created.

So you dream while you sleep, for the reason that your brain, by virtue of the never-ceasing blood-circulation, continues to throw off its atoms and carries, by force of habit, a jumble of symbols which, not being under control, issue forth wildly, vaguely, and unintelligibly, or at least without co-ordination.

Reds Will Not Allow Workers

TO BUY HOMES FROM BESCO.

SYDNEY.—A curious demonstration of the lengths to which the radical element are willing to go, to prevent the development of a better feeling between Besco and its employees was given by Phalen Local of the U.M.W. at Glace Bay recently.

By unanimous resolution, the local decided that any member of the union who should purchase his home from the company, under a plan recently inaugurated, should be expelled from the U.M.W. for 99 years. Under prevailing conditions, in the coal industry, this means that such a man would be unable to obtain employment anywhere in North America, with the exception of a few non-union counties in West Virginia.

Some time ago, Besco decided that the present system of renting company houses is not in the best interests of either the corporation or its employees and that the men should be encouraged to own their own homes. The Empire Housing Company was organized and special arrangements made to facilitate the purchase of company houses by employees who wish to do so. There is nothing compulsory about it.

Since its organization, about 67 houses have been thus transferred to employees, principally in the Glace Bay and New Waterford districts, but with a few also near the steel mills in Sydney. From March 10 to March 31 there was a marked increase in sales, 36 houses having been purchased by miners. This evidently roused apprehension in radical circles, hence the Phalen resolution designed to stop the movement.

The houses are sold at prices ranging from \$700 to \$4,000 and the payments range from \$2 a week upward, being equivalent to the small rentals usual in colliery districts.
