There has been a general improvement in trade, according to commercial telegrams, throughout the United States during the week. Drygoods, worsteds, clothing of all binds before a state of the state of kinds, hardware, provisions and lumber are the lines in which activity is most marked. The foreign buying of American securities has improved. Gold has begun to return to this continent. of last week 803,622 boxes of this year's make had been shipped out of the country, against 868,310 boxes for the corresponding period last year, and from New York for the same period 656,022 boxes have been exported, against 782,976 boxes last year. Up to Aug. 29, therefore, the total shipments of cheese from Canada and the United States wounted to 1459 644 boxes, against ments of cheese from Canada and the United States amounted to 1,459,644 boxes, against

States amounted to 1,459,644 boxes, against 1,651,286 boxes for the corresponding period last year, showing a decrease of 191,642 boxes, or about 11,500,000 pounds.

"The price of finest cheese in this market at time of writing is 9\\(^3\) to 10 cents, which is \(^3\) to 1 cent per pound higher than at this time last year, and the question which our dealers and shippers would like to solve is: Does the unusually large shortage on this side to date, warrant the payment of present prices? A letter from a Liverpool house, received in this city by last mail reported the English make as exhibiting signs of a deficit, and should this news be confirmed it may be doubtful if much lower values will be experienced this year. At the moment there is a stand-off, cable limits being \(^1\) to \(^1\) cent per pound year. At the moment there is a stand-off, cable limits being \$\frac{1}{2}\$ to \$\frac{1}{2}\$ cent per pound below what cheese can be bought for; but at the same time there is no disposition on the part of holders to concede the slightest fraction. A good quantity of cheese is said to be going into cold storage at points between here and Toronto, which would indicate that stocks in the country are accumulating. On this market, however, there are few if any lots to be bought, as holders are very firm in their ideas. Between 20 and 30 factories in the Belleville sections, it is said, have disposed of the balance of the season's make as 10 to 10\$\frac{1}{2}\$ cents."

The Rich Men's Son.

And tender flesh that tears the cold.

Like soft hands and tender flesh, many diseases are inherited, especially tendencies to Asthma, Consumption, Bronchitis and Stomach and Liver troubles; but there is a remedy, known as the "Golden Medical Discovery," which overcomes these diseases, and cuts off all tendencies toward a fatal result. Dr. Pierce, of Baffalo, has put this remedy within the reach of all, so that even the poor as well as the rich can obtain it. It is worth more to you than "piles of brick and stone and gold." Ask your druggist for it. It's guaranteed to benefit or cure in every case, or money paid for it will be refunded. Killing a foe with kindness is like eating soup with a fork-feasible perhaps, but
