A familiar figure to many Londoners arrived in this city yesterday after an absence of a couple of years. The figure referred to is that of Mr. James Quinn, who for probably a quarter of a century braved summer's heat and winter's cold on the corner of Dundae and Richmond streets, where he was wont to ply his vocation of newsvendor. Mr. Quinn has traveled extensively since leaving London. After a time spent with relatives in Toronto he went to Great Britain, and arrived direct from there this morning. He is looking well. World's Fair Grounds, Chicago, Aug. 23.—Buffalo and Western New York celebrated their day at the Exposition to-day. The beautiful white buildings of the exposition are to be sold as junk. They are soon to be advertised and knocked down to the highest bidder. About the only things of future use are the iron and steel arches. It is not believed that more than \$1,000,000 can be realized. The most expensive buildings will probably bring the least money. Following are the paid admissions to the grounds on the days named:

Manitoba's Crops-A Denial.

MONTREAL, Aug. 23.—Dispatches were received here from Manitoba to-day denying that the crops had not been damaged. Dispatches say they have been badly damaged by late rains, which still continue heavy; also that two nights' frost did harm last week. It is said that the yield will not be nearly as heavy as Mr. Ogilvie predicted.
