SASK BACHELORS FOR WOMAN'S VOTE

Single Men's Representative in House Says It Elevates Public Tone.

A STRENUOUS SESSION LIKES THE FREE LIFE

First Session of the Third Legislature Saw Many Acts Put Through.

[Canadian Press.] Regina, Jan. 13.—After a strenuous session covering six weeks, the session of Saskatchewan's third Legislature came to an end on Saturday. The lieutenant-governor assented to forty-four acts, together with the 24 assented to during the session, making a total of 68 measures added to the statute book of the province since the House met Nov. 14. Joseph Nolin, member for Athabasca, took his seat for the first time, bringing the number of Liberal members up to 45. The Opposition number eight.

Some further discussion took place over E. Bradshaw's woman suffrage resolution, which will not be put to the vote. J. K. Johnston, of Pelly, stated that he represented the single men of Saskatchewan, and supported the resolution, believing the general tone of public life would be elevated by an extension of the franchise to women.

Exception was taken by Mr. Wilton, Nov. 14, Joseph Nolin, and others, to the effect of the anti-bonusing legislation, embodied in the city act amendment, which provides that no city shall bonus an industry beyond a certain limit, not more than ten years. It was pointed out by Mr. Wilton that Regina was the only city in the province that had any considerable area of land available for free sites for industries, and the new provision consequently places Regina in an advantageous position, compared to other cities. The question was warmly discussed, but the bill finally passed.

SAYS MONTREALER KILLED A WOMAN

Colored Man Arrested at Instance of the Chicago Police.

[Canadian Press.] Montreal, Jan. 13.—Henry Bell, colored, arrested here at the request of Detective Sergeant Braxton, of Chicago, who says Bell is Charles Newton Estess, wanted for the murder of a white woman named Estess de Hart, in that city three years ago, appeared in the extradition court this morning.

Braxton said that Bell was the man he wanted, though, when examined on his method of identification, confessed that he was not sure whether Estess had been cut on the right or the left hand.

Judge Choquette, the extradition officer, enlarged the hearing till Friday next, and warned Braxton that evidence could not produce conclusive evidence for identification he would have to discharge Bell.

LADY ABERDEEN GUEST OF LAURIERS

Accompanied by Miss Asquith, Countess Arrives at Ottawa.

[Canadian Press.] Ottawa, Jan. 13.—The Countess of Aberdeen arrived in Ottawa this morning, in company with Miss Violet Asquith, daughter of Right Hon. H. H. Asquith, premier of Great Britain. The two distinguished visitors came in the private car Loch Lomond, attached to the C. P. R. imperial limited, and remained in the city till about 8 o'clock.

Lady Aberdeen will address the Local Council of Women here this afternoon, and with Miss Asquith will leave for Toronto tonight.

While in Toronto Lady Aberdeen will be the guest of Lieutenant-Governor and Lady Gibson. Miss Asquith will remain in Ottawa for a couple of days, before joining Lady Aberdeen.

SAW HUSBAND KILLED

Wife Had Not Seen Spouse Since His Descent Years Ago.

Dover, N. J., Jan. 13.—Deserted by her husband three years ago, Mrs. Frank Gibbs saw him for the first time, just as he slipped and fell beneath the wheels of a train he attempted to board, and was ground to death.

At the inquiry yesterday into the accident Mrs. Gibbs told how, as she was looking out of the train window on her home-bound way, she saw a man on Saturday night, she caught sight of Gibbs as he fell to his death. She had married Gibbs three years ago, she said, but shortly after the wedding he deserted her, and she had never seen him until he met his sudden end.

BRING HORIZON TO SHIP

Experts of Naval Observatory Develop Remarkable Instrument.

[Canadian Press.] Washington, Jan. 13.—Through the development of an instrument that practically will bring the horizon on shipboard, the experts of the naval observatory here expected to make it possible for navigators to determine their position at sea any hour of the day or night. The impossibility of discovering the horizon when the horizon is obscured is one of the most serious problems a ship's captain or navigator has to face. This difficulty is experienced frequently, when the sun is shining brightly overhead, the horizon is obscured by the sun's glare, and the observer is enabled by the use of the sextant to make accurate observations regardless of weather conditions.

FATAL AUTO ACCIDENT

Houston, Texas, Jan. 13.—Dr. J. R. Stuart, head of a local infirmary, and Miss Ruth Larsen, a nurse, were killed last night when the automobile in which

they were riding collided with a wagon on a bridge near here. Both conveyances were thrown from the bridge and down an 18-foot embankment. The two occupants of the wagon were not seriously injured.

VETERAN HOTELMAN DEAD

Chicago, Jan. 13.—Enoch A. Whipple, 61 years old, one of the best known hotelmen in Chicago, is dead at his home here. His mother, Helen N. Whipple, is said to have been the first white child born in Chicago.

PREFERS PLOWING TO THE THEATRE

English Society Lady Goes In for the Strenuous Life on Alberta's Plains.

LIKES THE FREE LIFE

Says That Under No Consideration Would She Return to the Old Life.

[Canadian Press.] Edmonton, Alta., Jan. 13.—"I would rather plow than go to the theatre. I would rather plant corn than attend a pink tea. I much prefer carrying my horses to arraying myself in an evening gown. What's a butterfly social life in the life of a pioneer? English social circles from the inside. When the Boer war broke out she went to the front as a nurse, and there she awoke to the fact that there was something more in life than card parties and pink teas and bracing cold."

Managed Dairy Farm

Upon her return home she at once entered the Swanley Agricultural College, and at the conclusion of her course she became manager of a dairy farm. After a time she became manager of another farm in Kent devoted to general purposes of agriculture, from which place she came to the Canadian West. She bought a ranch of 320 acres in Northern Alberta, near a railway station, and now English society is watching her venture with interest. Not a man is employed on Miss May's farm. Her only companion and helper is a Canadian girl of 18.

Go Back to Society Again? Not for World.

Although this little Englishwoman has sacrificed conventional life, she has not lost none of the charm that made her a favorite in select circles in the old land. Her everyday costume consists of a dark hood and leather puttees, riding breeches of heavy blue serge, a man's shirt and a short khaki coat. When she desires to really "dress up" she wears a soft collar and a peasant's apron, which she and a loosely belted around the waist. She is delightfully picturesque, and her happy, care-free laugh is a rare thing in the West. "I love the freedom of the life and the bigness of things out here on the prairie," she said recently. "In England one is bound by conventions as one's fields are girt with hedges. Here I can do as I choose. I wouldn't go back to stay under any consideration."

LADIES HELD ANNUAL MEETING

Missionary Society of Christian Church in Session.

The Ladies' Missionary Society of the Christian Church, Dundas street, held their annual public meeting Sunday afternoon, the program taking the place of the regular church service. Mrs. C. B. King presided and read the Scripture lesson. Mrs. E. B. Oliphant led in prayer. The address of the Lord's Supper was given by Rev. H. H. Hayden. The church quartette and choir rendered good music, and Mr. George White a short appreciated solo. Miss Winnie Short rendered a well-known hymn, "The Lord's Prayer." The pastor, Rev. H. H. Hayden, in making the call for the offering stated that the women of the Christian Church in Ontario, as part of their work, are this year putting \$1,000 in the missions at Tokio, Japan, and the offering of the evening would go to that place.

SENT FOR TRIAL ON CHARGE OF FRAUD

Belgrave Man Alleged to Have Obtained Money From Townsman.

[Special to The Advertiser.] Wingham, Jan. 13.—George Carr, a young man, residing five miles from here, had his leg broken in two places between the ankle and knee, in his bush when he was cutting wood, his horse started unexpectedly, and one of the chains swung around swiftly.

Farewell services were held in the Salvation Army Citadel yesterday, by Capt. Pugmire, prior to his departure for London, England, where he has been transferred. Since Capt. Pugmire has been here he has secured over 40 converts.

John Chambley, of Belgrave, was committed to Goderich Jail, for trial at the spring assizes on a charge of fraud, preferred against him by John Campbell, from whom it is alleged he obtained a sum of money. Chambley appeared before Magistrate Morton and bailed for \$2,000.

CAMERON VS. HULL

Judgment Given in Local Case at Toronto.

Judgment in the case of Cameron vs. Hull was given by the chancellor on Friday last, at Osgoode Hall in favor of the plaintiffs on all points, with costs to be paid by the defendant Hull.

This is the last stage in litigation started about a year ago. In November 1911, the plaintiffs, Thomas W. Cameron and Clara Cameron, by written agreement, sold a small farm in North Dorchester for \$2,000 to the defendant Hull, who paid \$200 down. The plaintiffs then brought this action to compel payment of the remaining \$1,800, and the case came to trial before the chancellor at the midwinter assizes on Wednesday last. Judgment was given in favor of the plaintiffs, and was given as above. Blackburn & Weekes, for plaintiffs; Meredith & Fisher for defendant Hull.

HELD FOR FRAUD

Boston, Jan. 13.—John Bennett, a local mining share promoter, who was indicted Saturday on a charge of obtaining \$68 from three women by false pretences, pleaded not guilty in the superior court today and was held for trial. He was unable to furnish the \$20,000 bail required.

LONDON STREET RAILWAY

Continued From Page One.

the city as a whole, hoping thereby to give better service to private concerns using the line, also cheaper and better accommodations to all railroads entering the city by this road. The ratemakers should be given a vote on this matter at the earliest date possible so the question can be dealt with in time to handle it ourselves, if the ratemakers so decide, or lease it to some other corporation.

The bylaw submitted to the ratemakers, having carried by a large vote, must be dealt with at once. Personally I consider the citizens of London on their good judgment in this matter, and wish to impress the council with the fact that it is our duty to carry out this project to a successful end.

I advise the city hall committee to at once consider the question of making the larger building in the Spencer block (now owned by the city) into a station to house the different civic departments now quartered in the present hall, what the cost would be, the time it would take, etc., so the council can decide the advisability of vacating the present building at once, a vote is possible.

City Hall.

The alteration and improvement of these buildings are now a standstill between the city and the county and the city on further expenditures. To carry out this work the matter should be taken up when the county council meets.

The agreement between the county and the city re court house and jail maintenance and administration having expired Dec. 31, 1912, will be renewed by a new agreement at the same meeting.

Storm Sewers.

This matter has been given a good deal of study by No. 2 committee of last year, and it is now in the hands of Mr. Chipman, who is giving the topographical survey made by the city and county a complete report from him at an early date.

This is one of the most important questions confronting us at the present time, as many of the principal residential streets are awaiting the necessary work to be laid until this work is put through.

This is also essential from a sanitary point of view, as many cellars in all parts of the city are flooded whenever we have a heavy rain, and the water overflows the sanitary sewers, causing them to back up and overflow cellars.

City Extension.

I recommend that the street lighting be placed along the streets of the new part of the city wherever the hydro poles now are at once, further extensions being made as the need arises. Also that the question of postal delivery be taken up with the department at once.

Better Roads.

This possibly more directly affects the people as a whole than any other question. It should be given priority over every other question, and the city should be taken up with the department at once. We have abundance of gravel, which could be delivered by the street railway at night to points in the city.

Street Lighting.

This council must have more light on our residential streets. We should have a light on every pole on most of the streets. This could be done at a great extra cost, and would more than repay the city.

Publicity Department.

This department has had a good, progressive year, though this fact may not have been apparent to the general public, and with the prospects in view, we trust this will be a banner year for London in this department. Let everyone get behind the commissioner and boost our city. We have a city worth while, and the responsibility of its preservation and the responsibility of its future, London will come into her own, which is in the front rank of the cities of this great Dominion.

Feeling assured that this council will act in every way for the advancement of the good work, I look forward to a very pleasant and progressive year. Wishing you one and all the greatest year London has yet seen.

MCFORIST'S LUCK.

[Harper's Weekly.]

"Well, Blithers, what luck did you have with your new car?" asked Jarro-way.

"More than I ever expected," said Blithers. "Just three minutes after the damned thing, blew up another car."

QUICKLY DISPELS STOMACH DISTRESS

Whatever the Trouble, It Disappears in Five Minutes After Taking a Stuart's Dyspepsia Tablet.

All of the unpleasant sensations attendant upon eating too heartily are almost instantly relieved by a Stuart's Dyspepsia Tablet.

When you take food into a stomach that is tired and overtaxed, the gastric juices do not form fast enough to digest it properly. As a result, the food sits in the stomach, and begins to throw off sour and at once the stomach becomes inflamed. Your stomach becomes inflamed just as surely as if you attached a toy balloon to a gas jet. Then the gases and foul odors issue forth and pollute your breath. Your tongue quickly becomes coated, and you can taste the foulness that is within you.

Now all this condition is changed almost instantly by a Stuart's Dyspepsia Tablet. This little digester gives the food a jiffy and sweetens the stomach, and gives it the rest it needs. All muscles require occasional rest if they are ever overtaxed. The stomach is no exception to this rule.

Try a box of Stuart's Dyspepsia Tablets and you will wonder how you ever got along without them. They are sold at 50 cents by all druggists everywhere.

Mild But Effective Remedies

Those who prefer homeopathic remedies will find an unusually complete line at our store. We carry

Homeopathic Medicines

in bulk, and can furnish fresh mother tinctures and pellets and tablets, medicated as desired.

Strong's Drug Store

184 DUNDAS STREET, LONDON.
Our kind of prescription service costs no more than other kinds.

THE SEVENTH IS REALLY FIRST

Not Counted Among Those That Sell Best, But Its Circulation Exceeds All Others.

Much is said about the "six best sellers." This refers to books that for the time being are most popular in the public eye. Books of fiction usually outrank all others in the list.

It is interesting to note that during the year 1911 the combined sale of the six best sellers amounted to only a little more than half a million copies. But there is a seventh best seller, which should be placed first, for during the same period the Bible had a sale of more than a million and a half copies, or more than three times that of the six best sellers.

The Advertiser is presenting to its readers an illustrated edition of the Bible, which is pronounced by all authorities to be the most wonderful work ever published. Besides the choicest selection of colored engravings from the magnificent Tiesot collection, this Bible also contains upward of 600 pictures printed in with the type, every one a work of art, and each particular picture illustrating the verse which it accompanies. Such pictures illumine the text. They make plain the obscure points and give to the reader many new meanings. The child, whose eye is always attracted by pictures, is delighted in following the familiar stories of the Bible, and seeing them so vividly explained in these eye-teaching pictures.

Today's certificate is printed on another page. Clip it without delay. You may have your choice of either the Catholic or Protestant editions.

DOMESTIC COMBAT.

E. Trowbridge Dana, grandson of the poet Longfellow, who was recently married in Cambridge, with a beautiful ritual of his own composition, said the other day to a reporter:

"If all couples gave to marriage the profound thought and reverence that my wife and I gave to it there would be fewer mismatings."

"The average married pair, it sometimes seems to me, are like the Binkses."

"Pa," said little Tommy Binks one day, "what's a weapon?"

"A weapon, my son, Binks answered, 'is something to fight with.'"

"Then, pa," said little Tommy, "is marriage a weapon?"

In her book on "Old Irish Life," Mrs. J. M. Calliwell says that her uncle, Major William Poppleton, one of Napoleon's guards at St. Helena, received a gold snuff-box from the emperor. Forty years after the major's death an inquisitive visitor at his old home in Ireland found a closely folded paper in the box, which proved to be a letter from Napoleon to the Count of Las Cases. The long-concealed letter was finally delivered to Las Cases' son.
