

## BABY IS VICTIM OF STREET CAR

John Woodhams Wanders Underneath Trolley and Is Run Over—Dies Soon After.

John Hugh Woodhams, one year and seven months old, the son of Mr. and Mrs. J. T. Woodhams, 12 Askin street, died shortly after 4 o'clock yesterday afternoon in Victoria hospital of injuries received when struck by the street car at Wharmcliffe road and Askin street. The little lad suffered from a fractured skull, shock and several cuts and bruises.

The mother of the child was in the backyard of her home, when the accident occurred about 2:15. She had left the child in the room of the house playing, and believed that the front door was locked.

He wandered out on the street and underneath Normal car No. 120. The motorman J. Thomson started the car, not knowing that the child was underneath. The motorman of the Hudson street car, waiting at the switch for the Normal car to pass, noticed the little tot, but too late to avoid the accident.

The lad was rushed to Victoria hospital by a passing motorist. He showed some sign of improvement shortly after being treated, but his injuries were so severe that he failed to rally from the loss of blood.

Coroner Dr. Robert Ferguson was called, and an inquest will be held. The conductor of the car was W. Whitley.

The funeral will be held tomorrow from the A. L. Oatman funeral home at 2 p.m. The services will be conducted by Rev. Leslie Arncliffe. Interment will be made in Mount Pleasant cemetery.

The boy is survived by his parents.

band was governor until his death a few months ago.

It is apparent on the surface that unless Coolidge received a very great number of Democratic votes in doubtful states, the Republican La Follette must have been taken very largely from the Democrats. To what degree his campaign managers kept in line the vote in the states, is not known, but La Follette leaders appeared to see some evidence that their work had not been in vain. They announced that their organization would be kept intact to carry on in 1926 and 1928 the objects they sought.

La Follette had no statement to make until the election was complete. John W. Davis likewise went to bed last night without public comment.

## TO REMOTE CITY SNOW

Steam No Advantage as River Is So Close to Main Section.

Horse-drawn sleighs will likely be used again this winter for aiding in clearing snow from business streets of the city. W. P. Near, city engineer, says that he has gone into the matter of cleaning the streets with steam flushers and other means, but believes that with such a short haul to the river it is still more practical to carry the surplus snow from the city streets by sleighs.

With a great annual increase in motor traffic, the problem of keeping streets free from snow drifts or banks in the cold months is growing steadily. Montreal has constructed huge manholes on side streets and uses steam jets to melt the snow.

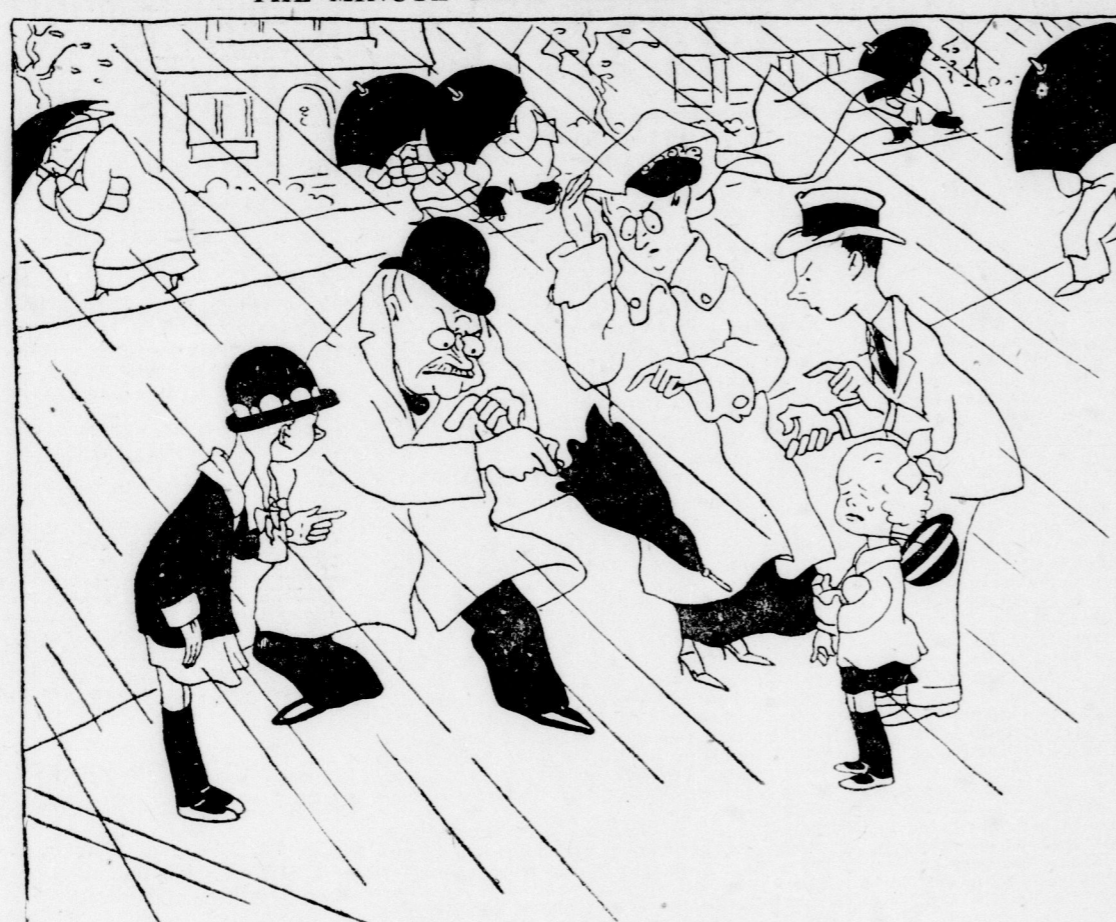

However, the snow often has to be hauled one or two blocks before a manhole is reached, as they cannot be used on the main thoroughfares.

## FARMERS FROM HUNGARY ON WAY TO CHATHAM

A party of eight Hungarian farmers passed through London this morning at 11 o'clock on their way to Chatham. The men and women looked quite picturesque in their old world clothes. The women wore the conventional dress of the country—kerchiefs wrapped about their hair and shawls over blue dresses.

Each member of the party had two or three large wicker baskets in which they carried their belongings. The party made a mistake and left the train here, but Messrs. Logan and Gillan, of the C. N. R., were on the station platform and quickly had the new Canadians back on the train again before it left.

Mrs. Chalmers gave a very interesting and inspiring talk on "The modern mother and her daughter," in which she praised the modern girl, stating that mothers were not to be in line with their daughters as they should be. They failed to understand their daughters, because of lack of time spent with them. It was pointed out that the home duties of today were such that they do not need the co-operation of the mother and daughter, as they did in days gone by. Mrs. Chalmers talk was short and to the point.

Refreshments were served. Mrs. Wistow cutting both birthday cakes, which had been presented by one of the club members. The candles on the cakes were lit by all the past presidents. Each president took a light from a large candle held by Miss Wistow, and then lit the candles on the cake for each year in office. The blowing out ceremony was also conducted by them.

During the evening Mrs. J. Burnham, a past secretary, presented a book with a suitably inscribed page. Mrs. Golby read the address and the presentation was made by Mrs. C. A. Vankester, who presented Mrs. Burnham with a very pleasing reply.

## "FIERCE BULL" SCARES FRESHMEN AT DANCE

High Constable Fails To Find Black Monster—Lemonade Blamed.

Shortly after Inspector George Tustin of the humane society switched off the light at the witching hour of midnight last night, the telephone buzzed frantically and George sprang to duty. An excited voice informed him that a huge, fierce, black bull was charging at all motor cars leaving the freshman dance at the university of western Ontario and would Mr. Tustin please hurry and capture the animal.

The inspector phoned the high constable, who, however, had already received a call on the matter and had left for the scene of carnage.

A systematic search of the university grounds and all roads in the vicinity failed to bring forth any bulls.

There were a few spotted cows chewing contentedly in the immediate neighborhood, but none were on the road. It is thought that an excited freshman who had swallowed an extra large quantity of lemonade had mistaken one of the cows for the bull's big brother and couldn't resist the temptation of calling the police.

## CRITIC TEACHERS ARE INCREASED BY NINE

Inspector V. K. Greer Will Report on Changes at Session Thursday.

Inspector V. K. Greer will tomorrow report to the board of education at its regular monthly meeting the addition of nine public school teachers to the list of those doing model work on behalf of the London normal school.

The addition of nine teachers brings the list up to 101, and is divided among the schools as follows: Rectory, 5; Victoria, 5; Tecumseh, 5; Wortley road, 9; Simcoe street, 12. The teachers just added to the list include five teachers at Rectory, one at Tecumseh, and three at Victoria school.

The increase in the number of "teachers in training" at the normal school during the past two years has resulted in practically doubling of the staff of critic teachers from 20 to 40.

The board of education receives from the provincial department of education an allowance of \$50 per month for the use of the normal school in this particular connection.

## IMMEDIATE BUILDING OF SUBSTATION SEEN

Utilities Will Talk Plans at Monthly Meeting Tomorrow.

Two matters of importance to be discussed by the public utilities commission at its regular monthly meeting tomorrow afternoon are plans and specifications for the new substation on Carling street, and estimates as to improved street lighting.

It is likely that instructions will be given Manager E. W. Buchanan to have the commission's staff proceed with the construction of the two-story substation building as soon as possible.

Manager Buchanan has secured from the Halophane glass company prices as to the two and four way halophane lamps supplied by that company, and also has secured quotations on King street. It is quite probable that the commission will take some action upon the estimates as submitted and also upon the recommendations to the city council with regard to the matter.

Into a 16-oz. bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the bottle. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you 16 ounces of the best cough remedy that you could buy ready-made for \$2.50.
