LOUNSBURY BLOCK

KILLED IN THE WEST

A Brother of Mrs. J. D. McAuley of Newcastle Succumbs to Injuries Received in a Washington Mill.

At the Pend Oreille Hospital in this city early Wednesday morning occurred the death of Walter A. Shackleton. Death was the result of injuries received by Mr. Shackleton on Saturday afternoon while working at the planer of the Mooser Lumber Co.

Mr. Shackleton was engaged in tightening a part of the planer with a wrench, when he slipped and his right arm was drawn into the rolls and horribly lacerated. An effort was made to save the arm, but it was found necessary to amputate it near the shoulder which was done Tuesday morning. During the day the patient had several sinking spells and he passed away early Wednesday morning. Poor health for the past three years had left Mr. Shackleton without the vitality necessary to withstand the shock of the accident and the ensuing amputation.

Walter A. Shackleton was born at New Albin, Iowa, Feb. 6, 1867, and made his home there until 18 years old, when he moved to Woodville, Wisconsin, where in 1886 he was married to Carrie Smith, who with three sons, the oldest 14 years of age, survives to mourn his loss. The family has made its home in Newport, the past nine years. He had living a sister, Mrs. Munroe, of Seattle, who came to attend the funeral, and one brother in Nebraska.

He was a quiet, unassuming citizen, a good mechanic and had the respect of the people of our town, whose sincere sympathy is extended to the mourning family. Funeral services will be held Friday at 2 p. m. at the Congregational church, Rev. F. E. Whitman officiating. — Newport (Wash.) Miner, March 30, 1911.

[The late Mr. Shackleton was a brother of Mrs. John D. McAuley of Newcastle with whom the whole community will sorrow in her great loss. The other surviving members of the family are: Mrs. Chas. Munroe, St. Paul, Min.; Mrs. Leander Ferris, New Albin, Iowa; Mrs. Geo. Rickard, Cullons, N. D. and Wm. Shackleton of Haysprings, Nebraska.—Advocate.

200 MORE WORKMEN KILLED

Terrible Disasters in Two American Coal Mines—Victims Were Convicts or Foreigners.

Littleton, Ala., April 8.—It is feared that 150 convicts have been killed by a mysterious explosion that occurred in the Banner Coal Mines near here at 6:30 this morning. One hundred and ninety miners were sent into the underground workings this morning, and up to 10 o'clock only twenty had been brought up alive. The bodies of the dead showed that all had made a hard struggle for life, burying their face deep in the culm and wrapping their coats about their heads in an effort to ward off the poisonous gas.

Seranton, Pa., April 8.—Up to 9,43 this morning, seventy bodies had been taken from the ill-fated Pan Coast mine at Throp, where fire yesterday entombed many men.

The disaster is the worst in the history of the hard coal fields in this section, exceeding the number of dead of the terrible Twin Shaft disaster near here some years ago, when fifty-nine men and boys lost their lives by entombment. The fire did not reach the entombed men and the conditions of their bodies shows that their death was due to suffocation from smoke or asphyxiation from the gas.

TWO YEARS AND \$1000 AT ST. JOHN

Judge Forbes Saturday morning sentenced J. G. Sperdake, a Greek confectioner, to two years in Dorchester and a fine of \$1,000 for stealing electricity from the St. John Railway Company. If the fine is not paid an additional two years must be added to the sentence. An appeal is announced.

"Right here you will find the Buckley guarantee."

Buy a Buckley Hat to-day—and there's a strong probability that it will be in good condition four months hence. So strongly do the makers of the Buckley believe this, that they have issued a guarantee that practically means "hat insurance for four months" to every man who wears the Buckley.

The guarantee stipulates that if a Buckley hat should by any chance—even as a result of accident—show itself in bad condition inside four months, the wearer is entitled to a new one at the shop where he made the former purchase.

But read the guarantee. Think what it means to be able to say to yourself, on buying a hat: "Now I am hatted for four months to come."

Think what it means, in honesty of manufacture, for the makers of this

hat to issue such a sweeping guarantee.

On style as well as quality, the Buckley appeals to men of discrimination—although made in England, the blocks are all from American designs—thus furnishing the ideal combination of right style and right quality.

Union made, and selling at \$2.50, the Buckley represents

just such exceptional hat value as you might expect from a manufacturer who guarantees his product with a broad, conditionless guarantee such as this.

With the facts before you, can you see any other hat but the Buckley?
