The size will be done attention which have recently been given by the Imperial To the amusement of man; To the a

question in the Governor-General's speech:

Having observed the close attention which has recently been given by the Imperial authorities and on the continent of Europe to the improvement in the method of catching, curing and packing fish, I deemed it expedient to cause commissions to be sent to Scotland and Holland to examine and report on this subject, during the fishing season. The report of the delegates will be laid before you. It will I am sure, give cur fishermen valuable information and instruction as to the best means of improving and developing this important industry.

Well, to be sure, there is not much here on 'be question, put it all together. But does it but he sure is not much here on 'be question, put it all together. But does it but he sure is not much here on 'be question, put it all together. But does it but he sure, sure for insomnia that we know of is to have somebody keep telling you breakfast is ready.

Effie's Brother: "Do you love my sister Effie's Effe's Steady Company: "Why, go want to know?" Effie's Brother: "Sist why do you want to know?" Effie's Brother: "Sist why do you want to know?" Effie's Brother: "A sewing bee can't sting, but it does lots of buzzing."

of Poverty, and also your editorial in to-day's issue on "Paupers in Toronto," the fied. mind and to every thinking mind that reads terrible poverty? How comes it that strong, There is a law in Ohio requiring school teachers to instruct their pupils as to the effect of alcohol on the human system. One schoolmaster carried a bottle of which to There is a law in Ohio requiring school teachers to instruct their pupils as to the effect of alcohol on the human system. One schoolmaster carried a bottle of whisky to the schoolmose and let the children taste the liquor that they might experience the effects. He has got into trouble, as well he should. This is carrying object teaching too far.

It was stated at a recent meeting of the Railroad Men's Protection Union that a brakeman has but one chance in four of dying a natural death. Yet the companies use the same old coupling appliances that were in vogue in the early days of railways.
