

**T. EATON CO. LTD.**  
190 Yonge St. Canada's Greatest Store. Toronto.  
190 Yonge-st., Sept. 6, 1895.

**Canada's Greatest Store!**

Five acres of selling space under one roof, with entrances on Yonge, Queen, James and Albert-streets.

From 1000 to 1300 employees, according to the season, making the largest store organization in Canada.

A manufacturing department in which we use 134 sewing machines, running by steam power at the rate of 1800 stitches per minute. In this department we employ 250 persons, and turn out 1500 complete garments every day, all of which are sold under our own roof.

Thirty-three merchandise departments, including everything in dry-goods, together with books, groceries, bicycles, carpets, wall papers, furniture, housefurnishings, harness, jewelry, patent medicines, ready-made clothing, boots and shoes, and everything else that goes well together.

A delivery system, consisting of 55 horses and 35 wagons, covering the entire city and vicinity within a radius of ten miles at regular intervals. Horses cleaned by electric power.

Three boilers, with 600 horse-power, and three hand engines, aggregating 350 horse-power, consuming about 1000 tons of coal per year.

Seven dynamos, with a capacity of 220 incandescent lights and 500 arc lights. The largest private electric plant in Canada.

About 40 miles of steam pipe is necessary to heat the entire building.

Grinnell's Automatic Sprinkler System of fire protection, representing 3000 sprinkler heads.

The Pneumatic Cash System, requiring 4-1/2 miles of 2-1/4 inch brass tubing, with 100 pay stations, and two rotary pressure blowers, necessary to operate the plant.

Two large dairy farms—one at Islington and the other at Georgetown—receiving daily the product of 120 milk cows; barn buildings on farm with capacity for storing 350 tons of hay and 1000 bushels of grain.

Dairy lunch room in the basement, supplied with cream, butter and milk direct from our own dairy farms, and capable of accommodating 3000 people a day.

Mall order department with experienced clerks to do shopping for those who can't get to the store, serving customers at a distance as well as those who shopped in person.

**THE SITUATION.**

The citizens of Toronto will perhaps realize to-day that they have acted stupidly during the past few years. It is stupidity, and not intelligence, that induces them to vote down every project, no matter how necessary it may be, that is submitted for their consideration. It is stupid of them to imagine that their taxes will not increase if they defeat every bylaw that comes along.

The public has labored under the foolish idea that the best and most economical way to run a city is to sit down and let the city run itself. The public mind will, perhaps, be disabused of this idea, when yesterday's damage to the waterworks system is fully estimated and placed before them. It is quite evident already that the city will have to foot a big bill, perhaps \$50,000, or \$100,000, for putting the conduct pipe in the same condition as it was before the break. But the pecuniary damage is not the most serious part of our misfortune. For the next month or six weeks, our houses will be supplied with impure water, and in the meantime, upon warnings, not to drink it, thousands of families will use the water without a thought as to the injurious effect it will have on their health. We may expect a serious outbreak of fever. We hope we will, but the probabilities of an increased death rate during the next month or two are exceedingly promising.

The fact that the city will spend during the next few weeks would have gone a long way towards constructing waterworks improvements that were three times as good as the present ones, but the city will not do this. The doctors' bills that will be incurred, and the possible loss of life that will occur by reason of our drinking impure water are damages that cannot be estimated, but if they are reduced to a financial basis they might exceed the entire cost of building the proposed new tunnel. These are some of the considerations that the ratepayers will have to pay for their persistent and stupid policy.

The situation to-day is serious. The public, however, have themselves principally to blame for it. The engineer has repeatedly warned the aldermen and the citizens that just such an accident as happened yesterday was liable to occur at any time. The people paid no heed to the warnings. So evident was it that a bylaw to provide funds for constructing a tunnel would be defeated if submitted to the ratepayers, that no one thought it worth while to propose the idea, and have the vote taken. It was quite evident that the public would let things go as they were until something occurred to paralyze the system and force them to take action. We are of opinion that "something" occurred yesterday, and it will not be an altogether unfortunate occurrence if it causes the ratepayers to relinquish their stupidity in favor of intelligence.

The World for the past two or three years has persistently urged the view that steps should be taken to put our water supply on a permanent and satisfactory basis. We knew, however, that it was useless to expect that the ratepayers would do this. The law that involved the raising of any considerable sum of money for undertaking this work. We contented ourselves, therefore, with requesting the Council to call in an expert to give judgment on the Engineer's plan for constructing a tunnel under the bay. Whether we constructed the permanent work this year or five years hence, it would have been the same. The city to have before it a definite idea of the plan it would adopt when it became necessary to adopt a plan at all. The Board of Trade recently urged the same view, and the Council to the Council to secure an expert's opinion on Mr. Keating's project. Had the Council acted upon this advice we might today be in a position to put our water supply on a permanent basis for not having undertaken that system already, they at least might have had everything prepared so that, if in two or three weeks, the work got under way at the earliest possible moment. Now, however, the Council will not be able to make any practical headway in putting down new system until the question as to which is the best system for this city has been fought out. Although we believe the Engineer's proposal for a tunnel is the best and only feasible one, yet we feel it would be unwise to submit it to a vote of the people until it has been confirmed by an expert in whose opinion we will have perfect confidence.

The situation is serious enough to warrant and compel the Council to take immediate action. In the first place, they must see no time is wasted in affording temporary relief by supplying the city with lake water. In the second place, they must lay before the people a permanent scheme for our water supply, and in order to ascertain which of the several schemes that have been proposed is the one that should be adopted, it will be necessary to call in expert assistance. After making arrangements to mend the present pipe, that is the very first thing the City Council should do.

**AN INVESTIGATION IN ORDER.**

The public will await with no little interest the official report of the City Engineer as to the immediate cause of the uprising of the conduit. While no one had any confidence in the plant under the Bay, yet it must have been some one's duty to see that that plant was kept in working order until it was replaced by a better system. True, it is the engineer's job on several

occasions warned us that the pipe was likely to rise and give us trouble. The question arises whether he took such steps as were necessary to ward off this possibility.

If he knew it was likely to rise why didn't he set to work and cover it up with material so as to keep it in position? Did he ask for permission to do this? If not, why? These questions are pertinent to the issue and the public would like to have them answered.

It has been suggested that the conduit was raised by the action of the water in the city. This is a serious insinuation to make. If there is the slightest clue sustaining such a theory, it ought to be thoroughly investigated.

**BOIL THE WATER.**

The water that is passing out of every tap in the city this morning comes from Toronto Bay, and at a point in the Bay where it is liable to be particularly impure. There is no use concealing or disguising the fact that the accident to our water system should have occurred in the middle of our great Exhibition. The head Maurice Hutton, M.P., Toronto, says that all water used for cooking and drinking purposes is boiled and otherwise rendered innocuous. Immediate action should be taken to supply the schools with spring or lake water, and the Exhibition management should get a pump at work in the lake and distribute pure drinking water throughout the grounds. During the month or two necessary to repair the conduit a big and profitable trade can be done in the supply of spring water from house to house. Fifty or one hundred men who have horses and wagons at their disposal ought to start out on this business to-day. There is no occasion for alarm, we do not believe that the water will do any damage if it is boiled. At the same time everyone who can secure spring water ought to use it in preference to that coming out of the taps.

**DR. PARKIN'S COMING.**

The National Club of Toronto has in its history made a number of master strokes in connection with the higher politics of our country and the national character of a people. We venture to join in the predictions made last night that Dr. Parkin will make of Upper Canada College a great and noble institution for good in this country.

**Age Creeping Upon Him.**

From Pirie's Banner, Sept. 5. We saw Mr. Blake in Toronto the other day, looking somewhat older, but with as much vigor as ever. He was interested in watching the labor procession, and after saying that he did not intend to run long in Canada, he remarked that he realized that age was creeping upon him, and that he felt it more now than ever before. He is not an old man, not indeed as old as he looks. He will only be 62 in October. But he has had a busy life, and that kind of life that tells on a man, in which he has had to use his intellect.

**One More Between Hamilton and Toronto.**

What is needed between Toronto and Hamilton is a fast train that will make the trip in 40 minutes and charge a dollar. It is only 40 miles and an hour and a quarter is altogether too much time for the way. The T. H. & B. will promise to build a line and run a 40 minute daily train between the two cities. The bonus from Hamilton of something less than \$250,000.

**A Great Railroad.**

Not only does the New York Central Railroad, along the banks of the far famed Hudson, claim one of the most important railroads in the world, but it also claims to be the most important and connections embrace territory which will attract a great number of visitors. By its route it will pay tribute to the mighty Niagara, and to those whose time is limited it is the line. Fast trains, passages of luxury, speed and safety, furnished with the latest improvements, and scarcely known in Europe, will daily indeed one might almost say hourly—depart from Grand Central Station in New York direct to Niagara, to say nothing of picturesque Canada and the many other attractive points near its route.

**Local Notes.**

Very many persons die annually from cholera and kindred summer complaints which might have been averted if proper remedies had been used. If attacked do not delay in getting a bottle of Dr. J. C. Ross's Dysentery Cordial, the medicine which has cured thousands of cases. Those who have used it say it acts promptly and thoroughly, subdues the pain and disease.

**Local Notes.**

Charles Newton, an alleged pickpocket, was arrested at the Fair yesterday. When he was taken to the police station, he was found with a pocket full of money. He was charged with stealing a pocket watch from a woman who was visiting the fair.

**Local Notes.**

George Davis, a workman, fell from the scaffolding of a school yesterday, and was badly shaken up. He was taken to the hospital, where he is now recovering. He was working on the scaffolding of a school building when he fell.

**Local Notes.**

S. S. Willison, who claims to have been injured last night by a motor car, was taken to the hospital. He was driving a motor car when he was struck by another car. He is now recovering from his injuries.

**Local Notes.**

Edward Looney, who struck Charles Robb on the head with a baseball club on Monday Day, was yesterday sentenced to 90 days imprisonment by the Police Magistrate.

**Local Notes.**

If you are bilious or costive this morning, use Fruit Granules. Nature's own remedy. Cleanses the liver and kidneys, purifies the blood. Dr. S. S. Willison, who claims to have been injured last night by a motor car, was taken to the hospital. He was driving a motor car when he was struck by another car. He is now recovering from his injuries.

**THEIR NAME IS LEGION.**

List of Candidates Nominated For the Senate—The Times Must Be All in by the First Wednesday in October.

The World is enabled to present to-day a full list of the candidates nominated for the forthcoming Senate elections. The votes must be sent to Registrar Bremner before 4 p.m. on the first Wednesday of October. Following are the names of all candidates who have been nominated by the Graduates in Arts of the University of Toronto, and who alone are eligible for election by such Graduates.

Allan Bristol Aylesworth, Toronto.  
Alfred Baker, M.A., Toronto.  
William Henry Ballard, M.A., Hamilton.  
Walter Barwick, M.A., Toronto.  
Joseph Henry Coyne, B.A., St. Thomas.

William Dale, M.A., St. Mary's.  
Hon. Arthur Rupert Dickie, B.A., Ottawa.  
Charles Elliott, B.A., L.L.B., Toronto.  
William Hodgson Ellis, M.A., M.B., Toronto.  
Luther Edmund Embree, M.A., Toronto.

Hon. William Glenholme Falconer, Toronto.  
John Ferguson, M.A., M.D., Toronto.  
William Houston, M.A., Toronto.  
Maurice Hutton, M.P., Toronto.  
John King, M.A., Toronto.  
Archibald Macmurchy, M.A., Toronto.

Hon. William Ralph Meredith, L.L.B., Toronto.  
William Barton Northrup, M.A., Belleville.  
Francis James Roche, M.A., Toronto.  
George Ross, B.A., Toronto.  
Rev. John Somerville, M.A., D.D., Toronto.  
William Frederick Walker, M.A., L.L.B., Hamilton.

The following are the names of all candidates who have been nominated by the Graduates in Arts of Victoria University, and who alone are eligible for election by such Graduates:

Rev. Alexander Burns, M.A., L.L.D., Hamilton.  
Rev. Albert Carman, M.A., D.D., Belleville.  
Henry Hough, M.A., L.L.D., Toronto.  
Charles Caniff James, M.A., Toronto.  
James MacLaren, M.A., L.L.D., Toronto.  
Clemens Arthur Maister, B.A., Toronto.

Rev. Alfred H. Reynar, M.A., L.L.D., Belleville.  
James Russell Lovett Starr, B.A., L.L.B., Toronto.  
Joseph Wesley St. John, M.E.A., Toronto.

**Graduates in Medicine.**

The following are the names of all candidates who have been nominated by the Graduates in Medicine and who alone are eligible for election by such graduates:

William Henry B. Atkins, M.D., Toronto.  
Irving Howard Cameron, M.B., Toronto.  
James Elliott Graham, M.D., Toronto.  
Laughlin McFarlane, M.D., Toronto.  
Adam Henry Wright, B.A., M.D., Toronto.

**Graduates in Law.**

The following are the names of all candidates who have been nominated by the Graduates in Law, and who alone are eligible for election by such Graduates:

John Murray Clark, M.A., L.L.B., Toronto.  
Alfred Henry Marsh, B.A., L.L.B., Toronto.  
William R. Riddell, B.A., L.L.B., Toronto.  
Hon. William Purvis Rochford Street, L.L.B., Toronto.

**Not the Sawdust Artist Either.**

Warrant Canadian, Sept. 5. One of our readers tells of a sea serpent being seen in the Georgian Bay off the clay banks near Meaford. The parties who saw it were Rev. Mr. Walker, Baptist minister of Meaford, and Mr. Kerr. The serpent they judged to be about 70 feet long. Its head and part of the body stuck out of the water, the part thus projecting above the water being about the size of a man.

**Fun and Amusement.**

At the Crystal Maze 169 Yonge-street, visitors and others are crowded in to see this one of the great sights of the city. It is one not to be missed. Admission only 10 cents.

**Visitors to the Exhibition.**

Should not fail to visit the establishment of M. McConnell, 40-42 and 46 Colborne-street, where the finest brands of wines, liquors and cigars are on sale at lowest importing prices. These two desirable qualifications, pleasant to the taste and at the same time in fact, are to be seen in the Crystal Maze. Children like it.

**ALL MEN**

Young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess of work, resulting in many of the following symptoms: Mental depression, premature old age, loss of vitality, loss of memory, bad dreams, dimness of sight, palpitation of the heart, nervousness, lack of energy, pain in the kidneys, headaches, pimples on the face and body, itching or peculiar sensation about the scrotum, wasting of theorgans, dizziness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, headfaintness, dizziness, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dulness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes, surrounded with lines, circular, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity unless cured. The spring of vital force having lost its tension every function wanes in consequence. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on diseases peculiar to man, sent free sealed. Address M. V. LUBON, 24 Macdonell-ave., Toronto, Ont., Canada.

**THE TRIUMPH OF LOVE!**

A Happy, Fruitful MARRIAGE!

EVERY man who would KNOW the GRAND TRUTHS; the Plain Facts; the Old Secrets and the New Discoveries of Medical Science as applied to Married Life, should write for our wonderful little book, called "PERFECT MARRIAGE."

To any earnest man we will mail one copy Entirely Free, in plain sealed cover. A refuge from the quack! Address

ERIE MEDICAL CO., Buffalo, N. Y.
