

W. W. Ballantyne writes an advertisement

Neidpath Farm
Near Stratford, Ont.

Dear Sir:—

The Delco-Light Plant you sold me to light my farm has not only given us the pleasure and convenience of electric light in all our buildings, but it is rapidly paying for itself in the work it does.

It would be a good investment for us aside from the lighting altogether. So far, we have found 16 jobs for Delco on our farm, and we are constantly finding new jobs for it. We are using power from Delco-Light to run:—

- | | |
|-----------------------------|--|
| (1) 3-unit milking machine. | (10) Vacuum cleaner. |
| (2) Cream separator. | (11) Electric iron. |
| (3) The pump in the dairy. | (12) Toaster. |
| (4) Root pulper. | (13) Charging batteries on our motor car. |
| (5) Emery stone. | (14) Pumping water for household use. |
| (6) Horse clippers. | (15) Lighting our home, stable, outbuildings and yard. |
| (7) Sheep-shearing machine. | (16) Violet ray generator. |
| (8) Fanning mill. | |
| (9) Washing machine. | |

We have never figured this work down to so many hours per day, but we do know that we can operate the farm with one less man than we used to. Figure out the wages and board of a farm hand and you can see what the Delco-Light plant saves us.

We used to run a gas engine on the milker and cream separator, at a cost of 10 cents a day. Our Delco-Light plant supplying light and power for the whole farm costs only 7 cents a day.

It would not only be a harder proposition to run our farm without Delco-Light, but it would cost us a lot more money. We have no hesitation in recommending any farmer to harness up his farm to Delco-Light.

Yours truly,

(Signed) *W. W. Ballantyne*

The man who considers Delco-Light something that he will buy—when he can afford it—should heed this strong letter from Mr. Ballantyne. It costs more money to farm without Delco-Light. Can you afford, then, to delay equipping your farm with light and power?

Exclusive Delco-Light Features

Where there is a boy on the farm, he can look after this simple plant. These features insure care-free, long-lasting service for you.

It is direct-connected. There are no belts to slip, break or be replaced.

It is self-cranks. Pressing down on a lever starts the engine and it stops automatically when the batteries are charged.

It is air-cooled. There is no water to carry, to freeze or to boil away.

There is only one place to put oil. There are no grease cups.

A simple mixing valve regulates the fuel supply. There is no complicated carburetor.

Ball and roller bearings cut down friction and increase efficiency.

Thick-plate batteries are long lasting.

75,000 Delco-Light plants are operating in Canada and the United States. This in itself proves the practical nature of the plant. Let us put you in touch with some of these people.

You owe it to yourself and your family to learn what Delco-Light will do for you. As a start toward greater comfort and larger profit, ask us to send you the Book "Pays for Itself," written by practical farmers.

The Stratford Dispatch says:—Prof. Howard Gordon was in charge of the children's choir which greeted the Prince of Wales at Glencoe. Prof. Gordon's grandparents were tenants on the Balmoral estate of the late Queen Victoria, and on learning the fact, the Prince honored him with a handshake and a brief conversation.

Must Not Peddle Spectacles

At the last session of the Legislature an "optometry act" was passed, but it was not to become effective until a proclamation was issued by the lieutenant-governor. This proclamation is published in this week's Ontario Gazette.

The act fixes a maximum fine of \$100 and a minimum fine of \$10 for any person convicted of selling, or fitting, or supplying "glasses by going from house to house or from place to place, in any other manner than from a permanent place of business and notwithstanding that he is the holder of a municipal license as a peddler or transient trader."

Similar penalties are provided for anyone appending to his name the term "Optometrist," or "Optician," or any other initials that he is not entitled to to deceive the public. It is also provided in the act that every person selling or fitting glasses shall deliver to each customer or person fitted a bill of purchase which shall contain signature and address of the dealer with the specifications of the lenses and frames, and the price charged.

Good-bye to Asthma. Persons suffering from that extremely trying trouble known as asthma know what it is to long with all their hearts for escape as from a tyrant. Never do they know when an attack may come and they know that to struggle unaided is vain. With Dr. J. D. Kellogg's Asthma Remedy at hand, however, they can say good-bye to their enemy and enjoy life again. It helps at once.

Of Much Value to Students

The collecting and preserving of insects and the mounting of insect collections has become an important part of the work of the students in many of our schools. The teachers who have specialized in agriculture have learned something of the methods of collecting and preserving insects and are arousing the interest of their pupils in this fascinating subject. In order to assist those desirous of securing accurate information Entomological Circular No. 12 "Directions for Collecting and Preserving Insects" has been prepared by J. H. McDunnough, M. A., Ph. D. This circular may be obtained free upon application to the Publications Branch, Department of Agriculture, Ottawa. It indicates concisely some of the most essential features in connection with the collection of insects, and aims to arouse an interest for intelligent collecting of insects. Insects are very delicate creatures and unless the greatest care is observed in both collecting and packing for shipment an otherwise valuable collection may be rendered practically worthless from both the aesthetic and the scientific standpoint.

For years Mother Graves' Worm exterminator has ranked as the most effective preparation manufactured, and it always maintains its reputation.

WILL THERE BE A VICTROLA IN YOUR HOME THIS XMAS ?

You cannot estimate the enjoyment received from this world-famous instrument until you have it in your own home.
