

## Hand Spramotor

Made with 4 to 8 nozzles. Wheels and row sprayer adjustable in width from 26 to 36 inches and in height 16 inches.

Mounted on cart suitable for one horse. Perfect spray for row crops, vineyards or trees. High pressure sends chemical searching into all parts of plants or trees and makes destruction *certain*. All SPRAMOTORS are guaranteed. AGENTS WANTED.

Ask for our *free* treatise on crop diseases. You should know what it tells.

# Operate Your Dairy For Top Prices

OPERATE your dairy for top prices—and at the same time operate it as economically as possible. Top prices and low expenses mean greatest profits. One way to economize is to buy a separator that is built to give the greatest value for the money you invest in it; that is, one that will skim the closest and last the longest. That is why we want you to examine an I H C Cream Harvester before you buy any separator. An examination will convince you that

## I H C Cream Harvesters Bluebell and Dairymaid

are superior in design, material, and workmanship. Investigate for yourself. You will find that I H C Cream Harvesters are the only separators with milk and dust-proof gears that are easily accessible; that they are equipped with a patented dirt-arrester which removes the finest particles of dirt from the milk before it is separated; that the frame of an I H C is entirely protected from wear by phosphor bronze bushings; that the I H C has large shafts, bushings, and bearings. They have many other features that mean

less work for you and longer life for the separator. I H C Cream Harvesters are made in two styles—Dairymaid, chain drive, and Bluebell, gear drive—each in four sizes. Let the I H C local dealer tell you all the facts, or, if you prefer, write nearest branch house for catalogues and any special information you desire.
