

D. DERBYSHIRE & Co.

DEALERS IN DAIRY SUPPLIES

Cheese Factory and Creamery Apparatus.

SHARPLES RUSSIAN SEPARATOR

It is by all odds the most popular machine on the market. It had sharp rivals with good machines—but we picked out their weak points and improved on them.

That's Our Secret of Success.

A Russian does not Require a pint of oil a day. Take an hour or longer to wash. Clog up within an hour's run. Wear out belts or spare parts.

THE BOWL ALONE REVOLVES.

Roe Pattern Babcock Milk Testers.

The best made Seamless Handages.

Chr. Hansen's Genuine Danish Rennet Extract, Butter and Cheese Color.

We manufacture and furnish all Apparatus and Supplies for the Creamery, Cheese Factory or Dairy. Inquiries cheerfully and promptly answered. Catalogues and Circulars on application.

D. DERBYSHIRE & CO.

THE ZEPHANIAH BREED WEEDER AND CULTIVATOR

We to-day present to our readers an illustration of one style of The Zephaniah Breed Weeders and Cultivators, which are creating so much interest in the minds of the farming world. They are the result of eight years of experiments by Mr. Breed, who is a well-known farmer among the hills of New Hampshire, and it seems as near perfect in its work as a machine can be. We are assured not only by the manufacturers of these tools, but by those who used them last year (which was their first upon the market) that by using them according to directions the owner has no need to hand-hoe his crops at all, but that the crops are finer than those grown in any other way, and the fields are kept entirely free from weeds, or so nearly so that a single handful cannot be found on an acre late in the season.

One reliable gentleman informs us that with one of these he took the entire care of two acres of corn planted on sod land in just eight hours' time between planting and cutting time. And he adds that he had a fine crop and scarcely a weed could be found the last of the season.

That they are a perfect success is shown by the fact that they met with a large sale last year in every state east of the Mississippi river, and north of Mason and Dixon's line, also in eight other states and in Canada. They were warranted in every case to give perfect satisfaction or the purchase money would be refunded, but as yet the Company has not been asked to refund one cent for any reason whatever.

They are adapted for the cultivation of all farm-hoe crops, including all the vegetables. This statement may sound strange, but the circular gives ample proof of its correctness.

We believe that in the use of this tool every farmer will find that which he has so long wished but hardly hoped for, entire relief from the drudgery and hard work consequent upon growing hoe crops. The manufacturers, The Zephaniah Breed Weeders and Cultivators Co., No. 26, Merchants Row, Boston, Mass., issue a copiously illustrated and very interesting circular, which they will be pleased to send to all those who will send them their names. In it are found strong testimonials from gentlemen with a reputation in their own states if not throughout the nation. All speak of this implement in the highest terms of praise as follows:—

"Wouldn't part with it for \$50, if we couldn't get another." ADAMS BROS., Jeffrey, N. H.
"It has been a prize to me. Saved at least \$20 this year." F. L. WARREN, Dalton, Mass.
"Would not be without one if I had to pay \$50 for it." C. P. FARNSWORTH, So. Lincoln, Mass.
"Am enabled to raise twice the amount of field crops with less help than formerly." A. B. PIERPONT, Waterbury, Conn.

"It paid for itself in one day cultivating beans." CLARK ALLIS, Medina, N. Y.
"It did away entirely with hand-hoeing when used in time." N. E. DIAMANT, Cedarville, N. J.
"For destroying weeds and stirring the soil your Weeder is the most valuable tool I have ever seen. It will do the work of 20 men and do it better. It is the best tool made." D. E. MONTYRE, Cadillac, Mich.

In conclusion we feel like urging upon our readers to avail themselves of the use of this implement and thus rid themselves of such a vast amount of hard work as has heretofore been expended upon hoe crops and which is now rendered entirely unnecessary. These tools are made in a variety of Sulky, walking and Island Machines, and the prices are very reasonable when compare with the great good they accomplish.

PLANTS
TOBACCO,
TOMATOES,
CABBAGE,
STRAWBERRIES,
SWEET POTATOES.

WATERS
EVERY PLANT.
BETTER WORK
than can be done by hand.

FULLER & JOHNSON BEMIS TRANSPLANTER.

The above cut shows the Planter. A driver and two boys plant 3 to 6 acres per day. Waters every plant. Much better work than hand planting, and can plant whether wet or dry. No journals to wear out or packing wheels to ball up. Very simple, strong and durable. Will last a life time. No tobacco grower can afford to plant by hand when a machine can be had.

Agents Wanted where there are none already at work,
Fuller & Johnson M'f'g Co.,
