# Dilatation and spasticity

*A prominent authority of international reputation who has made an exhaustive study of the therapeutic value of Liquid Petrolatum says that laxatives of all sorts increase the spasticity of the intestine, whereas liquid petrolatum lubricates and protects the sensitive surface of the spastic bowel, at the same time softening the intestinal contents so as to permit passage through the bowel without mechanical irritation.*

**N**UJOL is especially suitable for all forms of intestinal constipation. It is the achievement of an organization of fifty years' experience in the making of similar products.

Nujol is scientifically adapted by both viscosity and specific gravity to the physiology of the human intestines. In determining a viscosity best adapted to general requirements, the

makers of Nujol tried consistencies ranging from a water-like fluid to a jelly. The viscosity of Nujol was fixed upon after exhaustive clinical test and research and is in accord with the highest medical opinion.

Sample and authoritative literature dealing with the general and special uses of Nujol will be sent gratis. See coupon below.
