DR. HANS VON BULOW TO WILLIAM KNABE & CO.

AFTER CONCERT TOUR 1890.

Dear Sir:—My renewed and by more numerous aggravating circumstances, as bad health and a tiresome travelling—enlarged experience of your Pianos this (second and last transatlantic) season has throughout confirmed myself in the opinion I expressed last year, viz: that sound and touch of the Knabe Pianos are more sympathetic to my ears and hands than sound and touch of any other pianos in the United States. As I met with frequent opportunities of establishing comparisons between the Knabe Pianos and instruments of rivalizing or would-rivalizing producers, I dare now add that I declare them the absolutely the best in America.

With sincere regards, yours truly,

DR. HANS VON BULOW.

A Great Hotel Fire. SYRACUSE, N.Y., Oct. 10.—Two most disastrous fires that have visited Syracuse for many years was discovered in the Leland Hotel at 12.30 this morning. An eye-witness of the fire says he is positive that at least twenty-five persons have lost their lives and many more have been more or less injured. One woman was being lowered from a window by the aid of a rope. She had reached a point opposite the third story when the rope became ignited from a burning sill. The rope parted and the woman fell to the pavement. Her brains were dashed out and her body flattened into a shapeless mass. The number of the dead buried within the structure of the Leland Hotel, the charred remains of those who he buried beneath the great heap, it is now impossible to state definitely. Of the guests registered on the day before the disaster not one is now unaccounted for, but of the others who were within the building, of the servants and non-tenant guests, of hundreds of horrified spectators, the accounting is small. As far as known the following is a list of the dead: Annie Cammins, 24, of New York, servant, jumped from the fifth floor; William E. Horner, Elizabeth N.J., was coming down from the fourth floor on the fire escape, when the rope broke and he fell; he died this morning; Bridget Doyle, of Marquette, aged 25, jumped from the sixth storey window and died in the patrol wagon while on her way to the hospital; Mary Doyle and Mary Padden, servants, both residents of this city, are missing; no trace of them could be found, and it is supposed that they perished in the flames.

Owing to one large increase in receipts, which the demand has not been able to cope with, there has been a decidedly easier feeling in Ontario flour and some receipts are being offered at lower prices. boxes. The market closes very dull with quotations nominal at 10c to 10 1/2c for finest Western September. Some holders state that it is difficult to get over 10c for finest colored and 10c for finest white. But if a buyer had an order to fill for finest colored Western September for say 1000 boxes he would have to pay probably 11c. A dealer who is just returned from the country says that he never saw the carpet with so many shades of color as this period of the year as at present. The make he also says is still going on. At Brockville to-day there was no business done, buyers and sellers being too far apart in their views to admit of trading. We quote as follows:—
