

The Largest Individual Radiator
Manufacturers in the World

SAFFORD

Patent Screwed Nipple

RADIATORS

Ahead of all for Heating by Hot Water or Steam.

Are made in various shapes to fit Corners, Angles, Columns, Circles, Windows and Curves.

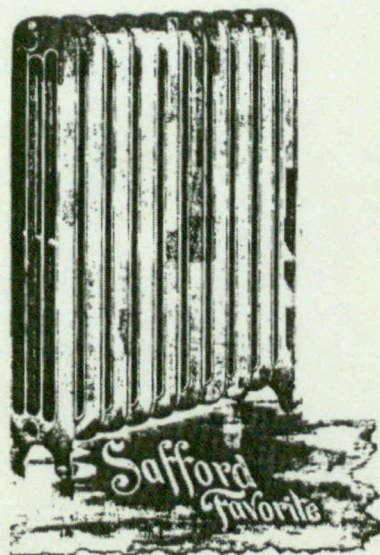

They are the lightest and strongest made.

They never leak.

The only Radiator in the World constructed with Screwed joints without Packing or Bolts.

They are of varying heights as needed and Plain or Ornamental as one's taste dictates.
