Jan. 20, 1882.

The Massey Manufacturing Company:

I purchased of your agent, A. Gill, one of your "Toronto" Reapers, and it has given good satisfaction, it being of light draft and easily handled, and to all appearances strong and durable.

After Three Seasons' Use.

TYNEMOUTH CREEK, N.B., Jan. 9, 1882.

The Massey Manufacturing Co.:

This is to certify that I have used the Toronto Mower for the past three seasons, and it has given perfect satisfaction in every way, and take pleasure in recommending it to the public as a first-class machine.

JOHN S. PARKER.

"A Grand Success."

BAY DU PIN, April 12, 1882

C. S. Ramsay, Esq., Newcastle:

DEAR SIR,—In answer to your inquiry of the 2nd inst., I have no hesitation in saying that the Reaping Machine I purchased from you in August, 1879, is a grand success. The cutter bar is so entirely under the command of the operator, and the power to control the knife is used with every facility by the driver. The adjustment to pick up lodged grain is perfect and used at the will of the driver without inconvenience. In conclusion, I must say that the Whately Reaper is less embarrassing to control, and makes better work than any other Reaping Machine I ever saw, without getting out of order. No breakage has occurred since I had it; I am well pleased with the Machine.

Hoping you every success in the sale of these machines that farmers may have the benefit of the same,

I am, Sir, your obedient servant,

JOSEPH B. WILLISTON.

THE
TORONTO REAPER.

THE
TORONTO REAPER.

THE TORONTO REAPER FOR 1882.

Proud of his Toronto Reaper.

SAURIS EAST, P. E. I.,
June 29, 1881.

A. P. Tippet & Co.:

I purchased from your agent, James Keefe, last year, one of your Toronto Mowers and also one of your Toronto Reapers, which I am proud to say has given every satisfaction. I have used both over rough and smooth ground and have given them a fair trial. I have cut lodged grain with the Reaper, which I did not think a Reaper could do, making a good job. I have had no breakage, the cutters run light and are very easily handled. I freely recommend the Toronto Cutters as good, substantial machines, to any farmer in need of one.

WM. MCGILVERAY.

No Lost Time on account of Breakages.

ROLLO BAY, P. E. I.,
Jan. 16, 1882.

The Massey Manufacturing Company:

I purchased last season from your agent, James Keefe, one of your Toronto Reapers, which I am happy to say has given good satisfaction. I have cut over very rough ground and cut a great deal of grain very much broken down, and found it to work easy; it is easily handled, owing to its simple construction. I have used the Buckeye Reaper for four seasons, and laid it up and bought a Toronto Reaper. I think the Toronto Cutters are just what we farmers want, as they are built of good material. No time lost on account of breakage.

Yours, etc.,

ALFRED CAHILL.

Every Farmer in New Brunswick using Toronto Mowers would endorse this letter.

SMITH'S CREEK, King's Co., N. B.,
March 7th, 1882.

Toronto Reaper and Mower Co.:

GENTLEMEN,—The Toronto Mower I purchased from your agent, A. B. Hayes, Esq., of Worton, in July, 1879, has given excellent satisfaction, consequently I have used it for three seasons and it has only cost me ten cents for repairs. I think for lightness of draft and adaptness to work on uneven ground it has no equal; in fact, I can endorse all that I ever heard in favour of it.

Yours respectfully,

JAS. T. KING.
