The Patented **Actual Business Plan**

Of teaching is the one in operation in this school, and we know it to be infinitely superior to the old plan. By means of it a student will get a better business training in three months' work than he could get by an unlimited amount of text-book study and mechanical copying of imaginary book-keeping records.

THERE'S A LESSON

not down on the curriculum of high school and college that every young man should learn.

It's the lesson of neatness in dress and clothes. It's hard to be neat in old clothes; they take away a fellow's self-respect.

Self-respecting young men can realize our helpfulness when they get into a suit made from one of our Blue, Black or Mixed Cheviots at \$18.50.
