

2. A State Party shall notify the (International Authority) of the name and location of any facility which intends, in the year following submission of the Annual Declaration, to produce, process or consume any of the chemicals listed in Schedule [3] (on an industrial scale - to be defined). 1/

VERIFICATION

The verification régime for chemicals listed in Schedule [3] will comprise both the provision of data by a State Party to the [International Authority] and the monitoring of that data by the [International Authority]. 2/

---

1/ The requirement contained in this provision is to be considered further.

2/ Some delegations consider that provision should be made for resort to an on-site "spot-check" inspection, if required, to verify information supplied by a State Party.
