

**AGREEMENT RELATING TO THE INTERNATIONAL TELECOMMUNICATIONS
SATELLITE ORGANIZATION (INTELSAT)**

PREAMBLE

The States Parties to this Agreement,

Considering the principle set forth in Resolution 1721 (XVI) of the General Assembly of the United Nations that communication by means of satellites should be available to the nations of the world as soon as practicable on a global and non-discriminatory basis,

Considering the relevant provisions of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, Including the Moon and Other Celestial Bodies, and in particular Article I, which states that outer space shall be used for the benefit and in the interests of all countries,

Noting that pursuant to the Agreement Establishing Interim Arrangements for a Global Commercial Communications Satellite System and the related Special Agreement, a global commercial telecommunications satellite system has been established,

Desiring to continue the development of this telecommunications satellite system with the aim of achieving a single global commercial telecommunications satellite system as part of an improved global telecommunications network which will provide expanded telecommunications services to all areas of the world and which will contribute to world peace and understanding,

Determined, to this end, to provide, for the benefit of all mankind, through the most advanced technology available, the most efficient and economic facilities possible consistent with the best and most equitable use of the radio frequency spectrum and of orbital space,

Believing that satellite telecommunications should be organized in such a way as to permit all peoples to have access to the global satellite system and those States members of the International Telecommunication Union so wishing to invest in the system with consequent participation in the design, development, construction, including the provision of equipment, establishment, operation, maintenance and ownership of the system,

Pursuant to the Agreement Establishing Interim Arrangements for a Global Commercial Communications Satellite System,

Agree as follows:

ARTICLE I

Definitions

For the purposes of this Agreement:

(a) "Agreement" means the present agreement, including its Annexes but excluding all titles of Articles, opened for signature by Governments at Washington on August 20, 1971, by which the international telecommunications satellite organization "INTELSAT" is established;
