

13. Ensure that mining regulations relating to environmental safety and health regulations take account of available technologies.

Coal Transportation

14. Encourage the development of efficient, economic and environmentally acceptable transportation systems with adequate capacity and flexibility (e.g. inland transportation facilities, ocean port facilities and sea-going carriers) where necessary to handle expected increases in coal trade volumes.

---

NOTE

An official French translation of the Principles for IEA Action on Coal will be issued by the IEA at a later date.
