Hamilton Youth Held for Man-slaughter in Connection With Reid's Death.

FIGHTING COMBINE

Mayor Allan Says That Anyone Can Get Milk at Eight Cents Per Quart.

(Special to The Toronto World.) HAMILTON, Dec. 8.—(Can. Press.)—The case of the Hamilton youth held for man-slaughter in connection with the death of Thomas Reid, who was killed Saturday night, when a horse and buggy struck a motor car in which he was a passenger, will be adjourned until next week.

Opposed Annexation. E. H. Clarke appeared before the Ontario Railway and Municipal Board yesterday and asked that a portion of Nelson township be annexed to the Village of Burlington. H. Rose, K.C., of Toronto, appeared for the residents of Nelson Township.

Mayor Allan is determined to put the milk combine in Hamilton out of business. At least he intimated so yesterday. The mayor said that he could have milk delivered to any door for eight cents per quart and in one part of the city a man was delivering it for seven cents a quart. The mayor was quite pleased at the result of his fight against the large milk combine.

With the singing of the doxology on Sunday evening in the boardroom of the Y.W.C.A., the campaign to raise \$10,000 for the completion of the building was reported that the committee had raised \$12,000 more than necessary to secure the 1000 donation from Lord Strathcona.

HAMILTON WOMEN GET HEAVY FINES

Restaurant Patrons Who Called for Soup Were Served With Whiskey Too.

Two women managers of Jewish restaurants in Hamilton, on a conviction of selling liquor without a license were assessed yesterday in the courts with heavy fines in each case. The license department which had been holding their cases under consideration for some time, tells of an interesting policy followed in supplying thirsty patrons.

It seems that the "serve-self" method was used to some extent. A customer calling for soup would repair to a small room in the rear, where the bowl of soup was handed over and a small glass of whiskey in addition. The practice had served well for a time, but the size of the business on Sunday led to a discovery.

Mrs. Alter and Mrs. Swartz were the offenders, the former being fined \$200 and the latter \$100, with costs in each case.

GOOD WORK DONE THRU HOSPITALS

Popularity of Private Institutions is Growing by Leaps and Bounds.

MACMURCHY'S REPORT

No Serious Trouble Was Encountered in Any Part of Ontario.

The popularity of private hospitals is growing by leaps and bounds in the province. In the northern and newer parts especially is the demand increasing, the chief reason being because of the comparative ease of obtaining such an institution in a small centre where the necessity of medical treatment is large, but the strength of municipal organization does not warrant a great expenditure.

Dr. H. H. MacMurphy, inspector of homes for the feeble-minded, orphanages and infant institutions under the provincial government, reported that during the first year of his inspection the expenditure has been considerable, but that the work has been done well. There have been instances in some of the larger cities where there has been an ignorance of the act and where overcrowding has had to be resorted to. In some places, there has been a lack of cleanliness and the patient has had to suffer in this regard. The energy of these places considered the demands of the afflicted ones before that of expense.

One of the requests asked by representatives of the Women's Institutes in the north is for the privilege of having the rights of a private hospital without the expense of erecting a building in the customer's home. They desire a medical cabinet with complete drug and first aid accessories to give treatment to injured lumbermen and railway employees, who might suffer seriously if forced to an hospital or to a distant doctor. It is claimed that in one district persons have traveled many miles to see a physician, but have learned of his absence elsewhere.

According to dispatches the brothers were found murdered by strikers as they lay sleeping in a rooming house. The men were killed as they lay sleeping in a rooming house. The brothers were also shot there, but no one was hurt. The brothers slept in the rooming house. All three men were shot thru the head.

ALL ANXIETY REMOVED. PORT HURON, Mich., Dec. 8.—(Can. Press.)—The steamers J. A. McKee and Turret Cape, for which some fear has been felt, are both down and running. The McKee passed Port Huron last night and the Turret Cape passed down at 11 o'clock this morning.

CANADIAN LOAN IS NOW GOING STRONG

Early Non-Success Has Given Way to Buoyant Feeling and Demand Good.

FINANCIAL FIRMS BUY New Issue Closed Stoutly Yesterday on London Market.

LONDON, Dec. 8.—(C.A.P.)—The Canadian Press understands that the new loan for the City of Prince Albert, Saskatchewan, being underwritten here, is given \$1,000,000 in five years at 90.

Commenting on the result of the Canadian government loan, The Daily News and Standard both agree that whatever disappointment may be felt at its success will be quickly dispelled by the strong demand that sprang up in the afternoon when the scrip recovered to 1/4 discount. Insurance and kindred companies were heavy buyers, one firm alone purchasing \$400,000 of stock.

No New Experiences. The experience of this loan, it may be pointed out, is similar to that of previous emissions, investors awaiting a favorable opportunity to get in on the ground floor.

Brokers reported a good investment demand beyond that already mentioned, and underwriters should soon be relieved of a large portion of their burden. At the close of the market, The Times says the new issue was in good demand at about 3/4 discount.

EIGHT TRUE BILLS IN ASSIZE COURT

The grand jury yesterday returned the following true bills for Judge Denton in the criminal assize court: W. H. Cox, false pretences; Charles Clayton, receiving; Max Collins, receiving; Fred G. Foster, theft and receiving; Arthur R. E. Burrill, Wm. Staines and Albert Bissenden, theft and receiving; William Darbyson, false pretences.

The case against Darbyson was commenced by the crown. It is claimed that he sold a team of horses to Andrew Nelson and guaranteed them sound in limb, body and wind. Nelson says that within three hours after he bought the horses and failed to draw a load of larders up Avenue road. He further alleges that the defendant agreed to give him his money back if the horses were not what he claimed. He went to get the money, but could not find Darbyson.

CALUMNET, Mich., Dec. 8.—(Can. Press.)—Three hundred Cornish miners employed by the Champlain mine at Rainesdale in the copper strike district, aroused by the murder of Arthur and Harry Jame and Thomas Daily, Edgemoor, last morning, today held an indignation meeting and demanded a demand was made for the enforcement of law. TRY TO STRAIGHTEN TANGLE IN ARIFF

State Department at Washington in Negotiation With French Ambassador.

WASHINGTON, Dec. 8.—(Can. Press.)—Preliminary negotiations have been held between John Bassett Moore, counselor in chief of the department and the French ambassador in an attempt to clear up a difficulty which has arisen from the provisions of the new tariff law that provision which allows the levy on process of the United States with ineffectual powers to investigate the books, records and prices of foreign manufacturers.

When exporters fail to permit such examination the secretary of the treasury is authorized to levy an additional duty of fifteen per cent ad valorem against the goods, and France protested vigorously to the state department, which is now in process of such an additional duty on goods from her manufacturers and against ineffectual powers by officers of the United States.

Since the receipt of the protest from France the treasury department has failed to make the announcement to collectors usual in such cases, and the provision has not been enforced. So far as is known there have been no such protests from foreign governments, and there have been no cases where exporters refused to allow an investigation of their records.

THE MOORE AVENUE BRIDGE.

Who is responsible for the Moore avenue bridge (south of Mount Pleasant Cemetery) being impassable and closed to traffic? Who should repair it and why is it not repaired at once? These are questions that residents in Moore Park and beyond ask one another daily, but nobody seems to be taking any action. Meantime the bridge is closed to traffic, and the whole traffic burden is transferred to a smaller bridge on East Heath street, which was never intended to take the full burden of all the traffic to Bayview avenue south of Mount Pleasant. In fact, certain vehicles dare not use this bridge for fear of accidents, and have to take the Eglinton avenue detour, altho the objective point may be a considerable distance south of the corner of Heath street and Bayview avenue. A condition such as this is a disgrace to the County of York in the first place, the Township of York in the second place, and last, but not least, the City of Toronto, for it is traffic from the city that is most inconvenienced by the lack of a safe highway at this point.

KEEN INTEREST IN PROPOSED MARKET

Big Meeting This Evening in Annette St. School to Discuss It.

BAZAAR AT RUNNYMEDE

First Service to Be Held in Scarlett's Flair's Church, on Sunday.

The citizens of the western section of the city have long felt the need of some place where they can purchase food-stuffs directly from the producers, but not until recently have they been in a position to secure such a retail market. A site which is regarded as almost ideal is in possession of the city, the same site which many years ago in the town of Toronto Junction Councillor J. G. Wright tried to secure for the corporation in order to establish a civic market. During the warm days a curb market is held there every day, but no provision is made for the comfort of purchaser or vendor. A full turnout of citizens interested in reducing the cost of living is expected at tonight's meeting.

Trustees Candidates. Trustee James A. Ellis, one of the present representatives of Ward Seven on the board of education, last night announced himself a candidate for school trustee for the ensuing term of two years. Mr. Ellis has had a very satisfactory record during the four years he has been on the board, and his announcement was received with delight by his friends. The only other candidate named was Mr. Matthew Wayman, a Socialist upholsterer, who does not reside in West Toronto, and who was defeated for the office last year.

Ready For Service. The Scarlett Flair's Methodist church have completed the basement of their new church and have placed a temporary roof over the foundation. The remainder of the building will be finished in the spring, but in the meantime services will be held in the completed part. It will be opened for the first time on Sunday.
