OF THE

WILLIAMS SINGER SEWING MACHINESLies in the fact that the material used in their construction is of a very
SUPERIOR QUALITY,And that extraordinary pains are taken to
see that every part is properly fitted
and adjusted to its position.

Ladies who have used the Williams' Machines for Twelve or Fifteen years have remarked that they have not been subjected to the irritating annoyance endured by persons using other machines, such as breaking threads, skipping stitches, &c. They have also noticed with extreme satisfaction that the Williams' Singer Machines are not subject to "fits," do not need repairs every few months, and do not get "played out" in two or three years' time, like some inferior machines.

We can refer intending purchasers to thousands of parties who have used our Machines for over ten years, and who are continually recommending their friends and acquaintances to get the Genuine Williams' Machine, and to take no other.

The author is Mr. Louis Perrault, said to be a distinguished and prominent French Canadian citizen of Montreal, and a wealthy printing contractor (it is not added Printer to the Corporation), who, in an interview with a Chicago news reporter, gave his opinions very freely as to the future destiny of Canada. It may possi-
