

## CUT OUT FRILLS IN THE SCHOOLS

Management Committee of  
Board of Education Advance  
Number of Changes.

### ELIMINATE EXPENSE

That Remaining Special Super-  
visors Would Be Dis-  
pensated With Advised.

Reorganizations plans to cut out  
frills from the Toronto high and pub-  
lic school system were considered and  
advanced action was taken at a  
special meeting of the management  
committee yesterday afternoon.

Mr. Steele, chairman, stated that  
the proposals before the committee  
were the outcome of a series of ques-  
tions formulated by the chairman of  
the year's board, and officially replied  
to by Chief Inspector Cowley. The  
questions and replies were sent to a  
sub-committee.

Trustee Fairbairn presented the re-  
port of the sub-committee. He stated  
that its adoption by the board would  
make big and needed changes, as the  
managers and children were overladen  
with extra subjects and an overworked  
curriculum.

The committee's report, which made  
the following recommendations, was  
adopted:

That the commercial class books and  
the public schools be co-  
ordinated with the courses of the high  
school of commerce, the attendance  
and extent of work to be regulated by  
the inspectors so as to secure ade-  
quate numbers in each class.

That sub-primary courses be intro-  
duced as soon as possible.

That a parental school be estab-  
lished under the auspices of the city  
council, in respect to the custodial  
side of the institution for children  
who cannot be satisfactorily dealt with  
in the regular day schools.

That the remaining special super-  
visors be dispensed with and that  
adequate number of inspectors re-  
quired by the provincial department  
be appointed.

In connection with the penny banks  
the committee will ask the board to  
order the elimination of collections in  
classrooms.

A recommendation was adopted  
that cadet corps military drill be con-  
sidered outside school hours, the mem-  
bership in the corps to be voluntary.

Trustee McTaggart said that owing  
to the present funds in the college  
he was sending his son to the techni-  
cal school.

## CARRIE IS GUILTY SENTENCE MONDAY

Charge of Assault on Hilda  
Williamson Was Sub-  
stantiated.

### HAD NARROW ESCAPES

Attorney Likened Girl to  
"Poor Pauline," and  
Bail Refused.

Found guilty of assaulting 16-year-  
old Hilda Williamson, a domestic in  
his employ, Kenneth Norman Carrie,  
a former civic employee, was remanded  
for sentence until Monday by Judge  
Coatsworth, in the sessions yesterday  
afternoon.

His lordship refused to al-  
low bail, and Carrie was removed to  
the jail, where he will be held until  
he comes up for sentence on Monday.

In giving his evidence the little girl  
told a pathetic story of being mal-  
treated by Carrie. She swore that  
she had been beaten on numerous  
occasions by the defendant. In testi-  
fying the girl said that on one occasion  
Carrie had come home in a drunken  
state and had thrown her to the floor  
and had beaten her with his fists  
and a lath. He had dragged her by  
the hair to an upstairs room. This  
assault took place, she said, when  
Carrie found her eating some pre-  
serves which he claimed she had no  
right to touch.

During the cross-examination of the  
witness, T. C. Robinson, counsel for  
Carrie, produced a letter written by  
the girl while an inmate of Barnardo  
Institute at Niagara, to the matron  
of the Home in England, in which the  
girl confessed to having been caught  
stealing and cheating. This letter  
was, the girl said, written by her.

"Did you ever call Mrs. Carrie a  
har?" questioned Mr. Robinson.

"I did not," replied the girl bursting  
into tears.

The young girl also denied that she  
had ever thrown a stove poker at  
Mrs. Carrie while the latter was car-  
rying her baby in her arms.

Inspector Kennedy testified that  
after the police court proceedings he  
examined the girl and found her body  
to be badly discolored. One side of  
her chest was very dark and portions  
of it a greenish yellow. Both eyes,  
he said, were blackened, and one hand  
was bruised. Asked by defendant  
counsel if there were any abrasions,  
the inspector said there were none.

"From my knowledge of the effects of  
kicks I would not like to say that  
even the mark on her chest was caused  
by a kick."

In his opinion the inspector thought  
a kick would have resulted in a deep-  
er and more serious wound, although,  
he said, he never saw any living person  
with so much discoloration.

Dr. Hanges, medical health officer,  
stated that the discoloration shaded  
from purplish-red to greenish-yellow.  
I noticed scratches behind the left  
ear and on the right side of the neck,"  
he said. To Mr. Robinson, he said  
he could not state from the nature of  
the girl's skin how heavy the blows  
that caused the discoloration must  
have been.

"What would you say as to the  
propriety of those blows and their ef-  
fects as a form of chastisement; that  
the chastisement took rather a severe  
form?" questioned Judge Coatsworth.

"I would say extremely severe," re-  
plied the doctor.

Several doctors who examined the  
girl were called, including Dr. R. E.  
Gaby, the family physician, who  
stated that the girl was anemic, her  
skin was sallow and that her skin was  
tender, and would be unusually suscep-  
tible to blows of any sort.

Dr. T. A. Watson, who examined the  
girl yesterday morning, said that by  
drawing a finger down her back, by  
the shoulder blades, he had produced  
a white line in the flesh which gradu-  
ally turned red. "I would venture  
to say that it is still there," he said.  
"Her skin is so susceptible that it  
would hold traces of a slight mark  
for 24 hours easily," he said.

Mrs. Carrie called.

The next witness called, with a large  
white bandage around her head she  
asked to the witness stand. A stool  
had been placed in the box, and she  
has not fully recovered from a re-  
cent illness. In her evidence Mrs. Car-  
rie said she was in the sitting room  
with her husband, Hilda was ironing,  
and asked if she could stay up and  
finish it. My husband went down to  
give her some advice. He denied hav-  
ing kicked the girl, saying that she had  
fallen down the cellar stairs. He  
then came upstairs and started to  
chastise the girl with a lath.

Thought Baby Hurt.

Carrie's own evidence was somewhat  
the same as that of his wife. He gave  
as his reason for beating the girl that  
he thought the baby had been beaten  
and that he was in a frenzy. He said  
he was a total abstainer from liquor and  
had never struck the girl previously, al-  
though he said he had often endeavored  
to give her some advice. He denied hav-  
ing kicked the girl, saying that she had  
fallen down the cellar stairs. He  
then came upstairs and started to  
chastise the girl with a lath.

## THE J. H. PORTER SHOE STORES

(LATE SHOE BUYER AND MANAGER FOR THE ROBERT SIMPSON CO.)

## EASTER SHOES AT SPECIAL PRICES

THE ATTENTION given to our announcements by the purchasing public is evidence of the appreciation of the fact that  
"something better" at "less money" is obtainable at our stores.  
WE DO NOT sell obsolete styles, seconds or damaged goods. We guarantee every pair of shoes we sell to be perfect in both  
manufacture and material, whether regular, or sold at a reduced price. COME EARLY. MAIL AND TELEPHONE ORDERS  
FILLED.

600 Pairs Boys' and  
Youths' Boots

Just the thing for spring wear, made  
from strong box kip leather on a neat  
Blucher last, solid leather, double soles.

Boys', sizes 1 to 5. Sale price 1.95

Youths', sizes 11 to 13. Sale price 1.65

Women's 4.00, 4.50 and 5.00 Boots 2.95

Dainty spring styles, in patents with dull kid, plain or fancy  
cloth tops, finest dull kid, tan, mahogany or black calf, brown or  
black suede and white nubuck; thousands of pairs to choose from  
in all sizes; choice of button, Blucher, or the new straight laced  
balmoral.

Boots that sell regularly at \$4.00, \$4.50 and \$5.00. 2.95

See our Yonge Street Windows. Sale price

Men's 4.00, 5.00 and 6.00 Boots 2.95

Button, English, straight lace, Blucher and Orthopedic lasts,  
tans, mahogany, velours calf, gummetal, patents and dongola kid  
leathers. Every pair are made by the Goodyear welt process with  
leather, duck or net linings; some are the regulation tan calf Army  
Boot; sizes 4 to 11.

These Boots are less than factory cost. Sale 2.95

price

## TAKE STEPS TO UNSEAT GALT DEPUTY REEVE

Ex-Ald. Willard Seeks Disquali-  
fication of George Ruggess.

### Special to The Toronto World.

GALT, March 17.—(Ex-Alderman A.  
E. Willard has taken action to unseat  
First Deputy Reeve George Burgess  
of the City of Toronto, on the ground  
that he had been doing work for  
the municipality in his blacksmith  
and carriage shop.

At the municipal elections in Janu-  
ary, A. E. Willard was defeated for  
alderman, and at an after election  
meeting he charged Burgess with  
being responsible for his defeat.

The hearing of the case has been  
set for Thursday, March 25, before  
the county judge at Berlin.

## MORE THAN HALF WILL BE TAXED

Exempted Property Except  
Schools and Churches, is  
Held Liable.

### TAKING A HAND NOW

Action of Legislature May  
Mean Further Loss to  
Fire Officials.

The Ontario Government war tax  
of one mill on the dollar takes in all  
exempted property in Toronto except  
schools and churches. On the regular  
assessment of the city, which is \$576-  
445,224, while under the extended  
assessment \$42,600 extra will be col-  
lected, making the total \$619,044. The  
total exempted assessment for this  
year is \$74,704,427, and of this amount  
\$42,600,000 will have the new war tax  
levied on it.

May Cut Deeper.

It would appear that Fire Chief  
Thompson and ex-Deputy Chief Noble  
stand to be substantial losers as the  
result of the recent investigation into  
conditions at Portland street. The  
legislature has refused to allow the  
additional grant to the Firemen's  
Benefit Fund, and as a result the  
chief's pension will be cut about \$700  
and Noble's \$400, and there is a possi-  
bility of a long way out of the  
judge comes before council.

## WHAT DYSPEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE.

"Indigestion and practically all forms  
of stomach trouble are, nine times out  
of ten, due to acidity; therefore stomach  
sufferers should, whenever possible,  
avoid eating food that is acid in its  
nature, or which by chemical action in  
the stomach develops acidity. Unfortunately,  
such a rule eliminates most foods which  
are pleasant to the taste as well as those  
which are rich in blood, flesh and nerve-  
building properties. This is the reason  
why dyspeptics and stomach sufferers  
are usually so thin, emaciated and lack-  
ing in that vital energy which can only  
come from a well-fed body. For the  
benefit of those who are afflicted with  
indigestion, I would suggest that they  
be obliged to exclude from their diet all  
starchy, sweet or fatty food, and are  
trying to keep up a miserable existence  
on food products, I would suggest that  
you should try a meal of my food or  
foods which you may like, in moderate  
amount, taking immediately afterwards  
a teaspoonful of bleached magnesia in  
a little hot or cold water. This will neu-  
tralize any acid which may be present,  
and which may be formed, instead of  
the usual feeling of uneasiness and full-  
ness, you will find that your food agrees  
with you perfectly. Bleached magnesia  
is doubtless the best food corrective and  
antacid known. It has no direct action  
on the stomach, but by neutralizing the  
acidity of the food contents, and thus re-  
sulting in the cure of the acid condition  
which influences the delicate stomach lin-  
ing, it does more than could possibly be  
done by any drug or medicine as a  
purgative. I believe in the use of medi-  
cine whenever necessary, but I must ad-  
mit that I cannot see the sense of loading  
an inflamed and irritated stomach with  
drugs instead of getting rid of the acid  
—the cause of all the trouble. Get a lit-  
tle of the acid food contents, and thus re-  
sulting in the cure of the acid condition  
which influences the delicate stomach lin-  
ing, it does more than could possibly be  
done by any drug or medicine as a  
purgative. I believe in the use of medi-

purgative. I believe in the use of medi-  
cine whenever necessary, but I must ad-  
mit that I cannot see the sense of loading  
an inflamed and irritated stomach with  
drugs instead of getting rid of the acid  
—the cause of all the trouble. Get a lit-  
tle of the acid food contents, and thus re-  
sulting in the cure of the acid condition  
which influences the delicate stomach lin-  
ing, it does more than could possibly be  
done by any drug or medicine as a  
purgative. I believe in the use of medi-  
cine whenever necessary, but I must ad-
